A Fresh Outlook

Color trends change constantly, inspired by nature and prevailing social fads. Color can set the mood, brighten a room, or completely transform a space. Classic shades and current hues combine to bring life to home exteriors, interiors, and furnishings.

ProVia understands the impact that a great color has on your home's curb appeal, and our palette has been completely refreshed to give you even more color options for your entry doors, storm doors, vinyl windows, and patio doors.

Our selection of traditional hues has been categorized, and contemporary "trending" colors have been added, creating three very distinct color palettes to suit your taste: Natural Instincts, Stately Shades, and Freshly Picked.

Our traditional offering includes a range of hues and popular favorites, like Nightfall, Rustic Bronze and Mountain Berry. And if you're in the market for something unique, any one of our Trending colors (denoted by the paint droplet ) elevates the mix to give you even more possibilities.

As you browse through this reimagined collection, we hope you find something that inspires you to get creative with your own home! Color swatches are available through your ProVia dealer/distributor.

Happy trend setting!
