ProVia® Builds Doors
THE PROFESSIONAL WAY

On the Cover
Signet® 8 foot Cherry 002CP-449 French entry door stained Coffee Bean with clavos, hinge straps, and Trilennium® Eclipse hardware in Black

ProVia caters to a niche within the door market that demands a high degree of customization coupled with outstanding quality. Our company defines the products that meet this demand as "professional-class." We have found success by adhering to a set of core values that guide us as we develop rewarding, long-term relationships with our employees, customers and homeowners.

ProVia custom entry doors are built to your home's exact measurements for a precise fit, protection, security, and energy efficiency. The materials that go into our custom-made doors are premium quality and exceptionally durable, far surpassing the ready-made doors at the big-box hardware stores. Our craftsmanship and care for details can be seen in each door we produce.

Beauty
A beautiful ProVia entry system will always greet your guests with classic elegance and style.

Energy Efficiency
Engineered to keep the elements at bay and your home comfortable year round.

Durability
Crafted with the finest materials and backed by our Lifetime Limited Transferable Warranty, the durability of our products can't be beat.

Security
We ensure the strength and security of every door, so you have peace of mind.

We rely on trusted building professionals, contractors, and homeowners, in partnership with our experienced team, for input on exterior design trends. We're excited to introduce new options that elevate the integrity, function and beauty of our entry doors.

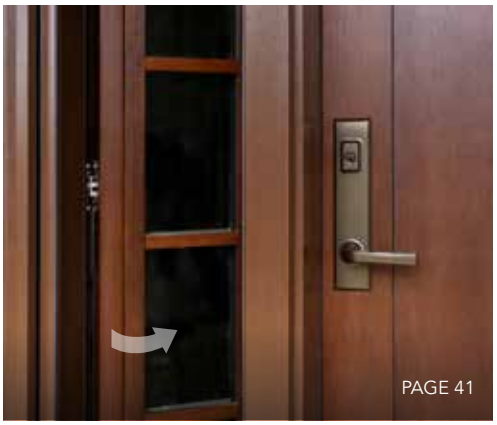

STORM DOORS

Enhance your front entry by pairing it with a storm door. This combination provides an extra layer of security, while also allowing more natural light and fresh air to flow into your home. With a stylish and functional storm door, you can enjoy the beauty of the outdoors from the comfort of your interior, all while keeping your home secure and energy-efficient.

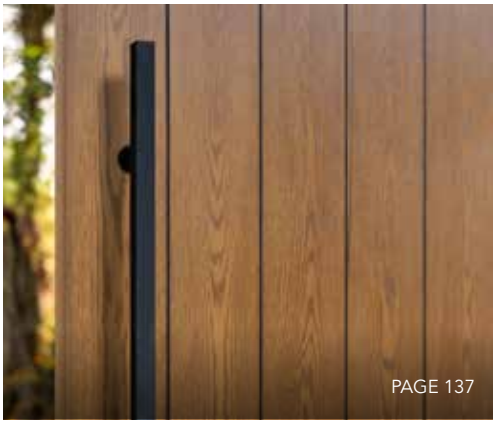

ENHANCE YOUR CURB APPEAL

Professional-grade exterior products from ProVia® boost curb appeal and offer protection and security. Boost the appearance and upgrade the privacy and safety of your home with these entry door options and accessories.

Venting Sidelite

Elevate your home's entrance with a Signet® front entry door featuring a venting sidelite. This innovative design allows you to effortlessly invite fresh air into your home while maintaining security and style. This product comes with a retractable screen to enjoy a bug-free breeze, blending the beauty of a Signet door with practical ventilation.

Door Pulls

Make a bold statement by adding a pull handle to your front entry door. Available in sleek Brushed Stainless and striking Black finishes, these handles come in both round and square shapes to match any design aesthetic. Choose between impressive 48" or 72" lengths to enhance your door's elegance and functionality. Elevate your entryway with these stunning, eye-catching door pulls that combine modern style with practical appeal.

Available on doors up to 42" wide.

Schlage® Custom™ Hardware

Schlage Custom door hardware offers the perfect finishing touch for creating a personalized entryway. Featuring premium, architecturally inspired designs with sleek, low-profile trim, it delivers a refined look that complements virtually any home style. Its innovative modular design also makes it easy to refresh your home's appearance over time by updating knobs, levers, or trim without replacing the entire lock. Backed by the trusted quality and reliability of Schlage, this hardware combines timeless style, lasting performance, and everyday security for an entryway that's as beautiful as it is dependable.

LightEn™ In-Frame Light

Make every arrival a brighter one with LightEn In-Frame Light—an innovative lighting solution built directly into your ProVia door frame. Motion-activated illumination automatically lights the way for family and guests, enhancing safety, convenience, and peace of mind after dark. Battery powered with no electrical wiring required, LightEn blends seamlessly into the frame and is available for inswing single entry doors, French entry doors, and hinged patio doors. It's another thoughtful innovation from ProVia, designed to make your home more welcoming from the moment you arrive.

Legacy™ Smooth 8 foot 116 entry door in Coal Black with two 770 sidelites and Emtek® Melrose hardware in Black

ENTRY DOOR COMPONENTS

The components are the small things that set our doors apart from the competition.
A lot of small things add up to a big difference.

Ⓐ Glass Options

The ComforTech™ Warm Edge Glazing Systems include decorative glass, Art Glass, internal blinds, and internal and external grids.

Ⓑ Glass Trim

Available in different textures and styles. Trim options will be determined based on the door style chosen. All glass trim falls into one of two main categories: Flat and Contoured.

Ⓒ Heavy-Duty Hinges

Three heavy-duty ball bearing hinges come standard with every entry system. Additional 4th hinge option for greater durability *(standard on 8' doors)*.

Ⓓ Security Plate

We include our 20-gauge security plate for extra strength and to help prevent kick-ins.

Ⓔ Sweep

Bulb and dual blade sweep virtually eliminates drafts, keeping your home comfortable.

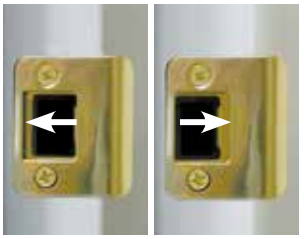

Ⓕ Z-AC Threshold

Featuring an auto-adjusting riser and built-in sealing system that adjusts to your entry door's changing needs over time, ensuring protection against air and water infiltration. Standard on Signet® and Legacy™.

Ⓖ Weatherstripping

The energy-efficient weatherstripping runs along the top and sides of the door and interlocks with the CornerShield™ for the most efficient seal you'll find for keeping moisture, wind and dirt out of your home.

Ⓗ Dust Box & Strike Plate

The dust box limits air infiltration and has a nice appearance that most other door manufacturers don't provide. An exclusively designed fully adjustable strike plate makes this unique 2-piece construction easier to custom fit.

Casing

2½" and 3½" wood casing provides a clean installation and finished appearance. Cherry, Mahogany, and Oak casing is available in Cherry, Fir, Mahogany and Oak stains; painted Poplar casing is available as well.

Signet® Fir 460-M3 SDP French entry door with Textured FusionFrame® stained English Chestnut with Trilennium® Westcott hardware in Flat Bronze

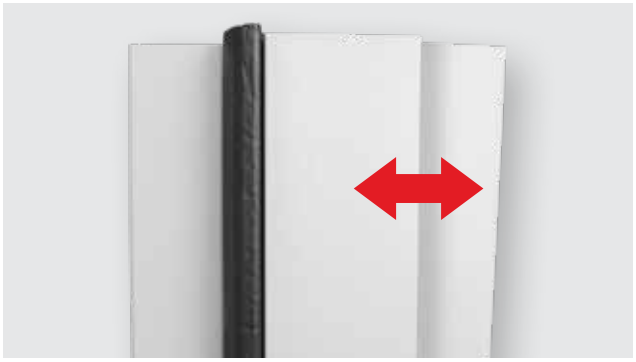

FUSIONFRAME®

Not available for outswing doors. See entryLINK for complete limitations and restrictions.
** Finish warranty will match the finish warranty of door series.*

A one-of-a-kind alternative to composite or wood jambs, this component utilizes the strength of a laminated veneer lumber (LVL) interior, the rot-proof performance of a FrameSaver® bottom, and the durability of a composite frame exterior. Offering a lifetime jamb warranty*.

Prefinished, Maintenance-Free

Available as a textured or smooth frame, providing you with the benefit of a prefinished, maintenance-free system, along with the beauty of a stain or paint finish that matches your entry door.

Floating Brickmold

Even if your walls aren't plumb, your door unit can be. With ¼" of "float," the floating brickmold adjusts to fit your needs. Remove covers, install fasteners and reattach covers for a flawless, clean install.

Plumb Indicator

Removable frame stop cover allows for concealed plumb indicator and fasteners.

- Installation made easy
- Removable frame and brickmold covers
- Eliminates unsightly fastener holes

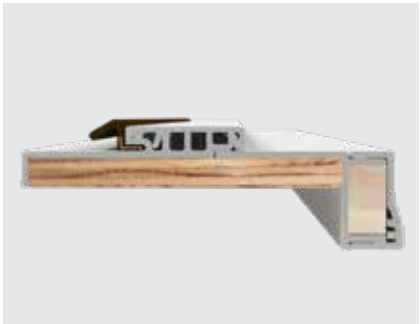

Installation Holes

Pre-drilled holes in frame for ease of installation.

Composite Bottom

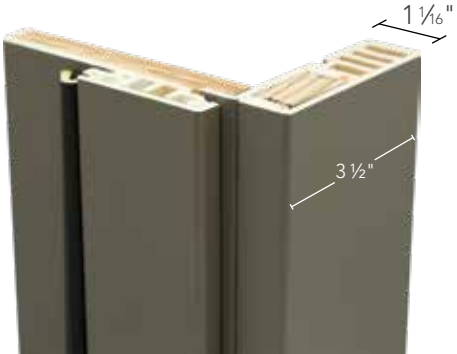

Prevents water absorption, warping and rotting.

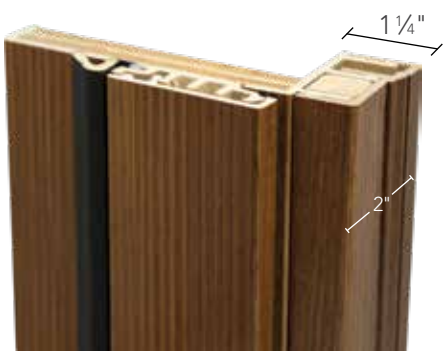

Ultimate Flexibility

Get ultimate flexibility between 4 9/16" and 8 9/16" frame widths.

3 ½" Flat Rippable Brickmold

2" Standard Rippable Brickmold

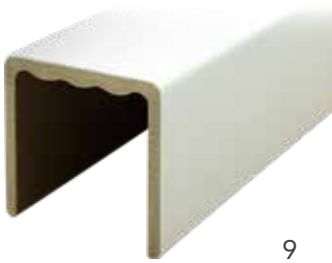

Additional Options

Mull Cover for 1" Build-Up

3 ½" Flat Rippable** Brickmold to 2" or 2" Standard Rippable Brickmold to 1⅜"

*** Ripping brickmold produces a rough-cut edge which will be painted or stained, but not exactly match the original textured or smooth finish.*

FRAME OPTIONS

PermaTech™

Our PermaTech composite door frame system combines the strength and convenience of wood with enhanced properties that make it moisture and insect resistant. PermaTech will not absorb or wick moisture and will never rot or splinter, and is covered by a Lifetime Limited Warranty.*

* No storm door applied. See full warranty for limitations.

FrameSaver®

FrameSaver wood frame and brickmold with finger-jointed composite bottom prevents water absorption and carries a Lifetime Limited Warranty when used with aluminum frame cladding on the exterior.
Available with Textured or Tuftex™ Smooth cladding.

Steel L-Frame

Available on select Signet® and Legacy™ door styles

- (A) Aluminum door stop provides greater security and is more durable than wood
- (B) Energy-efficient weatherstripping
- (C) 18-gauge steel L-frame with a 12-gauge hinge plate welded on for extra strength and security

THRESHOLD OPTIONS

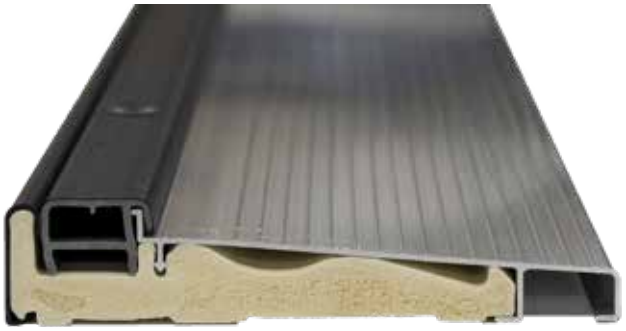

Mill

Bronze

Z-AC Threshold

Z-Articulating Cap thresholds automatically adjust during and after installation, saving time and eliminating service calls. The Z-AC provides protection against air, water and insects, even when conditions aren't perfect or change over time.

Standard with Signet® and Legacy™

Mill

Z-AI Threshold

Z-Adjustable Inswing threshold cap screw plugs prevent damage to adjustment screws and help maintain long-term smooth adjustability. A dual durometer cap seal overlaps the high dam, forming a strong barrier against air and moisture.

Standard with Venture™

Mill

Bronze

Z-OB Threshold

Z-Outswing Bumper thresholds are engineered for superior performance in high-exposure and severe weather environments. As pressure increases against the door, the bumper seal strengthens, delivering exceptional defense against air and water intrusion.

Mill

Bronze

ADA Compliant Threshold

ADA-compliant thresholds feature durable all-aluminum construction and advanced sealing systems for reliable performance, while meeting accessibility requirements outlined by the Americans with Disabilities Act.

SIGNET® FIBERGLASS

15-Year Finish Warranty

Signet Fiberglass doors are available in Mahogany, Cherry, Oak, Knotty Alder, Fir and Smooth. With robust hardwood stiles and rails dovetailed at each corner, the Signet door is structurally superior to traditional fiberglass doors. All Signet Fiberglass doors include our exclusive DuraFuse™ Finishing System featuring P³ Fusion, allowing us to offer an industry-best 15-year finish warranty.

(Tested to NFRC specifications for a 6 panel door with wood frame).
Note: All Signet doors are factory-finished.

† Patents - USD617005, USD621062, USD621063, USD625837, USD625024

SIGNET FEATURES

- **A** The inside door frame is hand-stained or painted to match the door, providing a consistent visual appearance.
- **B** The 2 ⅝" finger-jointed 3-ply hardwood hinge stile provides superior structural integrity.
- **C** Stiles and rails are dovetailed at each corner, creating a structurally solid, integrated frame.
- **D** Glue is applied to the rails and stiles to permanently adhere the door skin to the frame.
- **E** Door edge is constructed with Cherry, Mahogany, Oak or Fir wood matching the selected series.
- **F** Signet doors are foam filled by a computer driven process that ensures the optimal foam fill for maximum efficiency and strength.
- **G** The authentic wood look is made possible by using cutting-edge NVD (Nickel Vapor Deposition) technology by MasterGrain™.
- **H** The 4 ¼" finger-jointed 4-ply hardwood strike stile provides a solid mounting surface for hardware and superior structural integrity.
- **I** Scientifically formulated compounds provide superior resistance to denting, splitting, cracking and warping.
- **J** High-definition panel profile creates excellent shadow lines and distinct panel designs.
- **K** The revolutionary DuraFuse™ Finishing System featuring P3 Fusion yields unprecedented finish durability.
- **L** A high-performance composite material is used on all Signet fiberglass bottom rails, giving excellent rot-resistance.
- **M** Z-AC Threshold with auto-adjusting riser. Standard with anodized bronze finish.

Plugless Glass Trim is standard on Signet.

SIGNET® SMOOTH & FIR PANEL STYLES

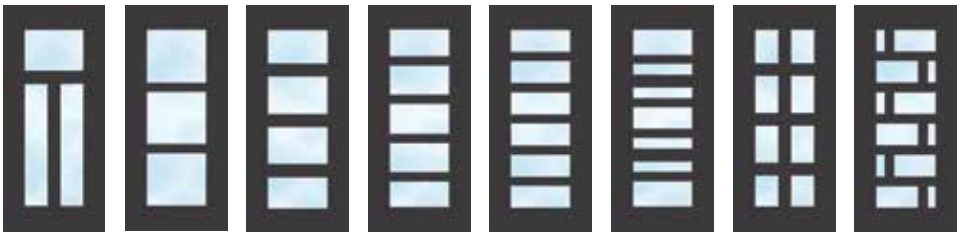

For a stylish and modern look, Simulated Divided Panel fiberglass doors feature 3" and 5"wide panels applied to the surface of glass on 460 style Smooth or Fir doors. They may also be applied directly on the skin of a Smooth or Fir 001 style door. Numerous configurations and endless paint, glaze or stain colors allow you to create a door design that is contemporary, sophisticated and on-trend.

Available in Signet Fir or Smooth with clear glass or privacy glass.**
Simulated Divided Panel designs cannot be customized.

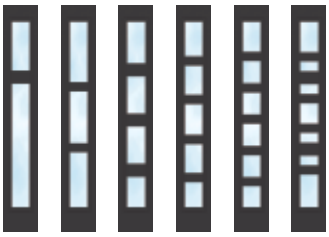

All 460 style 8' Signet Smooth doors with Simulated Divided Panels will have raised flat trim around the glass, as shown here.

** Available in 10" Width

VENTURE FEATURES

- **A** The inside door frame is hand-stained or painted to match the door, providing a consistent visual appearance.
- **B** 2 ⅝" wide wood stiles on each side of the door slab enhance structural rigidity and contribute to strong performance and durability.
- **C** Glued, dowel-pinned rod construction reinforces the corners of the door unit for superior strength and alignment.
- **D** Glue is applied to the rails and stiles to permanently adhere the door skin to the frame.
- **E** Woodgrain-textured door edge matches the slab skin, eliminating the visual disconnect often seen on fiberglass doors.
- **F** Thicker fiberglass skin than many other doors on the market improves impact resistance and long-term durability.
- **G** High-performance polyurethane core delivers excellent insulation value for improved energy efficiency in both warm and cold climates.
- **H** Venture doors are foam filled by a computer driven process that ensures the optimal foam fill for maximum efficiency and strength.
- **I** Driven by ProVia® innovation, our custom laser and acid etching process was developed exclusively for Venture to recreate the authentic beauty of premium wood.
- **J** Where the hardware mounts, a lock block is added for extra support and durability.
- **K** High-performance composite bottom rail with closed-cell foam spacers resists rot and moisture absorption, particularly beneficial in high-exposure environments.
- **L** Z-AI Threshold with manually adjustable riser. Standard with aluminum mill finish.

ASTRAGAL DETAILS

The French Door astragal provides functionality and security.

Astragal secures inactive door at top and bottom of your french door system

Lockable throw bolts improve security

Astragal bolt penetrates threshold allowing boot to seal, creating a better barrier against the elements

Astragal is stained to match Signet® and Venture Fiberglass stained doors

STYLES AND CONFIGURATIONS

All door styles are available as a French Door.

UNEQUAL FRENCH DOORS

Unequal french doors allow you to use the larger entry door day-to-day, yet have the option to open the smaller, inactive door to gain full access.

Available in Signet, Venture, and Legacy™ smooth.
Internal blind sizes are limited.

Legacy™ Smooth 460 Hinged patio door with one sidelite in Snow Mist with Schlage® Rivington hardware in Black

HINGED PATIO DOORS

Hinged patio doors bring style and versatility to your home, available in 2- or 3-lite units that beautifully open your space to the outdoors. Designed to perfectly complement our Signet®, Venture™, and Legacy™ entry doors, they create a seamless, cohesive look while delivering lasting performance and curb appeal.

STANDARD FEATURES

A keyed Schlage® Flair handleset with a Maximum Security Thumbturn deadbolt is included. Choose from Bright Brass, Antique Brass, Satin Nickel, or Black finishes.

The lock area is reinforced with a 20-gauge steel security plate for added strength.

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. BetterVue® fiberglass screen mesh is standard. Heavy-duty fiberglass, aluminum or SeeVue® stainless steel mesh is optional.

Suspended by ball bearing rollers, this top-hung heavy-duty aluminum screen frame reduces binding, creating effortless operation. Screen frames are available in all standard and trending colors.

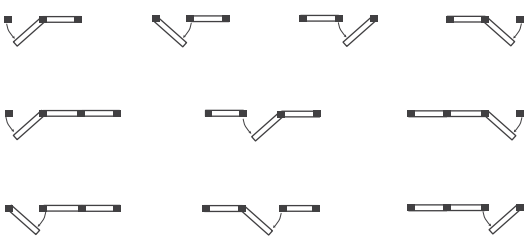

Z-AC Threshold with an auto-adjusting riser. Available in Bronze or Mill finish. Standard with Signet and Legacy.

Z-AI Threshold with cap screw plugs. Available in Mill finish. Standard with Venture.

DOOR SWING

OPTIONS

Custom Widths and Heights - Need a little more height or a little less width? We are pleased to offer customized patio door widths and heights in ⅛" increments.

Door Swing - Illustrations to the left are viewed from above. Inswing only.

Finishes - Hinged patio doors are available in all finishes.

* Optional Aluminum Frame Cladding will increase brickmold-to-brickmold width by ¼" and height by ⅛". Not all sizes available in all door types.

Signet® Fir 003C entry door with Venting Sidelite stained Truffle with Trilennium® Westcott hardware in Flat Bronze

REMOVABLE MULL POST & VENTING SIDELITE

When Signet® entry doors are paired with FrameSaver® frames, customers can choose to incorporate a removable mull post, providing a wider opening that simplifies moving large objects in and out of your home. Additionally, the venting sidelite with a retractable screen enhances ventilation while keeping bugs out, ensuring fresh air flows freely without compromising comfort. Available in the following configurations:

REMOVABLE MULL POST WITH VENTING SIDELITE

Retractable screen is optional with this configuration

VENTING SIDELITE

with retractable screen

Features

- Fully retractable screen with magnetic rail to hold screen in closed position
- Multi-point locking system on venting sidelite
- Invisible hinges on venting sidelite

Venting sidelite must be on the strike side.

Scan to see a video of the door in action.

SUPER SPACER®

Warm edge technology improves insulated glass thermal efficiency while also protecting against glass package failure. The Super Spacer dual-seal system from ProVia® features a nonmetallic structural foam spacer that resists condensation, improves thermal performance, reduces energy costs, and delivers lasting comfort and durability.

Super Spacer is better able to ensure NFRC ENERGY STAR® certification by providing the best thermal conductivity, the lowest U-Factor among dual-seal systems and the best durability available in the industry. The all-foam formula blocks the heat escape path, improves sound absorption over traditional metal spacers and lasts up to nine times longer in durability tests than single-seal units. The all-foam formula reduces the effects of temperature changes, barometric pressure, wind load and glazing pressure, resulting in fewer seal failures and stress cracks.

NOISE REDUCTION

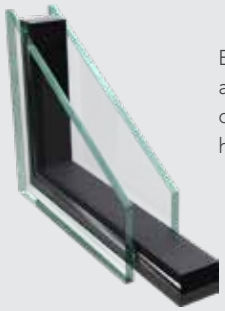

The all-foam formula's excellent sound dampening properties reduce outside noise, even in industrial environments.

MYLAR 10-LAYER VAPOR BARRIER

The Super Spacer thermoset foam matrix is exceptional. Moisture is kept out, gas is kept in and conductivity is virtually nonexistent.

THE NO-METAL ADVANTAGE

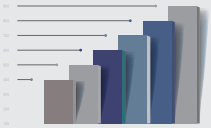

Exceptional thermal efficiency achieved by the absence of conductive metals is the hallmark of Super Spacer.

LASTING APPEARANCE

The Warm Edge Glazing System stands up to the natural bending and bowing from temperature changes, barometric pressure and wind load.

IMPROVED STRENGTH

The P-1 test exposes units to 140°, 95-100% humidity and constant UV bombardment. Each week of testing is equal to one year of field use. Super Spacer survives with long term P-1 performance with a low seal failure history.

WARMEST EDGE

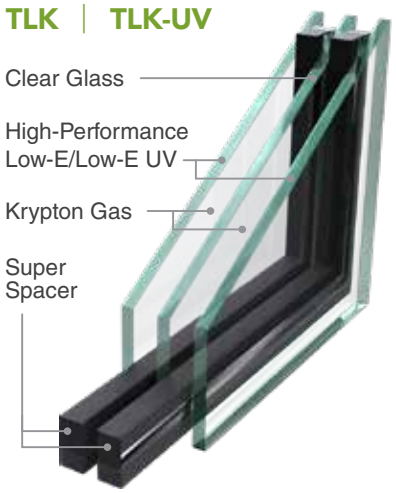

Super Spacer provides the warmest edge among dual-seal systems with up to +14.4° F / 8° C warmer temperatures at the edge of the glass.

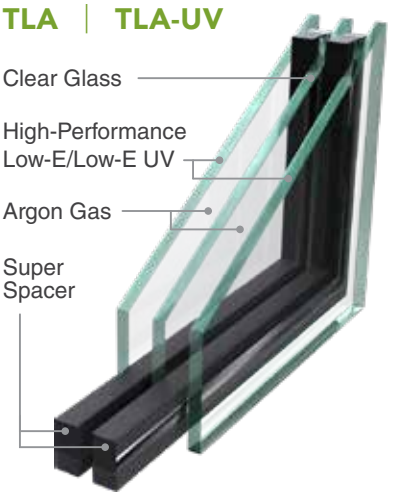

COMFORTECH™ GLAZING SYSTEM

Measurably improve thermal performance with the ComforTech Warm Edge Glazing System. You'll enjoy better energy efficiency and a warmer glass edge.

Understanding the Acronyms

- **T** - Triple Glazed
- **D** - Double Glazed
- **L** - Low E
- **C** - Clear
- **A** - Argon
- **K** - Krypton
- **E** - Elevation (no gas)
- **UV** - Ultraviolet

All entry door systems with glass will have tempered glass.

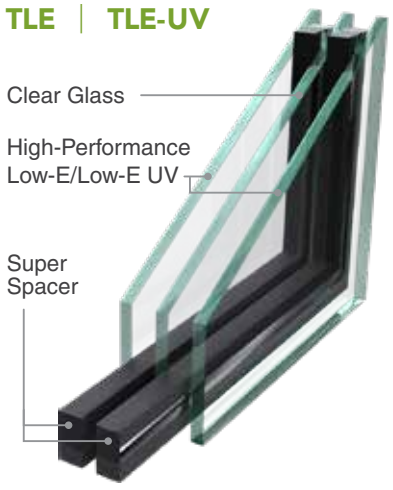

Since Low-E glass has a slight color tint, it is recommended that sidelites are ordered with the same glazing system as the door. See entryLINK for which glazing system is required for ENERGY STAR® certification, as well as for availability.

LIFETIME LIMITED WARRANTY
Includes Glass Breakage and Seal Failure

ELEVATION SERIES
For Customers in High Altitude Areas

These glass packages are insulated without Argon or Krypton gas.
Capillary tubes are used to equalize the pressure caused by extreme elevation changes.

TLE | TLE-UV

DLE | DLE-UV

DE

COMFORTECH™ LAMINATED GLASS

HOW IT'S MADE

Laminated glass is two or more lites of glass permanently bonded together with one or more polymer interlayers using heat and pressure. The glass and interlayers are available in a variety of colors and thicknesses which provide the desired appearance and performance to meet the relevant building code standards and customer requirements.

Laminated glass products are suitable for today's demanding architectural applications such as: noise reduction, hurricane impact-resistance, blast mitigation, forced entry, protection from broken glass – or a combination of these.

BENEFITS

Safety and Reduced Risk of Injury

Glass is often laminated to protect people from glass breakage. Under sufficient impact force, laminated glass will break. Glass fragments tend to adhere to the plastic interlayer and remain largely intact, reducing the risk of injury. Laminated glass can also be considered "safety glass".

Sound Control

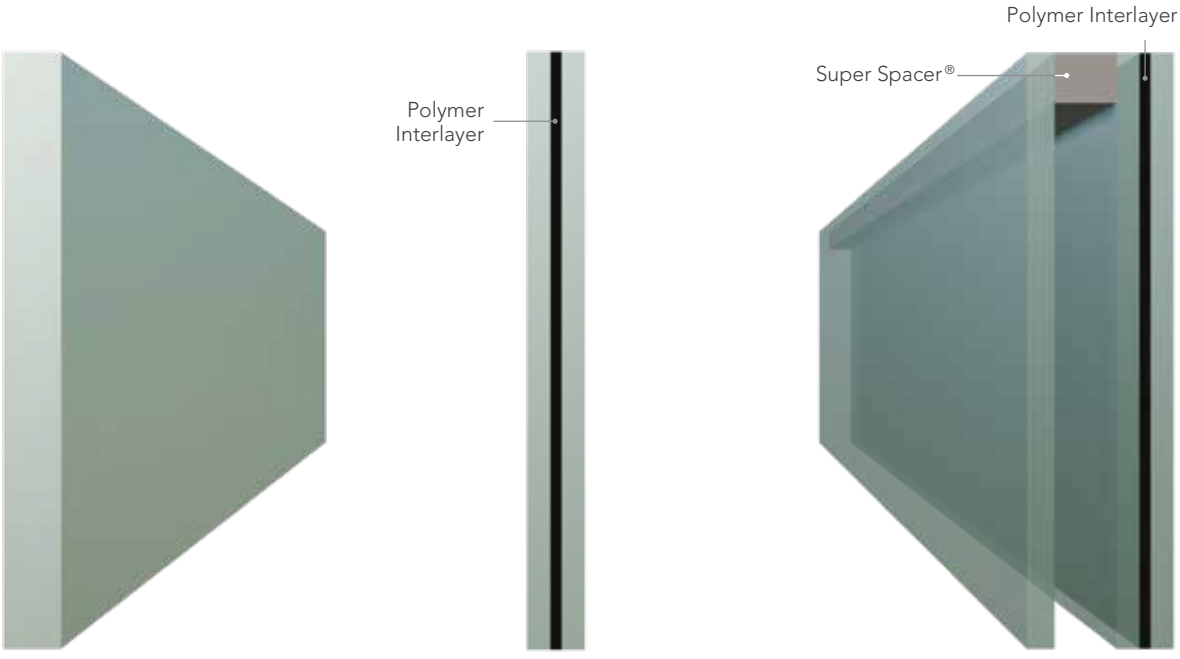

Acoustic insulating glass adds noise reduction to other benefits of laminated safety glass, helping to reduce noise levels so that people can be more comfortable in their living spaces. Outdoor-Indoor Transmission Class (OITC) is used for measuring the sound transmission loss of exterior glazing applications. Laminated glass tends to produce higher OITC ratings because the PVB laminate dampens vibration and the air space limits sound transmission.

UV Protection

Laminated glass can absorb up to 99% of damaging UV rays which can be responsible for fading on interior furnishings. This protection means that interior surfaces and furniture are likely to last longer.

Security

Heat strengthened and tempered glass can be incorporated into laminated glass units to further strengthen the impact resistance. This type of laminated glass is often specified for hail protection, ballistic and blast mitigation, and locations where intrusion or forced-entry situations may be a concern.

Monolithic Glass **Laminated Glass** **Insulated Laminated Glass**

All information on this page is derived from the Guardian glass website.

Signet® Cherry 440 French entry door stained Coffee Bean with Cottage SDLs and Trilennium® Westcott hardware in Black

GLASS OPTIONS

CLEAR GLASS

Practical and classic, clear glass offers unobscured views through exterior doors, allowing for full views of the outdoors.

SIMULATED DIVIDED LITES (SDL)

Simulated Divided Lites are reminiscent of old world craftsmanship when separate pieces of glass were mulled together with wooden grids.

INTERNAL & EXTERNAL GRIDS

Grids add a classic, architectural touch to entry door glass by creating a structured, visually appealing design.

INTERNAL BLINDS

Internal blinds are a convenient option for blocking harsh sunlight and increasing privacy on entry doors and patio doors.

SILK SCREEN & PRIVACY GLASS

Silk screen and privacy glass ensure a high level of obscurement but allow soft light to filter in and illuminate a space.

DECORATIVE GLASS

Decorative glass mimics the look of hand-made sheet glass, crafted into stunning ornamental designs.

WROUGHT IRON GLASS

Wrought iron designs add a touch of old-world charm to your door and create a sophisticated focal point for the entryway.

ART GLASS

A ProVia® exclusive, Art Glass offers you an opportunity to create a unique artistic statement using design and color.

SIMULATED DIVIDED LITES

Simulated Divided Lites (SDLs) are reminiscent of old-world craftsmanship when separate pieces of glass were mulled together with wooden grids. We deliver that same stunning appearance through our high-tech fiberglass 1" wide x 1 11/32" thick grids, finished to match the color of the door and combined with the energy-efficient qualities of our ComforTech™ glass packages.

Craftsman

Available for Signet® Fir and Signet 420 Smooth fiberglass doors.

Contoured

Available for Signet (except Fir) and Venture™ woodgrain fiberglass doors.

Beveled Glass with SDLs

Each piece of beveled glass is secured with Patina caming for the beautiful look of a true divided lite, with the efficiency of a single lite. Available in Signet, Venture, and Legacy™.

Smooth

Available with Flat trim for Signet, Venture, and Legacy Smooth entry doors.

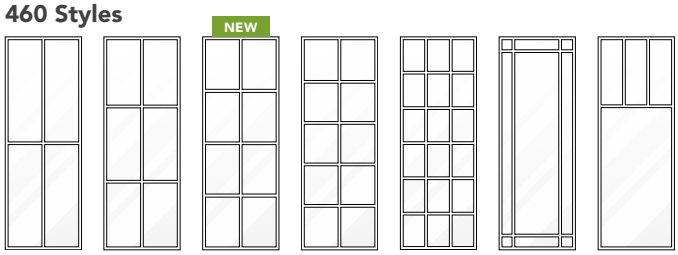

LIFETIME LIMITED WARRANTY
Includes Glass Breakage & Seal Failure

Since Low-E glass has a slight color tint, it is recommended that sidelites are ordered with the same glazing system as the door.

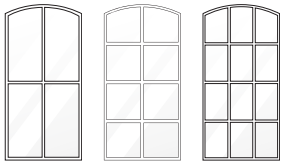

All entry systems with Simulated Divided Lites can be ENERGY STAR® Certified depending on the glazing system you choose. See entryLINK for which glazing system is required for ENERGY STAR certification, as well as for availability.

Legacy™ Smooth 430 entry door in Coal Black with White internal blinds and Schlage® Encode Plus™ Century Deadbolt in Black

INTERNAL BLINDS

Internal blinds are a convenient option for blocking harsh sunlight and increasing privacy on entry doors and patio doors. Constructed with sturdy aluminum and enclosed in tempered safety glass, the blinds are protected from weathering, damage, and dust and they are not a hindrance to cleaning your glass.

While internal blinds offer a practical solution for blocking harsh sunlight and enhancing privacy, they are not intended as full privacy or blackout devices.

AVAILABLE STYLES

- Trinity
- Edge
- Breeze

Pairing a frosted privacy glass sidelite with a silk screen design will work; however, they will not match exactly.

Frosted areas of silk screen glass have a privacy rating of 9.

PRIVACY GLASS

Privacy glass ensures a high level of obscurement but allows soft light to filter in and illuminate a space.

Chinchilla | 8

Due to the unique, tightly grooved texture of Chinchilla privacy glass, this design naturally reflects and refracts light in a more noticeable way. As a result, the glass may display a more pronounced V-like or diamond-shaped pattern (see small image above), especially in certain lighting conditions.

Fluted | 7

Mistify | 6

Mistify privacy glass only available on select door styles. See entryLINK for details.

Obscure | 8

These photos were taken with objects directly behind the privacy glass in a well-lit space. Actual privacy levels will vary depending on your distance from the glass and the amount of light in the room in comparison to the light outside your home. For extra privacy, contact customer service to add an extra pane of privacy glass to your door. Double privacy glass is an option for SDP doors and this is set up in entryLINK.

DECORATIVE GLASS

Decorative glass is unique in that it achieves its personality and beauty through aesthetic imperfections – waves, striations, and air bubbles that create natural effects and singular characteristics. ProVia® decorative glass mimics the hand-made sheet glass of centuries past, and these stunning ornamental designs elevate the look of your entry door, boosting the curb appeal of your home.

All ProVia decorative glass designs include the ComforTech™ Warm Edge Glazing System, which measurably improves its thermal performance and energy efficiency.

ProVia Exclusive
These decorative glass designs are only found on ProVia products. This gives your home a unique style that can't be found anywhere else.

Wrought Iron designs are not ProVia exclusive designs.

Covered by a Lifetime Limited Warranty
Warranty includes glass breakage and seal failure.

Energy Efficient
Most full wood frame and composite frame entry systems using decorative glass can be ENERGY STAR® certified.

See the Energy Performance Calculator on provia.com for energy ratings on specific styles.

WROUGHT IRON GLASS

Make a bold statement with our Wrought Iron Glass options—Barcelona, Carmen, and Crossbuck. Each design is available with clear or privacy glass, allowing you to balance beauty with function. Inspired by timeless craftsmanship, these wrought iron styles offer an old-world elegance with a modern edge, adding striking detail and character to your entryway.

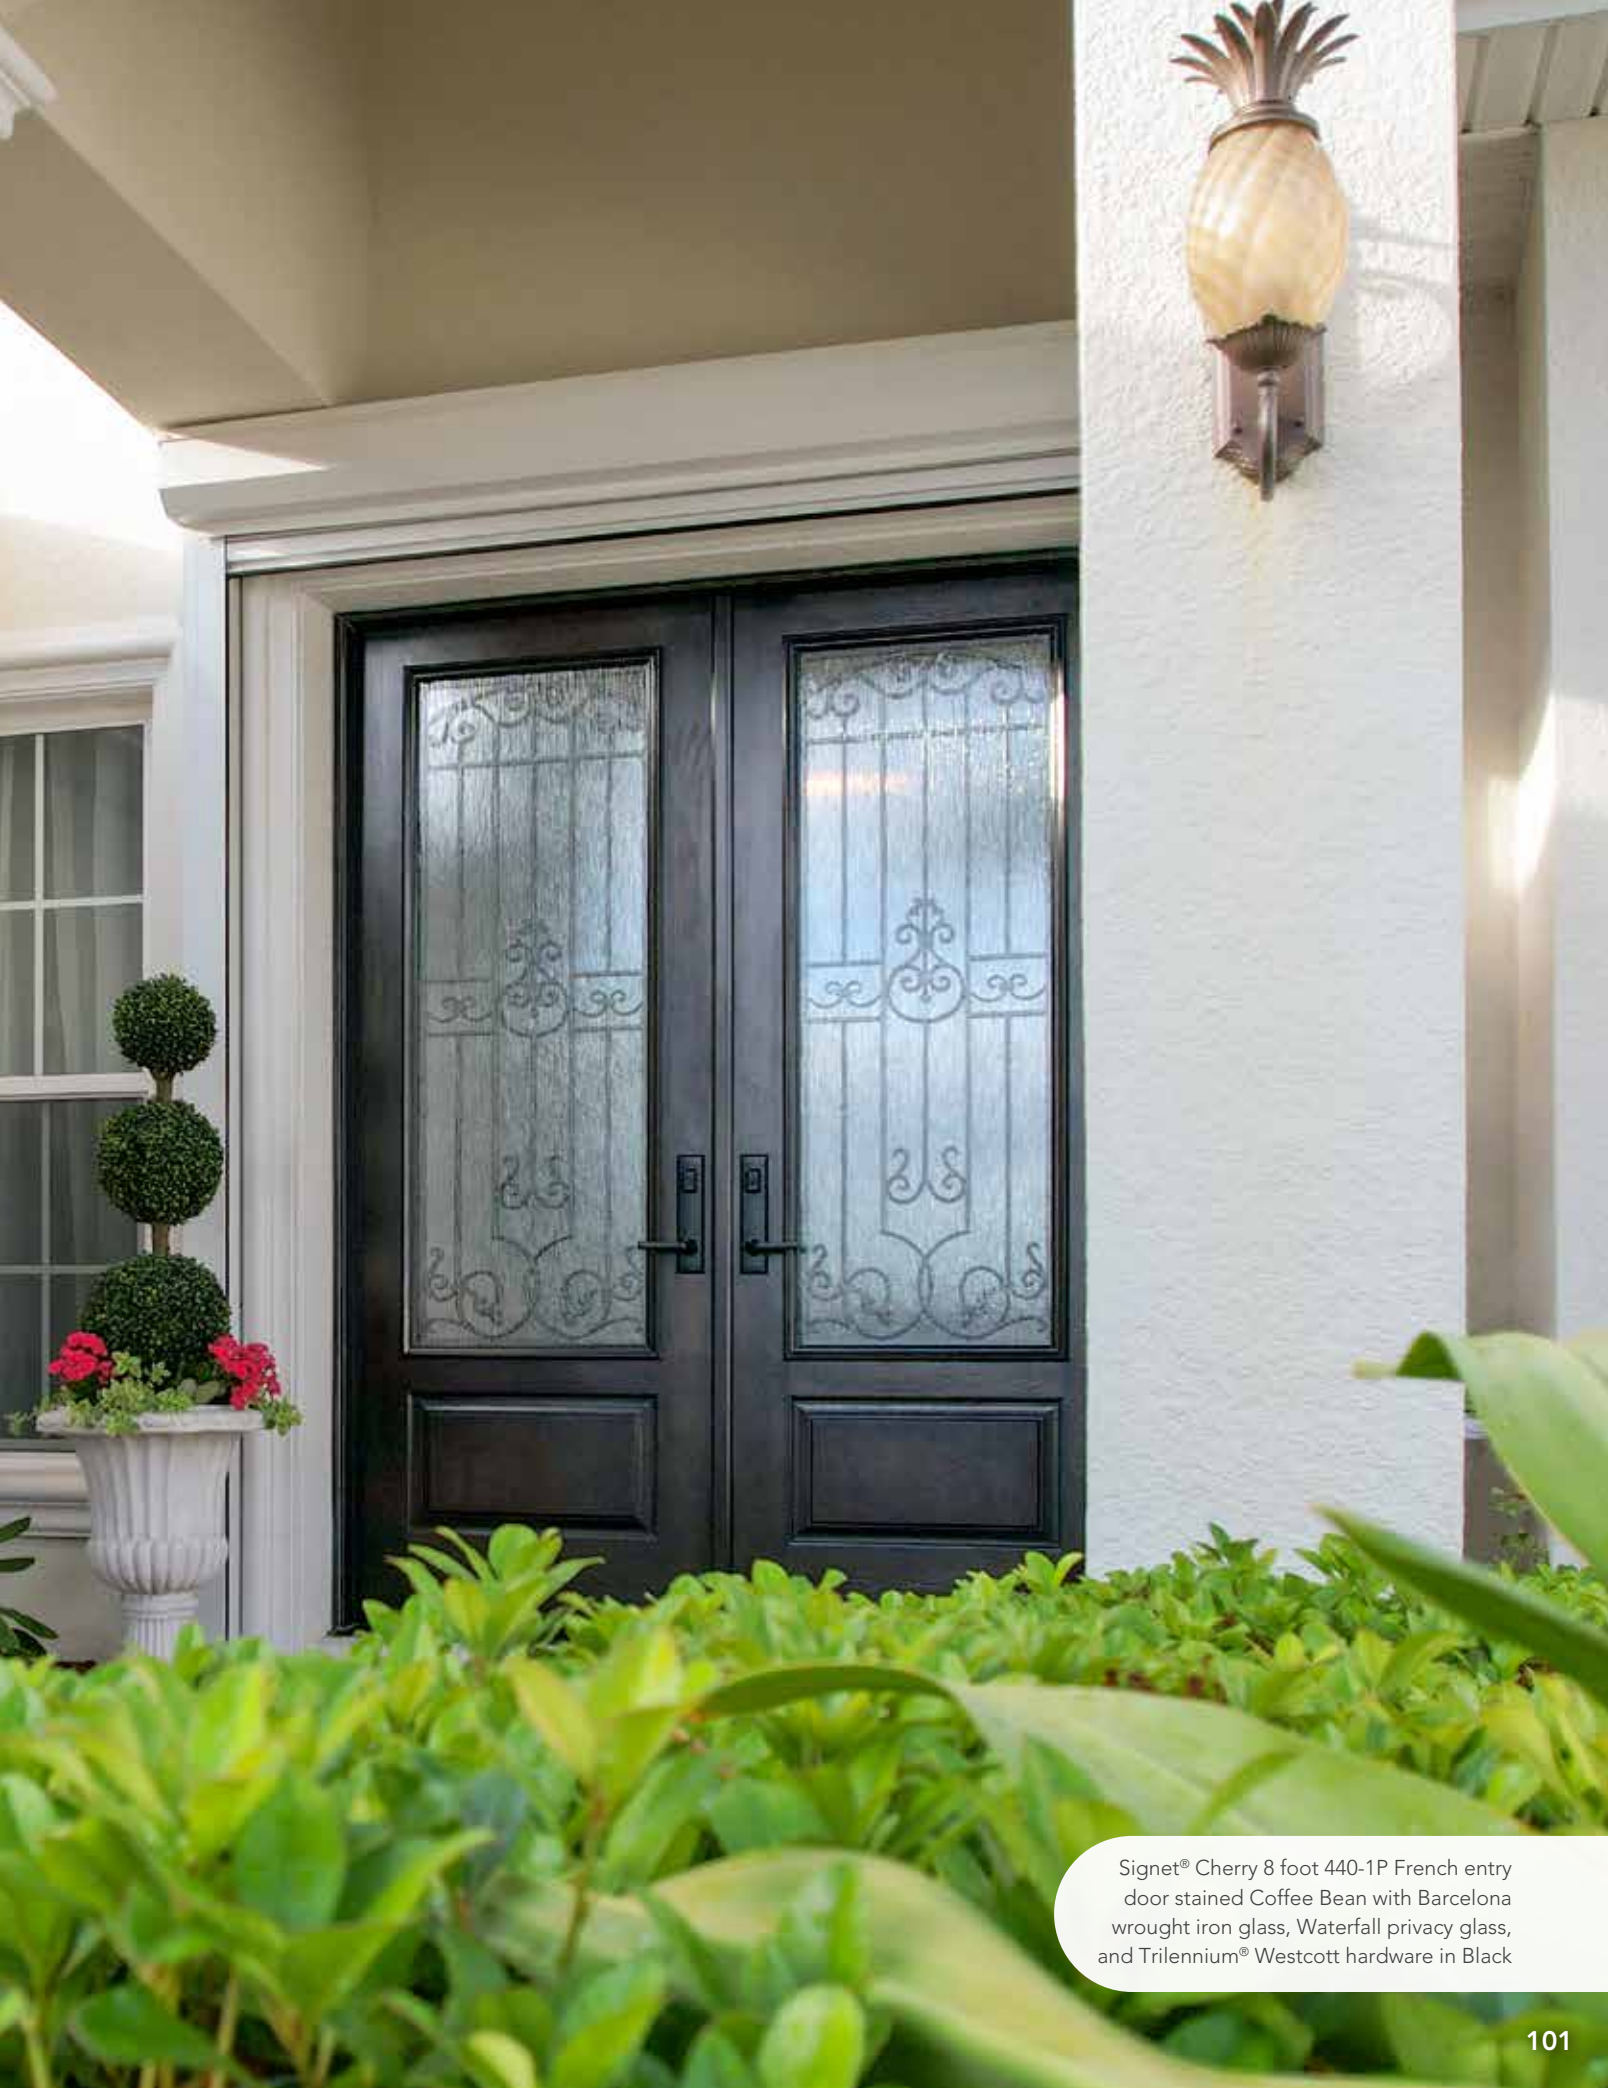

Energy Efficient
Most full wood frame and composite frame entry systems using Wrought Iron Glass can be ENERGY STAR® certified.

See the Energy Performance Calculator on provia.com for energy ratings on specific styles.

CUSTOM HOUSE NUMBER TRANSOMS

NEW

Complete your entryway with a custom Art Glass transom featuring your house number. Designed to complement any Art Glass door design, these transoms offer endless possibilities for creating a coordinated, personalized look. No Art Glass door? No problem. A custom transom adds distinctive style all on its own.

Custom house numbers are only available on rectangular transoms with a minimum glass width of 35 ⅞" and a minimum glass height of 13 ¾".

ART GLASS COLOR & GLASS OPTIONS

Select from a variety of standard and trending colors (shown below). *Clear Fill* and *No Fill* may also be chosen, as well as custom colors. Color placement and number of colors is pre-determined based on the Art Glass design and will render as you choose them. Picture this as a color-by-number system! Experiment with various color combinations until you find the perfect match for your home.

Always refer to our color selector for accurate color representation.

Privacy glass is tempered for safety and this process may cause minuscule surface waves on the glass. Since the surface is not completely flat, the color fill may migrate toward lower points in the glass, resulting in varied saturation levels on the surface.

Clear fill imparts a degree of transparency to privacy glass, and may be used on these sections of the design for a translucent yet clearer view.

ART GLASS COLOR FILL EXAMPLES

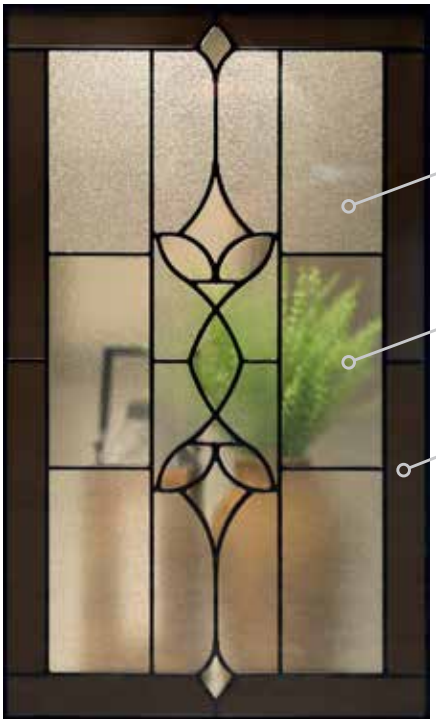

Choose your favorite Art Glass design, then have fun making it your own. Add color, mix and match colors, choose clear fill for a more transparent look, or leave the design unfilled for a clean, simple aesthetic. You can even change the look with your choice of one of five resin bead colors. With so many combinations to choose from, your Art Glass can be uniquely yours.

WE DO THE FINISHING, SO YOU DON'T HAVE TO

↗ Denotes Trending Color

Always refer to our color selector for accurate color representation.

When light-colored paint is applied to woodgrain-textured doors, the natural texture and graining will remain visible. The visibility of the graining may vary depending on lighting conditions.

How to Order Custom Painted Doors

1. Visit a Sherwin Williams® paint store and select a paint color of your choice.
2. Specify the selected color name and paint number from the paint color swatch at the time of order ***OR*** provide your dealer with a 3" x 3" sample of the selected color from any paint brand for ProVia® to match.

Custom stains also available on Signet fiberglass entry doors. Additional lead-time required.

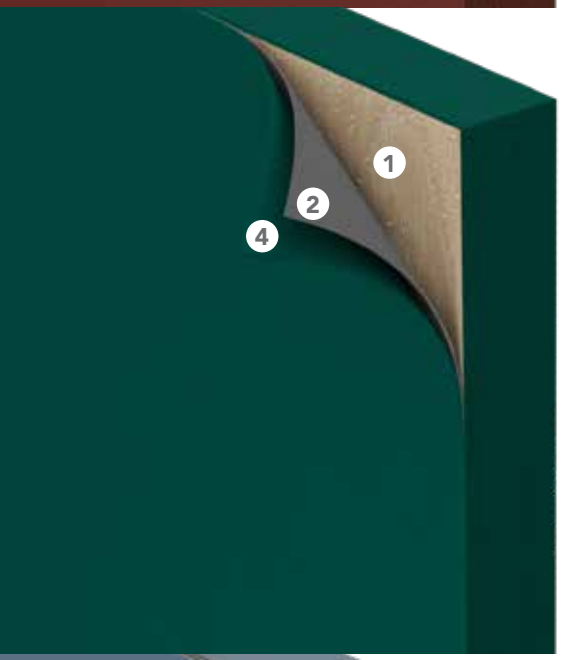

PAINT FINISHING SYSTEMS

Legacy™ Smooth 115 entry door in Clay with two sidelites and Schlage® Camelot hardware in Black

HARDWARE

Complete your entry door with hardware designed to complement its style, color and overall aesthetic. Choose from a variety of hardware styles and finishes, including three multi-point locking options and an extensive selection of Emtek® and Schlage® hardware. From classic designs to modern door pulls, our hardware options make it easy to create an entryway that looks beautifully coordinated from every detail.

Schlage® Addison hardware with
Encode Plus™ Century Deadbolt in Black

Watch Entry Door Hardware Styles, Colors, and Operation Videos

Trilennium® Eclipse hardware in Flat Bronze on a Signet® French entry door stained Coffee Bean

PANOLOCK® PLUS MULTI-POINT HARDWARE

PanoLock® is the first and only multi-point lock that works with multiple hardware options, bringing security and performance to every entry and hinged patio door.

A. Tapered Bolt

Unlike other locks that tend to catch, PanoLock's tapered bolts engage easily, even when the door is out of alignment.

B. Adjustable Roller Strike

Rollers lower operating force and allow the tapered bolt to gently snug the door panel against the weatherstrip.

Strength

PanoLock offers enhanced strength and security vs. standard locking systems.

Enhanced Performance

Equipped with two tapered locks, PanoLock provides enhanced performance while reducing operation force.

Ultimate Security

PanoLock features roller strike plates equipped with extra anchor screws for added security.

Flexibility

PanoLock can be used on both inswing and outswing applications.

MULTIPLE HARDWARE OPTIONS

Thumb press, lever or knob - PanoLock Plus can be paired with select Schlage® and Emtek® hardware. Some of the options available are shown below.

Compatible with Schlage Encode Plus™ Wi-Fi Deadbolt

See entryLINK for all compatible hardware options.

PANOLOCK PLUS MULTI-POINT
LOCKING HARDWARE

Security Simplified

PanoLock allows you to enjoy the strength and security of a multi-point lock with the ease of operation of a standard handle set. A simple rotation of the key or thumb turn activates the **top and bottom tapered bolts.**

PanoLock Plus will not activate the middle latch bolt to use as a locking point. This middle latch bolt will work separately from the other two tapered bolts. It will be controlled entirely by the handleset.

PanoLock is available on standard height and 8 foot doors.

AVAILABLE FINISHES

TRILENNIUM MULTI-POINT LOCKING HARDWARE

The Trilennium Multi-Point locking system provides more than just security. It offers homeowners better door closure and sealing than a single point lock.

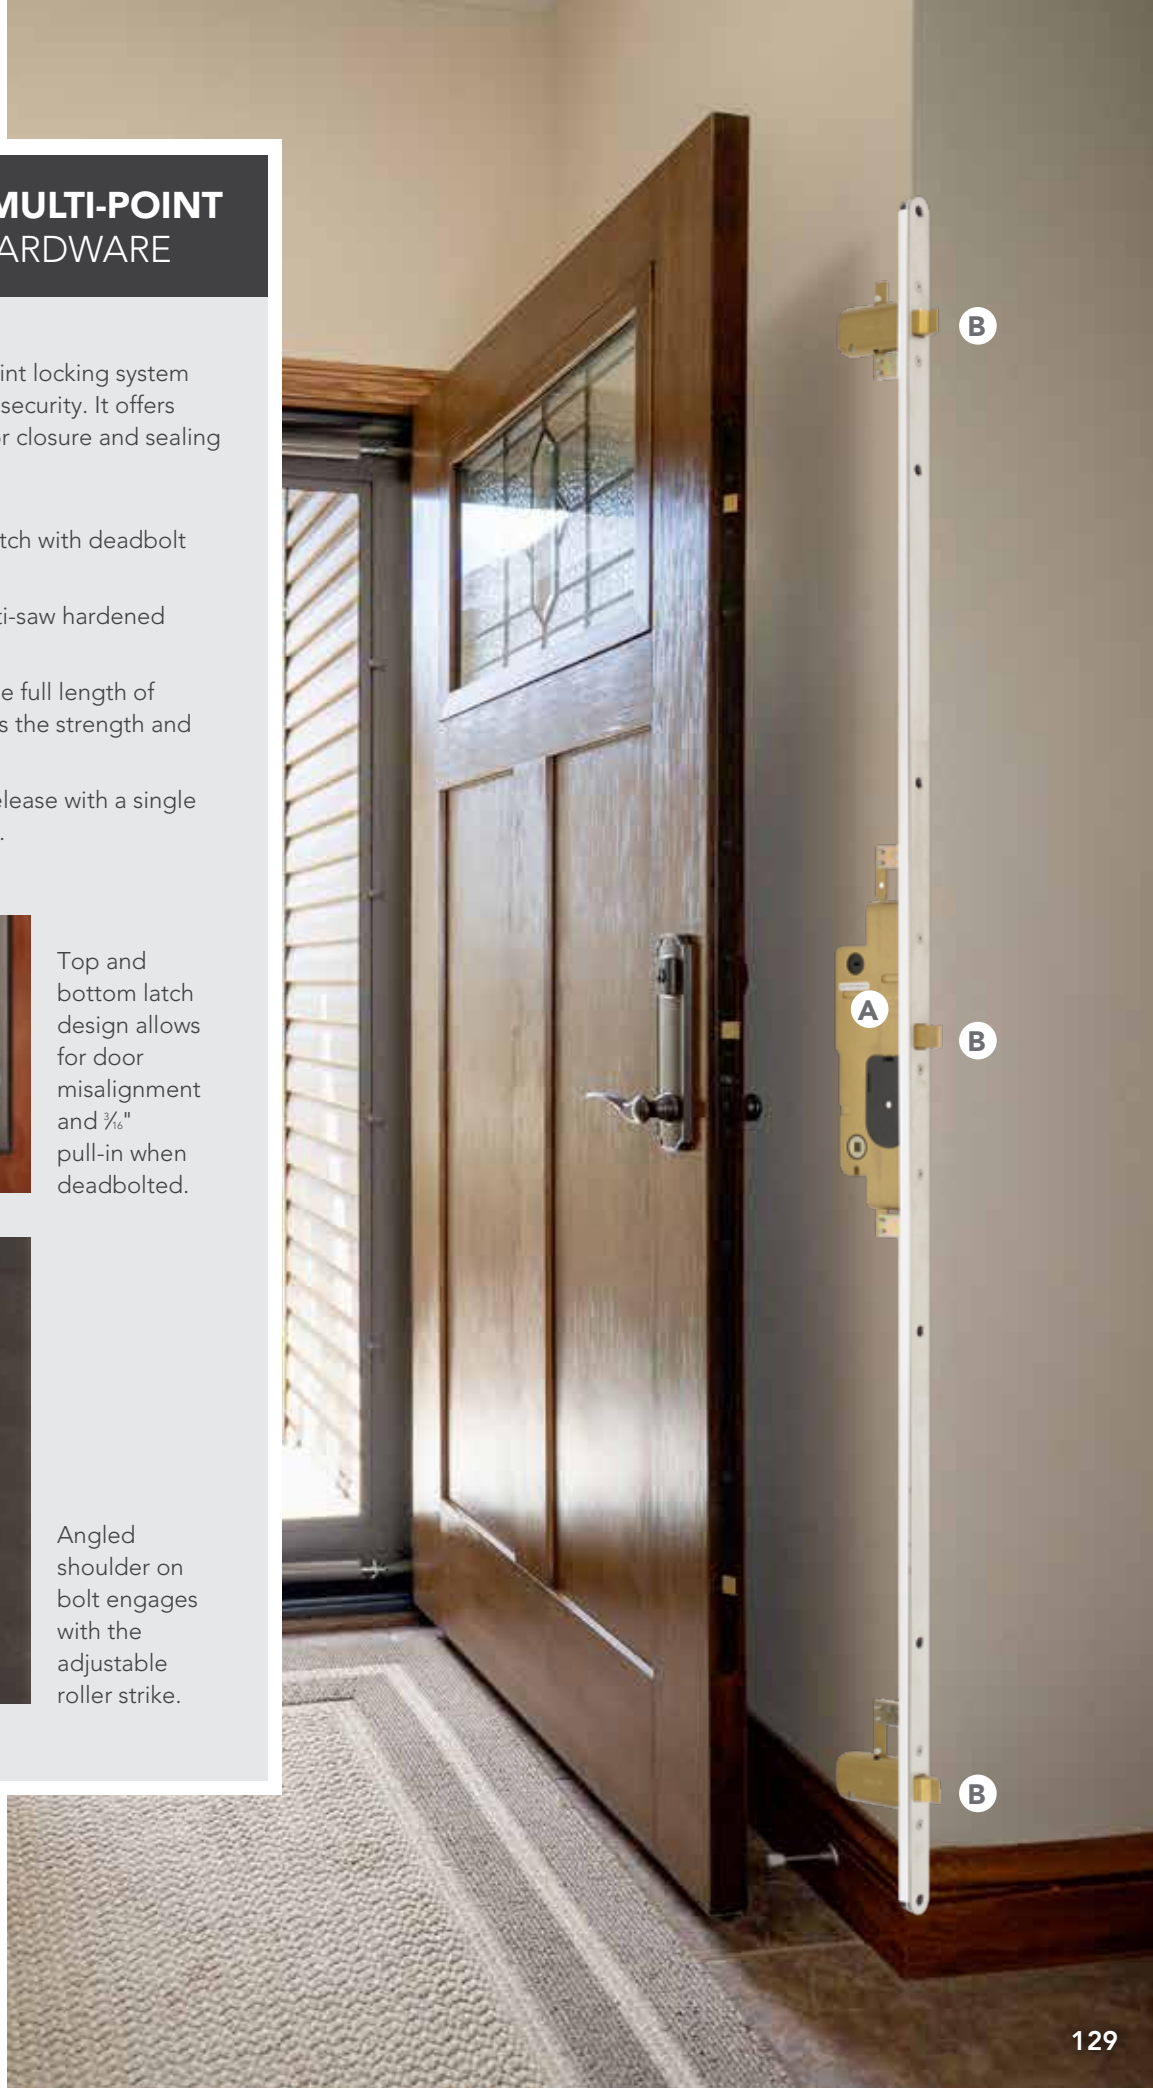

- Three 1" deadbolts latch with deadbolt throw.
- Deadbolts include anti-saw hardened steel pin.
- A solid I-beam runs the full length of the lock, and increases the strength and precision of the lock.
- Latch and deadbolt release with a single downward movement.

Top and bottom latch design allows for door misalignment and 3⁄16" pull-in when deadbolted.

Angled shoulder on bolt engages with the adjustable roller strike.

Signet® Fir 420 entry door stained English Chestnut with Brookhaven decorative glass and Trilennium Eclipse hardware in Flat Bronze

HOPPE® HARDWARE

Contemporary available in multi-point
Dallas and New Orleans available in single- and multi-point

Hoppe hardware offers the additional security of four points of latching when the door is locked, and the easy operation of one point of latching when the door is unlocked.

CONTEMPORARY

Exterior Interior

DALLAS

Exterior Interior

NEW ORLEANS

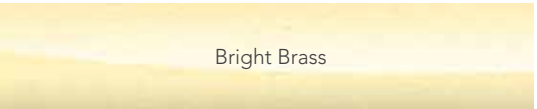

Exterior Interior

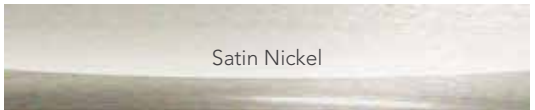

FEATURES

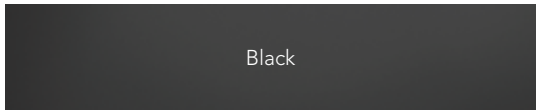

- Stainless Steel and other non-corrosive components.
- Anti-Back Drive prevents locking points from disengaging from the outside for added security.
- Latch Blocker on inactive systems will not allow multi-point activation until inactive system is activated.
- Self-aligning strike plates help guide locking points into proper position for smooth, reliable operation.
- Backplate and cylinder housing are forged into one piece for improved appearance and easier installation.
- Simultaneous retraction enables all locking points to retract at once by pushing down on the inside handle for Dallas and New Orleans, or by turning the deadbolt thumbturn for the Contemporary grip handle.

*Not available on Steel L-frames, Hinged Patio doors, and French doors

Camelot

Century

The **Schlage Encode Plus Smart Wi-Fi Deadbolt** combines robust security, smart home compatibility, and user-friendly access control. One of its standout benefits is that you can assign unique access codes for friends, family, or guests directly through the Schlage Home app (or via Apple Home / Home Key integration). This lets you track who comes and goes, revoke or change codes as needed, and avoid giving out physical keys. It's ideal not just for primary homes, but also for rental properties or Airbnb units, where temporary or scheduled access is important. The flexibility of remote locking, activity logs, and guest access make it a strong choice for anyone managing multiple visitors or wanting more control over who enters and when.

FEATURES

- Offers iOS and Android compatibility
- Voice control with Alexa or Google Assistant
- Manage up to 100 pin codes
- Backed by a best-in-class BHMA rating in security, durability and finish
- Customizable settings make it easy to personalize your lock to fit your lifestyle

AVAILABLE FINISHES

Signet® Cherry 003 entry door with two 140 sidelites stained Natural Bark with Genesis decorative glass, LightEn™ in-frame light, and Schlage® Camelot hardware in Black

LIGHTEN™ IN-FRAME LIGHT

Enhance your home's security and style with LightEn, the innovative header that brings built-in illumination to your entry door. This battery-powered, wire-free solution features dusk-to-dawn motion sensors that automatically light the way at night or in low-light areas, adding both safety and everyday convenience with a sleek, integrated design.

Built-In Entry Lighting for Safety and Peace of Mind

- Discreetly integrated into the door frame.
- Delivers automatic overhead lighting to help you safely unlock and enter your home in the dark.

Motion-Activated Illumination

- The dusk-to-dawn sensor detects movement within 4-6 feet.
- Illuminates only in low-light conditions to optimize battery life and enhance nighttime security.

Battery-Powered Convenience

- Operates on eight AA lithium batteries.
- No wiring required.

Inswing Frame Compatibility

- FusionFrame®
- FrameSaver®
- PermaTech™
- Solid Wood Frames

Color Availability

- Offered in a white finish.
- Compatible with painted, stained, or aluminum-clad frames.

Multiple Door Configurations

- Single Doors
- French Doors *(light over both doors)*
- Hinged Patio Doors *(light over active door only)*

See entryLINK for door width availability.

ProVia® does not recommend entry doors with Speakeasy applications in the Northern climate zone. We also recognize some of the North-Central climate zone areas are not suitable for this application as well. We recommend this application to be used only in the South-Central and Southern climate zones. Speakeasy applications carry a 5-year limited warranty. (Doors with Speakeasy are not ENERGY STAR® certified.)

PET DOORS

INTERIOR EXTERIOR

Ranger®

Engineered from the best raw materials for a rugged, long-lasting door.

- **Cellular PVC Frame** – Strong, weatherproof, and mold-resistant, and 3,000X more insulating than metal frames.
- **Rugged Flap System** – The insulated flap system is made from premium materials for maximum energy-efficiency, pet safety, and durability. The flap has an insulating SBR rubber core, protected with marine-grade canvas on each side.
- **Locking Security Panel** – All door-mounted RANGER dog doors include a locking security panel.
- **DoubleMag™ Technology** for an airtight seal that keeps extreme weather outside.

Colors

- Clear flap with white interior/exterior frame and a white locking panel on the interior.
- Gray flap with black interior/exterior frame and a black locking panel on the interior.

See entryLINK for details.

Learn More About Storm Doors

Deluxe™ 397 Full View storm door in Clay with Sierra Mortise hardware in Aged Bronze

STORM DOOR FEATURES

A Smooth function is essential. That's why we include a quality door closer in every storm door package. Our air release system delivers a continuous, controlled closing action, eliminating the delayed rebound associated with previous-generation closers.

B Extruded aluminum frame with rounded cove molding along the glass edge enhances the beauty of the door.

C All our storm doors are constructed with tempered safety glass.

D Color matched aluminum installation screw covers ensure a finished look.

E Non-operable sashes are secured by our color matched polycarbonate clips or an internal sash lock system.

F Each door features quality hardware that adds beauty and functionality to your new storm door.

G Durable, oven-baked polyester finishes are backed by a Lifetime Warranty for lasting beauty and low maintenance.

H Corrosion-proof corner gussets enhance the structural integrity of the door.

I Our bottom expander with sweep allows for a beautiful custom fit to any entry.

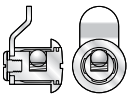

STORM DOOR DETAILS

The details are the small things that set ProVia® storm doors apart from the competition.
A lot of small things add up to a big difference.

Internal Sash Lock System

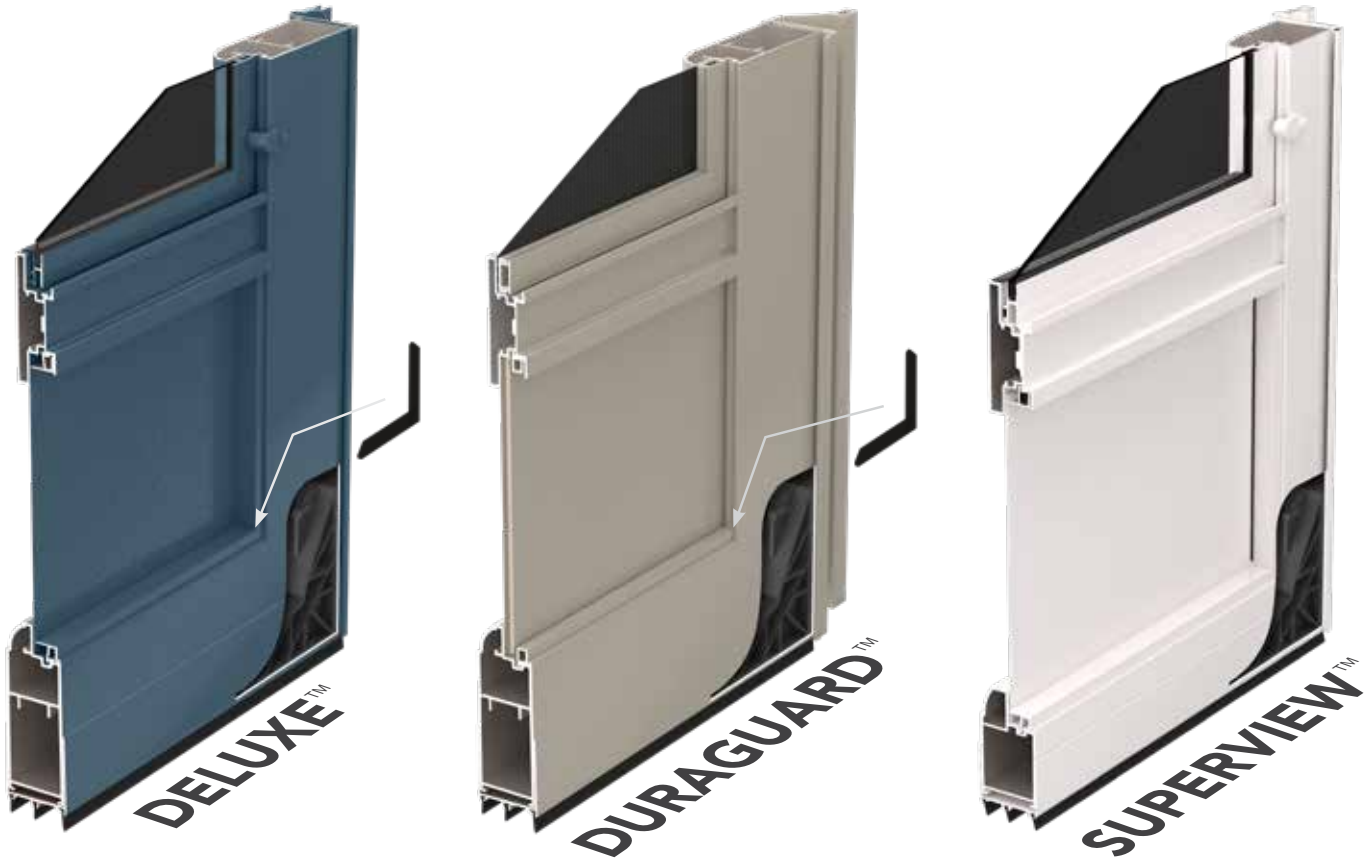

This spring-loaded, flush-mounted lock secures the glass, virtually eliminating rattles and air leaks.

Spectrum™ 291SH storm door in Coal Black with Camden Mortise hardware

SPECTRUM™ STORM DOOR FEATURES

Watch a Video on Spectrum

InVent™ Retractable Screen

InVent retractable balanced screens are housed inside the storm door frame, providing quick and easy ventilation without the need for removing and storing glass panels. With the screens retracted, you will enjoy a clear, unobstructed view from inside the home, while also displaying the elegance of your ProVia® entry door from the street.

Glass Panel Options

Choose the full view, three-quarter view, or half-lite model that best fits your needs and complements your entry door style.

Durable Frame Construction

The 16-gauge sculptured frame reinforced with re-engineered corner gussets will stand the test of time and provide an additional layer of protection to your entry door. Your storm door is covered by our limited lifetime finish and glass breakage warranty.

Camden Hardware *(standard)*

The solid brass double-mortise hardware can be keyed to match your entry door, conveniently allowing you to use the same key for both doors. Its design includes a contemporary feel with straight lines while maintaining a timeless overall appearance. Available in six finishes to match your entry door hardware.

Aesthetic Options

The Spectrum storm door is available in 33 standard and trending paint colors, allowing you to match or complement your entry door. For a more personalized touch, you can even choose a custom color. Select from clear, tinted, privacy, or Art Glass, and explore a variety of hardware and finish options to showcase your unique style.

HOME EXTERIOR SOLUTIONS

DISCOVER MORE

WEBSITE

ProVia.com makes it easy to explore and compare numerous door, window, siding, stone or roofing options in a straightforward, interactive way. Configure a door or window, visualize products on your home, explore color palettes, and learn about different architectural styles—all from our innovative Design Center. Save your favorite products, colors, photos or ideas throughout the site into your own ProVia® portfolio for reference any time and share them across your favorite social media platforms.

VISUALIZER

Let your imagination run free with this exterior home design tool. Select from a library of existing home styles or upload a photo of your own home.

In a few easy steps, update your siding color, add stone or metal roofing, configure windows, or create a one-of-a-kind entry door system.

Looking for professionally inspired color and product palettes? Apply one of our pre-selected Designer Collections to create a curb-appealing look.

APP

Use the ProVia App to configure doors and windows or select from an extensive collection of vinyl siding, manufactured stone and metal roofing styles.

Features:

- Door and Window Configuration
- Vinyl Siding Profiles, Colors, and Accessory Accents
- Manufactured Stone Styles, Color Palettes, and Grout Options
- Metal Roofing Profiles, Trims, and Colors
- Videos, Photo Galleries, and Catalogs
- ProVia Dealer Locator
- Request a Quote Directly from Local Dealers

SOCIAL MEDIA

We love seeing how you apply our products to your home. Please share your photos with us.

50 YEARS *of* PURPOSE

Thank You for Being Part of Our Story

As ProVia® commemorates its 50th Anniversary, we extend our sincere gratitude to homeowners like you for your trust and support over the years. This milestone is not ours alone. The confidence our customers have placed in us has been an important part of our story and our success.

Our Purpose defines why we exist: *To let our light shine before others, so that they may see our good works and give glory to our Father who is in heaven (adapted from Matthew 5:16).*

The ProVia team has always embraced opportunities to demonstrate our purpose, vision, and values. Each member is committed to serving our customers faithfully, by manufacturing exceptional home exterior products and delivering unmatched quality and service.

That commitment has been part of who we are since Bill Mullet founded the company in 1977. For five decades, our faith has inspired us to serve others with integrity, ingenuity, honor, and honesty. Our commitment to putting customers first and pursuing the highest standards of quality continues to guide everything we do.

Thank you for welcoming us to your home. As we celebrate 50 years, we look forward to serving homeowners like you with the same purpose, passion, and dedication for generations to come.

Brian Miller
