

IMPACT ENTRY DOORS

A dark-framed impact entry door is the central focus of the image. It features a large glass insert with three horizontal dark bars. To the left of the door is a narrow vertical side window. The door is set into a light-colored stucco wall. A small black rectangular device, possibly a doorbell or sensor, is mounted on the door frame to the left of the handle. A black handle and lock mechanism are visible on the lower left of the door. A green banner in the top right corner contains the ProVia logo and the text 'IMPACT ENTRY DOORS'. At the bottom of the image, a portion of a textured, light-colored doormat is visible on the ground.

# IMPACT ENTRY DOORS

# PROVIA® BUILDS DOORS THE PROFESSIONAL WAY

ProVia caters to a niche within the door market that demands a high degree of customization coupled with outstanding quality. Our company defines the products that meet this demand as “professional-class.” We have found success by adhering to a set of core values that guide us as we develop rewarding, long-term relationships with our employees, customers and homeowners.

ProVia custom entry doors are built to your home’s exact measurements for a precise fit, protection, security, and energy efficiency. The materials that go into our custom-made doors are premium quality and exceptionally durable, far surpassing the ready-made doors at the big-box hardware stores. Our craftsmanship and care for details can be seen in each door we produce.

## SECURITY

We ensure the strength and security of every door, so you have peace of mind.

## DURABILITY

Crafted with the finest materials and backed by our Lifetime Limited Transferable Warranty, the durability of our products can’t be beat.

## BEAUTY

A beautiful ProVia entry system will always greet your guests with classic elegance and style.

## ENERGY EFFICIENCY

Engineered to keep the elements at bay and your home comfortable year round.

Legacy™ Smooth 006 French door in Snow Mist with Schlage® Accent hardware in Satin Nickel

## INDUSTRY ASSOCIATIONS, ACCREDITATION, & TESTING

Through its membership in WDMA, ProVia collaborates on standards and advocacy efforts to advance the window and door industry.

Involvement with FGIA allows ProVia to stay at the forefront of glazing and fenestration technology, benefiting from shared research and best practices.

ProVia's participation in NFRC ensures that, through voluntary third-party testing, their products meet rigorous energy performance and rating standards, reflecting their commitment to sustainability and quality.

# UNDERSTANDING IMPACT ENTRY DOORS

Impact-rated entry doors play a crucial role in enhancing the safety and resilience of homes and buildings against adverse weather conditions and potential intrusions. These doors are specifically designed and tested to withstand the impact of severe storms, hurricanes, and other extreme weather events, providing homeowners with a reliable barrier against the forces of nature. Beyond their robust construction, impact-rated entry doors also contribute to energy efficiency and offer aesthetic appeal, making them a practical and visually appealing choice for those seeking a combination of durability and style in their home security solutions.

## WINDSPEED MAP FOR RISK CATEGORY II:

8<sup>TH</sup> EDITION: FLORIDA BUILDING CODE

## TEXAS DEPARTMENT OF INSURANCE (TDI) CERTIFICATION

All ProVia Impact / Wind Load rated doors hold a 3rd party evaluation report which meet TDI requirements. Customers in Texas can access TDI product evaluations for ProVia doors in entryLINK.

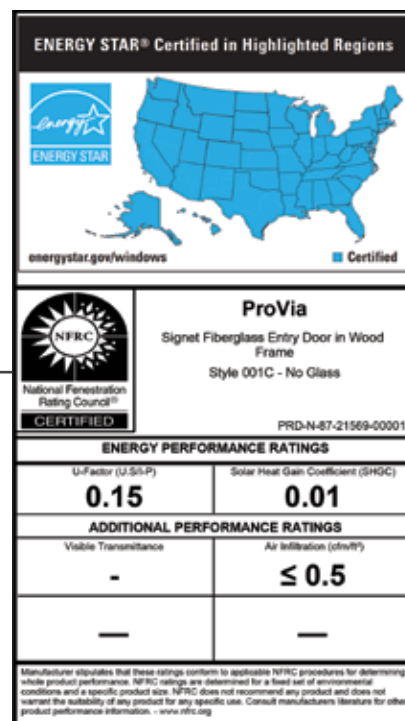

# ENERGY AND PERFORMANCE COMPLIANCE

Impact-rated entry doors, designed to withstand severe weather conditions, are subject to labeling requirements set by two prominent organizations: the **National Fenestration Rating Council (NFRC)** and the **National Accreditation and Management Institute (NAMI)**. The NFRC focuses on providing standardized ratings for the energy performance of windows, doors, and skylights, ensuring that consumers have reliable information to make informed decisions. NAMI, on the other hand, is a third-party Independent Accreditation Agency.

Both organizations play a crucial role in establishing and verifying the performance standards of impact-rated entry doors. Meeting the labeling requirements of NFRC and NAMI assures consumers that these doors have undergone rigorous testing and adhere to industry-recognized standards, providing a transparent and trustworthy means of assessing their quality and performance.

## PROVIA® ENERGY COMPLIANCE

# THE COMPONENTS

The components are the small things that set our doors apart from the competition. A lot of small things add up to a big difference.

**WEATHERSTRIPPING**

**SWEEP**

# FRAME OPTIONS

## PermaTech™

Our PermaTech composite door frame system combines the strength and convenience of wood with enhanced properties that make it moisture and insect resistant. PermaTech will not absorb or wick moisture and will never rot or splinter, and is covered by a Lifetime Limited Warranty.\*

\* No storm door applied. See full warranty for limitations.

## FrameSaver®

FrameSaver wood frame and brickmold with finger-jointed composite bottom prevents water absorption and carries a Lifetime Limited Warranty when used with aluminum frame cladding on the exterior.

**Available with Textured or Tuflex™ Smooth cladding.**

A one-of-a-kind alternative to composite or wood jambs, this component utilizes the strength of an LVL interior, the rot-proof performance of a FrameSaver™ bottom, and the durability of a composite frame exterior. Offering a lifetime jamb warranty\*.

## PREFINISHED, MAINTENANCE-FREE

Available as a textured or smooth frame, providing you with the benefit of a prefinished, maintenance-free system, along with the beauty of a stain or paint finish that matches your entry door.

### FLOATING BRICKMOLD

Even if your walls aren't plumb, your door unit can be. With ¼" of "float," the floating brickmold adjusts to fit your needs. Remove covers, install fasteners and reattach covers for a flawless, clean install.

### PLUMB INDICATOR

Removable frame stop cover allows for concealed plumb indicator and fasteners.

- Installation made easy
- Removable frame and brickmold covers
- Eliminates unsightly fastener holes

### INSTALLATION HOLES

Pre-drilled holes in frame for ease of installation.

### COMPOSITE BOTTOM

Prevents water absorption, warping and rotting.

### ULTIMATE FLEXIBILITY

Get ultimate flexibility between 4⅞" and 8⅞" frame widths.

**3 ½" FLAT  
RIPPABLE BRICKMOLD**

**2" STANDARD  
RIPPABLE BRICKMOLD**

### ADDITIONAL OPTIONS

Mull Cover for  
1" Build-Up

3½" Flat Rippable\*  
Brickmold to 2"

or

2" Standard Rippable  
Brickmold to 1⅞"

\* Ripping brickmold produces a rough-cut edge which will be painted or stained, but not exactly match the original textured or smooth finish.

Signet Fiberglass doors are available in Mahogany, Cherry, Oak, Knotty Alder, Fir and Smooth. With robust hardwood stiles and rails dovetailed at each corner, the Signet door is structurally superior to traditional fiberglass doors. All Signet Fiberglass doors exhibit our exclusive DuraFuse™ Finishing System featuring P<sup>3</sup> Fusion, allowing us to offer an industry-best 15-year finish warranty.

# SIGNET FEATURES

Most Signet Fiberglass entry systems can be ENERGY STAR® certified.

- A** The inside door frame is hand-stained or painted to match your door, providing you with a consistent visual appearance.
- B** The 2½" finger-jointed 3-ply hardwood hinge stile provides superior structural integrity.
- C** Stiles and rails are dovetailed at each corner, creating a structurally solid, integrated frame.
- D** Glue is applied to the rails and stiles to permanently adhere the door skin to the frame.
- E** Door edge is constructed with Cherry, Mahogany, Oak or Fir wood matching the selected series.
- F** Signet doors are foam filled by a computer driven process that ensures the optimal foam fill for maximum efficiency and strength.
- G** The authentic wood look is made possible by using cutting-edge NVD (Nickel Vapor Deposition) technology by MasterGrain™.
- H** The ¾" finger-jointed 4-ply hardwood strike stile provides a solid mounting surface for hardware and superior structural integrity.
- I** Scientifically formulated compounds provide superior resistance to denting, splitting, cracking and warping.
- J** High-definition panel profile creates excellent shadow lines and distinct panel designs.
- K** The revolutionary DuraFuse™ Finishing System featuring P3 Fusion yields unprecedented finish durability.
- L** A high-performance composite material is used on all Signet fiberglass bottom rails, giving excellent rot-resistance.
- M** Z-AC Threshold with auto-adjusting riser. Standard with anodized bronze finish.

An impact resistant mesh is applied to the areas of the door without glass.

Plugless Glass Trim is standard on Signet.

# FRENCH DOORS

French doors make an elegant statement like nothing else. Express your personality by creating a simple yet striking entry. Make it as ornate and beautiful as you like.

## FRENCH DOOR DETAILS

- All door styles are available as a French Door
- Hinged on each end with door knobs in the center
- Available with either left or right active door (main entryway)
- Center astragal is attached to the inactive door and includes top and bottom slide bolts (used to open inactive door)
- Available as inswing or outswing
- Header security plate standard on frame
- Hardware Installation: locksets, deadbolts and kickplates will be installed on active and inactive doors, all other hardware on active door only
- Available with Trilennium® and PanoLock® Plus multi-point hardware

## HURRICANE ASTRAGAL DETAILS

The hurricane push button astragal delivers consistent, trusted performance in one cost-effective solution. Each of the astragal's auto-locking flush bolts are secured in place with the simple push of a button for lasting, secure performance and easy use of the inactive door panel.

The astragal features a spring-loaded retractable boot that clears the threshold when the flush bolt is retracted and seals against the sill cap when the bolt is engaged for damage-free performance and lasting sealing power over time. In addition to the floating boot, this hurricane astragal system features a solid, one-piece flush bolt that prevents unlocking from the outside of your home.

## STYLES AND CONFIGURATIONS

All door styles are available as a French Door.

## UNEQUAL FRENCH DOORS

Unequal french doors allow you to use the larger entry door day-to-day, yet have the option to open the smaller, inactive door to gain full access.

Available in Signet® and Legacy™ smooth.  
Internal blind sizes are limited.

# HINGED PATIO DOORS

Our hinged patio doors bring style and versatility to your home, available in 2- or 3-lite units that beautifully open your space to the outdoors. Designed to perfectly complement our Signet® and Legacy™ entry doors, they create a seamless, cohesive look while delivering lasting performance and curb appeal.

## STANDARD FEATURES

A keyed Schlage® Flair handleset with a Maximum Security Thumbturn deadbolt is included. Choose from Bright Brass, Antique Brass, Satin Nickel, or Black finishes.

The lock area is reinforced with a 20-gauge steel security plate for added strength.

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. BetterVue® fiberglass screen mesh is standard. Heavy-duty fiberglass, aluminum or SeeVue® stainless steel mesh is optional.

Suspended by ball bearing rollers, this top-hung heavy-duty aluminum screen frame reduces binding, creating effortless operation. Screen frames are available in all standard and trending colors.

Z-AC Threshold with an auto-adjusting riser. Available in Anodized Bronze or Mill finish. Standard with Signet.

Z-AI Threshold with cap screw plugs. Available in Mill finish.

## DOOR SWING

## OPTIONS

**Custom Widths and Heights** - Need a little more height or a little less width? We are pleased to offer customized patio door widths and heights in 1/8" increments.

**Door Swing** - Illustrations to the left are viewed from above. Inswing only.

**Finishes** - Patio doors are available in all finishes.

\* Optional Aluminum Frame Cladding will increase brickmold-to-brickmold width by 1/4" and height by 1/8". Not all sizes available in all door types.

## HOW IT'S MADE

Laminated glass is two or more lites of glass permanently bonded together with one or more polymer interlayers using heat and pressure. The glass and interlayers are available in a variety of colors and thicknesses which provide the desired appearance and performance to meet the relevant building code standards and customer requirements.

Laminated glass products are suitable for today's demanding architectural applications such as: noise reduction, hurricane impact-resistance, blast mitigation, forced entry, protection from broken glass – or a combination of these.

## BENEFITS

### SAFETY AND REDUCED RISK OF INJURY

Glass is often laminated to **protect people from glass breakage**. Under sufficient impact force, laminated glass will break. Glass fragments tend to adhere to the plastic interlayer and remain largely intact, reducing the risk of injury. Laminated glass can also be considered "safety glass".

### SOUND CONTROL

Acoustic insulating glass adds **noise reduction to other benefits of laminated safety glass**, helping to reduce noise levels so that people can be more comfortable in their living spaces. Outdoor-Indoor Transmission Class (OITC) is used for measuring the sound transmission loss of exterior glazing applications. Laminated glass tends to produce higher OITC ratings because the PVB laminate dampens vibration and the air space limits sound transmission.

### UV PROTECTION

Laminated glass can absorb **up to 99% of damaging UV rays which can be responsible for up to 50% of fading on interior furnishings**. This protection means that interior surfaces and furniture are likely to last longer.

### SECURITY

**Heat strengthened and tempered glass** can be incorporated into laminated glass units to further strengthen the impact resistance. This type of laminated glass is often specified for applications where anti-intrusion or forced-entry security are concerns, ballistic and blast mitigation, and hail protection.

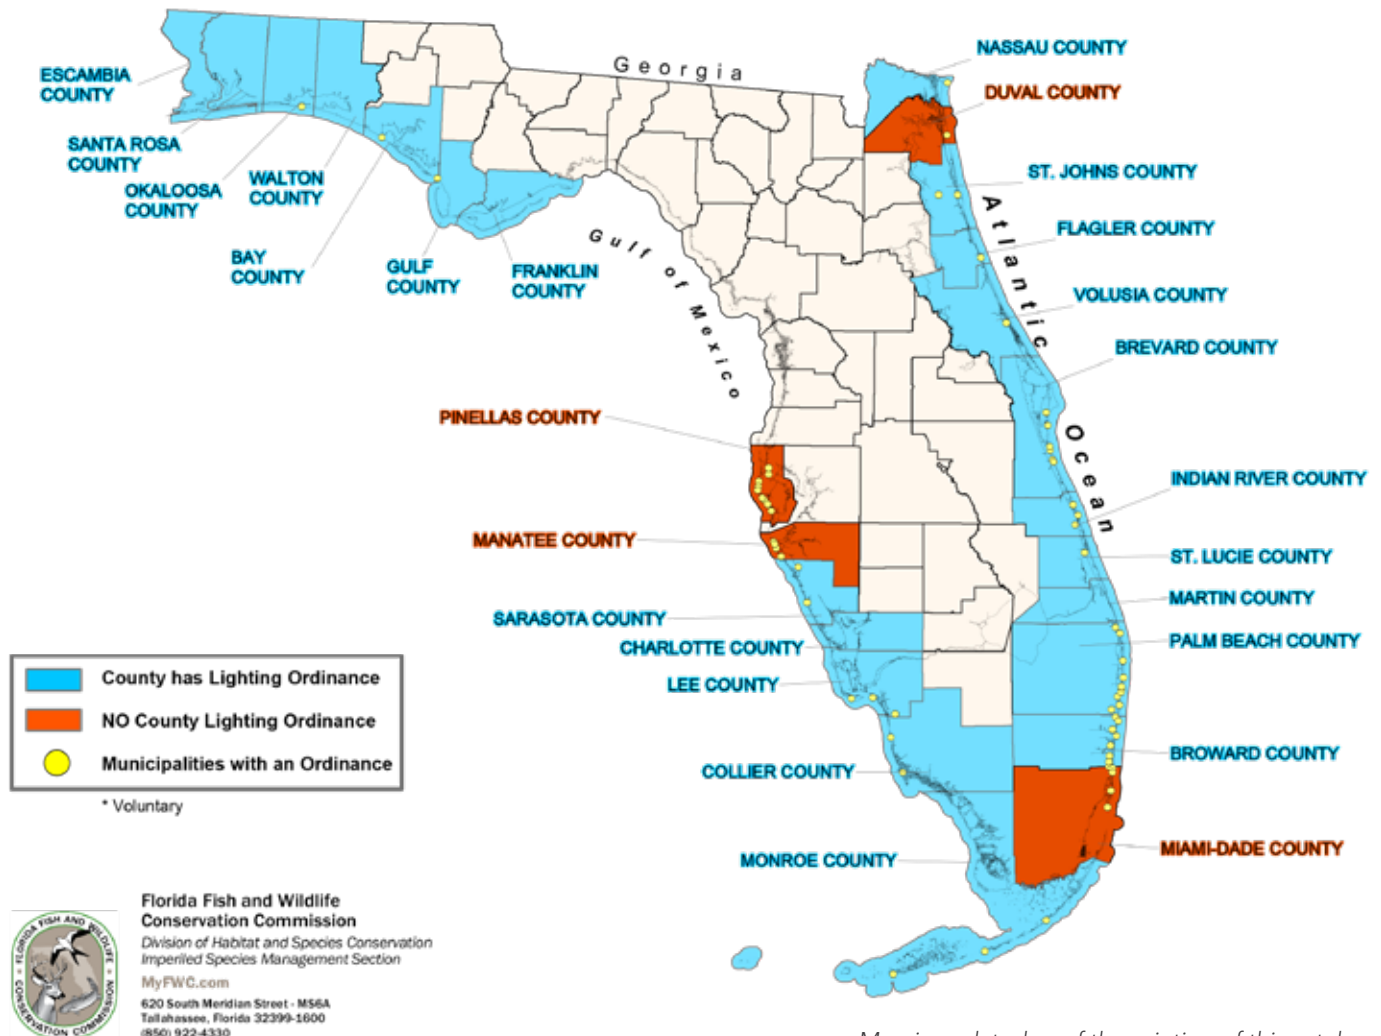

The state of Florida implemented Section 161.163, Florida Statutes, which requires the Florida Department of Environmental Protection to designate coastal areas utilized, or likely to be utilized, by sea turtles for nesting. This statute establishes guidelines for local government regulations that control beachfront lighting to protect hatching sea turtles. 45% is the Florida standard as stated in the model code.

<https://myfwc.com/conservation/you-conserve/lighting/ordinances/>

ProVia® Insulated Glass Units (IGU's) can meet turtle glass requirements by utilizing gray tint and low-E coatings. Please refer to entryLINK for turtle glass compliant IGU's.

## SEA TURTLE LIGHTING ORDINANCE MAP - FLORIDA

Map is updated as of the printing of this catalog.

Warm edge technology is more than just a low-conductive product that helps make insulated glass units more thermally efficient. The warm edge spacer is the seal that keeps the glass package in entry doors from failing. Super Spacer is a dual-seal insulating glass system. This non-metal, structural foam spacer resists condensation, reduces energy costs, provides long-life durability and adds both comfort and value to your doors.

Super Spacer is better able to ensure NFRC ENERGY STAR® certification by providing the best thermal conductivity, the lowest U-Factor among dual-seal systems and the best durability available in the industry. The all-foam formula blocks the heat escape path, improves sound absorption over traditional metal spacers and lasts up to nine times longer in durability tests than single-seal units. The all-foam formula reduces the effects of temperature changes, barometric pressure, wind load and glazing pressure, resulting in fewer seal failure and stress cracks.

## NOISE REDUCTION

The all-foam formula's excellent sound dampening properties reduce outside noise, even in industrial environments.

## MYLAR 10-LAYER VAPOR BARRIER

The Super Spacer thermoset foam matrix is exceptional. Moisture is kept out, gas is kept in and conductivity is virtually nonexistent.

## THE NO-METAL ADVANTAGE

Thermal efficiency through no presence of conductive metals is the Super Spacer hallmark.

## LASTING APPEARANCE

The Warm Edge Glazing System stands up to the natural bending and bowing from temperature changes, barometric pressure and wind load.

## IMPROVED STRENGTH

The P-1 test exposes units to 140°, 95-100% humidity and constant UV bombardment. Each week of testing is equal to one year of field use. Super Spacer survives with long term P-1 performance with a low seal failure history.

## WARMEST EDGE

Super Spacer provides the warmest edge among dual-seal systems with up to +14.4° F / 8° C warmer temperatures at the edge of the glass.

# COMFORTECH™ GLAZING SYSTEM

Measurably improve thermal performance with the ComforTech™ Warm Edge Glazing System. You'll enjoy better energy efficiency and a warmer glass edge.

## COMFORTECH IMPACT SHEILD LAMINATED GLASS PACKAGES

# TINTED GLASS OPTIONS

**NEW**

We're excited to introduce two new tinted glass options for entry doors: Gray and Bronze. These new options combine style with practical benefits to enhance both the look and performance of your entry door.

## GRAY

Gray tinted glass offers excellent glare control and exceptional protection against interior fading, helping preserve the color and integrity of fabrics and finishes by reducing UV exposure.

## BRONZE

Bronze tinted glass provides high visible light transmittance, adds a warm glow to interior spaces, and beautifully complements brick or stone exteriors—all while offering reliable UV protection.

# PRIVACY GLASS

Privacy glass ensures a high level of obscurement but allows soft light to filter in and illuminate a space.

**CHINCHILLA** | 8

Due to the unique, tightly grooved texture of Chinchilla privacy glass, this design naturally reflects and refracts light in a more noticeable way. As a result, the glass may display a more pronounced V-like or diamond-shaped pattern (see small image above), especially in certain lighting conditions.

**FLUTED** | 7

**MISTIFY** | 6

Mistify privacy glass only available on select door styles. See [entryLINK](#) for details.

**OBSCURE** | 8

These photos were taken with objects directly behind the privacy glass in a well-lit space. Actual privacy levels will vary depending on your distance from the glass and the amount of light in the room in comparison to the light outside your home. For extra privacy, contact customer service to add an extra pane of privacy glass to your door. Double privacy glass is an option for SDP doors and this is set up in entryLINK.

# DECORATIVE GLASS

Decorative glass is unique in that it achieves its personality and beauty through aesthetic imperfections – waves, striations, and air bubbles that create natural effects and singular characteristics. ProVia® decorative glass mimics the hand-made sheet glass of centuries past, and these stunning ornamental designs elevate the look of your entry door, boosting the curb appeal of your home.

All ProVia decorative glass designs include the ComforTech™ Warm Edge Glazing System, which measurably improves its thermal performance and energy efficiency.

## ProVia Exclusive

These decorative glass designs are only found on ProVia products. This gives your home a unique style that can't be found anywhere else.

*Wrought Iron designs are not ProVia exclusive designs.*

Scan to watch the Decorative Glass creation process.

## Covered by a Lifetime Limited Warranty

Warranty includes glass breakage and seal failure.

## Energy Efficient

Most full wood frame and composite frame entry systems using Decorative Glass can be ENERGY STAR® Certified.

*See the Energy Performance Calculator on our website for energy ratings on specific styles.*

# PANOLOCK® PLUS MULTI-POINT HARDWARE

PanoLock® is the first and only multi-point lock that works with multiple hardware options, bringing security and performance to every entry and hinged patio door.

## PANOLOCK PLUS MULTI-POINT LOCKING HARDWARE

1 Tapered Bolt

### SECURITY SIMPLIFIED

PanoLock allows you to enjoy the strength and security of a multi-point lock with the ease of operation of a standard handle set. A simple rotation of the key or thumb turn activates the **top and bottom tapered bolts**.

PanoLock Plus will not activate the middle latch bolt to use as a locking point. This middle latch bolt will work separately from the other two tapered bolts. It will be controlled entirely by the handleset.

PanoLock is available on standard height and 8' foot doors.

### FACEPLATE FINISHES

Brushed Clear Anodized

Victorian Bronze

2 Tapered Bolt

Latch Bolt

### A. TAPERED BOLT

Unlike other locks that tend to catch, PanoLock's tapered bolts engage easily, even when the door is out of alignment.

### B. ADJUSTABLE ROLLER STRIKE

Rollers lower operating force and allow the tapered bolt to gently snug the door panel against the weatherstrip.

### STRENGTH

PanoLock offers enhanced strength and security vs. standard locking systems.

### ENHANCED PERFORMANCE

Equipped with two tapered locks, PanoLock provides enhanced performance while reducing operation force.

### ULTIMATE SECURITY

PanoLock features roller strike plates equipped with extra anchor screws for added security.

### FLEXIBILITY

PanoLock can be used on both inswing and outswing applications.

### MULTIPLE HARDWARE OPTIONS

Thumb press, lever or knob - PanoLock Plus can be paired with select Schlage® and Emtek® hardware.

Compatible with  
Schlage Encode™  
Plus Wi-Fi  
Deadbolt

See entryLINK for all compatible hardware options.

# TRILENNIUM® MULTI-POINT HARDWARE

The Trilennium Multi-Point Locking System provides ultimate protection and peace of mind with the power of three full deadbolts and a solid lock design that even strengthens the door panel. Trilennium hardware has a 10-Year warranty on materials and workmanship.

NOT AVAILABLE ON STEEL L-FRAMES

## ECLIPSE

## PINNACLE

## WESTCOTT

\* Flat Bronze does not coordinate with Black/Bronze accessories.

Lifetime finish warranty time period is limited to five years if product is installed in a coastal region.

## TRILENNIUM MULTI-POINT LOCKING HARDWARE

The Trilennium Multi-Point locking system provides more than just security. It offers homeowners better door closure and sealing than a single point lock.

- Three 1" deadbolts latch with deadbolt throw.
- Deadbolts include anti-saw hardened steel pin.
- A solid I-beam runs the full length of the lock, and increases the strength and precision of the lock.
- Latch and deadbolt release with a single downward movement.

Top and bottom latch design allows for door misalignment and  $\frac{3}{16}$ " pull-in when deadbolted.

Angled shoulder on bolt engages with the adjustable roller strike

## AVAILABLE FINISHES

# SCHLAGE® ENCODE PLUS™

## SMART WI-FI DEADBOLT

Camelot

Century

The **Schlage Encode Plus Smart Wi-Fi Deadbolt** combines robust security, smart home compatibility, and user-friendly access control. One of its standout benefits is that you can assign unique access codes for friends, family, or guests directly through the Schlage Home app (or via Apple Home / Home Key integration). This lets you track who comes and goes, revoke or change codes as needed, and avoid giving out physical keys. It's ideal not just for primary homes, but also for rental properties or Airbnb units, where temporary or scheduled access is important. The flexibility of remote locking, activity logs, and guest access make it a strong choice for anyone managing multiple visitors or wanting more control over who enters and when.

### FEATURES

- Offers iOS and Android compatibility
- Voice control with Alexa or Google Assistant
- Manage up to 100 pin codes
- Backed by a best-in-class BHMA rating in security, durability and finish
- Customizable settings make it easy to personalize your lock to fit your lifestyle

# DISCOVER MORE

## WEBSITE

ProVia.com makes it easy to explore and compare numerous door, window, siding, stone or roofing options in a straightforward, interactive way. Configure a door or window, visualize products on your home, explore color palettes, and learn about different architectural styles—all from our innovative Design Center. Save your favorite products, colors, photos or ideas throughout the site into your own ProVia® portfolio for reference any time and share them across your favorite social media platforms.

## VISUALIZER

Let your imagination run free with this exterior home design tool. Select from a library of existing home styles or upload a photo of your own home.

In a few easy steps, update your siding color, add stone or metal roofing, configure windows, or create a one-of-a-kind entry door system.

Looking for professionally inspired color and product palettes? Apply one of our pre-selected Designer Collections to create a curb-appealing look.

## APP

Use the ProVia app to configure doors and windows or select from an extensive collection of vinyl siding, manufactured stone and metal roofing styles.

### Features:

- Door and Window Configuration
- Vinyl Siding Profiles, Colors and Accessory Accents
- Manufactured Stone Styles, Color Palettes and Grout Options
- Metal Roofing Profiles, Trims and Colors
- Videos, Photo Galleries and Catalogs
- ProVia Dealer Locator

## SOCIAL MEDIA

We love seeing how you apply our products to your home. Please share your photos with us.

"To serve, by caring for details in ways others won't." It's not just our mission, but a way of letting our light shine every day at ProVia®. We continually strive to put these words into action by providing unmatched quality and service. The P-icon symbolizes each employee's commitment to devoting the utmost care, pride and quality into each building product we manufacture...it's The Professional Way.

At ProVia, we manufacture energy efficient products and exercise corporate environmental stewardship by recycling, reducing pollution emissions and much more. In fact, our company has received repeated awards from the Environmental Protection Agency such as Partner of the Year - Sustained Excellence for Door and Window Manufacturing.
