# PROVIA® BUILDS DOORS THE PROFESSIONAL WAY

ProVia caters to a niche within the door market that demands a high degree of customization coupled with outstanding quality. Our company defines the products that meet this demand as “professional-class.” We have found success by adhering to a set of core values that guide us as we develop rewarding, long-term relationships with our employees, customers and homeowners.

## WHAT MAKES PROVIA PROFESSIONAL-CLASS?

### ENTRY SYSTEMS **TAILORED** FOR YOUR HOME

ProVia custom entry doors are built to your home’s exact measurements for a precise fit, protection, security, and energy efficiency. The materials that go into our custom-made doors are premium quality and exceptionally durable, far surpassing the ready-made doors at the big-box hardware stores. Our craftsmanship and care for details can be seen in each door we produce.

**SECURITY** | We ensure the strength and security of every door, so you have peace of mind.

**DURABILITY** | Crafted with the finest materials and backed by our Lifetime Limited Transferable Warranty, the durability of our products can’t be beat.

**BEAUTY** | A beautiful ProVia entry system will always greet your guests with classic elegance and style.

**ENERGY EFFICIENCY** | Engineered to keep the elements at bay and your home comfortable year round.

### INDUSTRY ASSOCIATIONS

ProVia actively engages with leading industry organizations such as the Window & Door Manufacturers Association (WDMA), the Fenestration and Glazing Industry Alliance (FGIA), and the National Fenestration Rating Council (NFRC).

Through its membership in WDMA, ProVia collaborates on standards and advocacy efforts to advance the window and door industry.

Involvement with FGIA allows ProVia to stay at the forefront of glazing and fenestration technology, benefiting from shared research and best practices.

ProVia's participation in NFRC ensures that, through voluntary third-party testing, their products meet rigorous energy performance and rating standards, reflecting their commitment to sustainability and quality.

# UNDERSTANDING IMPACT ENTRY DOORS

Impact-rated entry doors play a crucial role in enhancing the safety and resilience of homes and buildings against adverse weather conditions and potential intrusions. These doors are specifically designed and tested to withstand the impact of severe storms, hurricanes, and other extreme weather events, providing homeowners with a reliable barrier against the forces of nature. Beyond their robust construction, impact-rated entry doors also contribute to energy efficiency and offer aesthetic appeal, making them a practical and visually appealing choice for those seeking a combination of durability and style in their home security solutions.

## WINDSPEED MAP FOR RISK CATEGORY II: 8TH EDITION: FLORIDA BUILDING CODE

### TEXAS DEPARTMENT OF INSURANCE (TDI) CERTIFICATION

All ProVia Impact / Wind Load rated doors hold a 3rd party evaluation report which meet TDI requirements. Customers in Texas can access TDI product evaluations for ProVia doors in entryLINK.

# ENERGY AND PERFORMANCE COMPLIANCE

Impact-rated entry doors, designed to withstand severe weather conditions, are subject to labeling requirements set by two prominent organizations: the National Fenestration Rating Council (NFRC) and the National Accreditation and Management Institute (NAMI). The NFRC focuses on providing standardized ratings for the energy performance of windows, doors, and skylights, ensuring that consumers have reliable information to make informed decisions. NAMI, on the other hand, is a third party Independent Accreditation Agency.

Both organizations play a crucial role in establishing and verifying the performance standards of impact-rated entry doors. Meeting the labeling requirements of NFRC and NAMI assures consumers that these doors have undergone rigorous testing and adhere to industry-recognized standards, providing a transparent and trustworthy means of assessing their quality and performance.

## PROVIA® ENERGY COMPLIANCE

# THE COMPONENTS

The components are the small things that set our doors apart from the competition. A lot of small things add up to a big difference.

Legacy™ Smooth 460 entry door with one sidelite in Eucalyptus with Genesis decorative glass and Emtek® Select hardware in Satin Nickel/Black

- A** Your home is unique and deserves to have **custom glass options** like our ComforTech™ Warm Edge Glazing Systems which include decorative glass, art glass, internal blinds and internal and external grids in many grid patterns and colors.

Impact Shield doors feature laminated glass.

- B** Our **2 1/2" casing** conveniently covers paint lines providing a professional installation. **Also available in 3 1/2".** Choose from Cherry, Mahogany, Oak and Poplar. Flat Fir and Poplar trim are available in paint, stain and glazed finishes.

- C** Glass trim is available in different textures and styles to best complement each door with glass. Trim options will be determined based on the door style chosen. All glass trim falls into one of two main categories: Flat and Contoured.

**D** The **Z-AC threshold** has an auto-adjusting riser and built-in sealing system that redefines how your door can perform for you. Standard on Signet® and Legacy.

- **Automatically adjusts** to your entry door's changing needs over time, eliminating service calls
- Delivers **protection** against air and water infiltration

**E** Three **heavy-duty ball bearing hinges** come standard with every entry system. **Additional 4th hinge option** for greater durability.

*A 4th hinge is standard on 8' doors.*

**F** The energy-efficient **weatherstripping** runs along the top and sides of the door and interlocks with the CornerShield™ for the most efficient seal you'll find for keeping moisture, wind and dirt out of your home.

**G** We include our **20-gauge security plate** for extra strength and to help prevent kick-ins.

**H** The **dust box** in the deadbolt strike provides a barrier to air infiltration while providing a nice appearance that most other door manufacturers don't provide. An exclusively designed **fully adjustable strike plate** is included. This unique 2-piece construction makes our doors easier to custom fit.

**I** **Bulb and dual blade sweep** virtually eliminates drafts, keeping your home comfortable.

## FrameSaver®

**FrameSaver wood frame and brickmold** with finger-jointed composite bottom prevents water absorption and carries a Lifetime Limited Warranty when used with **aluminum frame cladding** on the exterior.

**Available with Textured or Tuflex™ Smooth cladding.**

## PermaTech™

Our **PermaTech Composite door frame system** option combines all the strength and convenience of wood with enhanced properties that make it moisture and insect resistant. PermaTech will not absorb or wick moisture and will never rot or splinter, and is covered by a Lifetime Limited Warranty.\*

\* No storm door applied. See full warranty for limitations.

Signet® Oak 460 entry door with two sidelites in custom stain with Esmond decorative glass and Schlage® Century hardware in Black

# FusionFrame™

FusionFrame: A one-of-a-kind alternative to composite or wood jambs, this component utilizes the strength of an LVL interior, the rot-proof performance of a FrameSaver bottom, and the durability of a composite frame exterior. Offering a lifetime jamb warranty\*.

## PREFINISHED, MAINTENANCE-FREE

Available as a textured or smooth frame, providing you with the benefit of a prefinished, maintenance-free system, along with the beauty of a stain or paint finish that matches your entry door.

Not available for outswing doors. See entryLINK for complete limitations and restrictions.

\*Finish warranty will match the finish warranty of door series

## 3½" Flat Rippable Brickmold

All FusionFrame options are available in textured or smooth.

## 2" Standard Rippable Brickmold

3½" \* Flat Rippable Brickmold to 2" or  
2" Standard Rippable Brickmold to 1¾"

\*Ripping brickmold produces a rough-cut edge which will be painted or stained, but not exactly match the original textured or smooth finish.

## ADDITIONAL OPTIONS

Mull Cover for  
1" Build-Up

Transom Cover  
4¾" up to 6¾" jambs

## FLOATING BRICKMOLD

Even if your walls aren't plumb, your door unit can be. With 1/4" of "float," the floating brickmold adjusts to fit your needs. Remove covers, install fasteners and reattach covers for a flawless, clean install.

## INSTALLATION HOLES

Pre-drilled holes in frame for ease of installation.

## COMPOSITE BOTTOM

Prevents water absorption, warping and rotting.

## PLUMB INDICATOR

Removable frame stop cover allows for concealed plumb indicator and fasteners.

- Installation made easy
- Removable frame and brickmold covers
- Eliminates unsightly fastener holes

## ULTIMATE FLEXIBILITY

Get ultimate flexibility between 4¾" and 8¾" frame widths.

Signet Oak entry door in Truffle stain with matching Textured Fusion Frame featuring Schlage® Addison hardware in Black

Signet Fiberglass doors are available in Mahogany, Cherry, Oak, Knotty Alder, Fir and Smooth Series. Structurally, the Signet door is far superior to traditional fiberglass doors with robust hardwood stiles and rails dovetailed at each corner. All Signet Fiberglass doors exhibit our exclusive DuraFuse™ Finishing System featuring P<sup>3</sup> Fusion, allowing us to offer an industry-best 15-year\* finish warranty.

## SIGNET SKIN OPTIONS

### CUSTOM WIDTHS & HEIGHTS

Need a little more height or a little less width? We offer customized door and sidelite widths and heights in 1/8" increments.

### CUSTOMIZE BOTH SIDES

You can customize your entry by ordering a different series, style and finish on each side of your door.

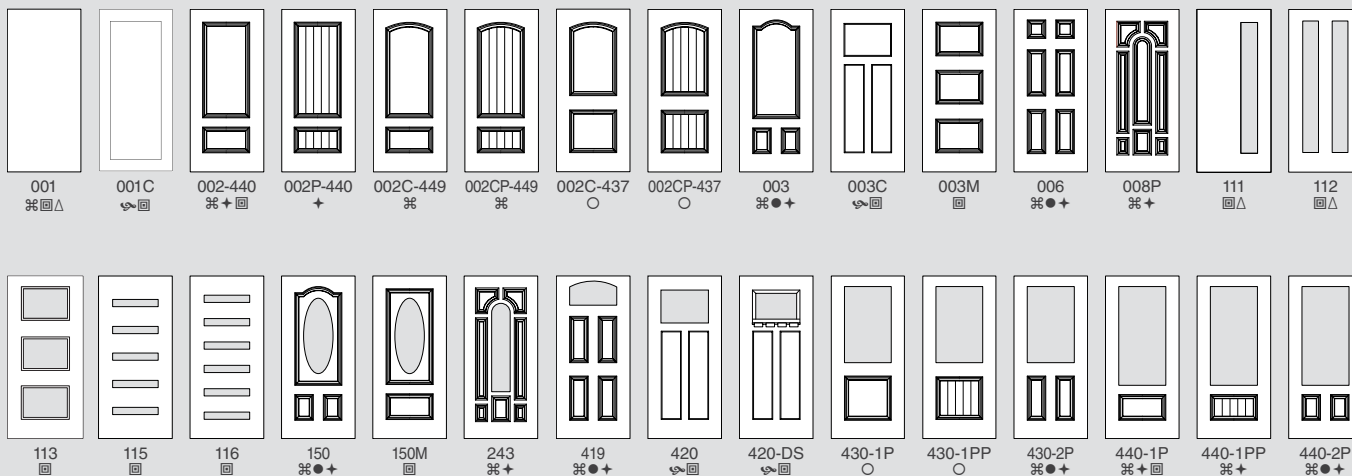

Most Signet Fiberglass Entry Systems are ENERGY STAR® Certified.

### 15-YEAR FINISH WARRANTY\*

See pgs. 87-92 for paint and stain finishes.

Note: All Signet doors are shipped finished.

# SIGNET® SMOOTH & FIR PANEL STYLES

For a stylish and modern look, Simulated Divided Panel fiberglass doors feature 3" and 5" wide panels applied to the surface of glass on 460 style Smooth or Fir doors. They may also be applied directly on the skin of a Smooth or Fir 001 style door. Numerous configurations and endless paint, glaze or stain colors allow you to create a door design that is contemporary, sophisticated and on-trend.

Available in Signet Fir or Smooth with Clear glass or Privacy glass. Simulated Divided Panel designs cannot be customized.

Signet Smooth 460-T3-5L entry door in Coal Black with double Frosted privacy glass and Emtek® Urban Modern hardware in Satin Brass

All 8' Signet Smooth doors with Simulated Divided Panels will have raised flat trim around the glass, as shown here.

# FRENCH DOORS

French doors make an elegant statement like nothing else. Express your personality by creating a simple yet striking entry. Make it as ornate and beautiful as you like.

## FRENCH DOOR DETAILS

- All door styles are available as a French Door
- Hinged on each end with door knobs in the center
- Available with either left or right active door (main entryway)
- Center astragal is attached to the inactive door and includes top and bottom slide bolts (used to open inactive door)
- Available as inswing or outswing
- Header security plate standard on frame
- Hardware Installation: locksets, deadbolts and kickplates will be installed on active and inactive doors, all other hardware on active door only
- Available with Trilennium® and PanoLock® Plus multi-point hardware

## HURRICANE ASTRAGAL DETAILS

The hurricane push button astragal delivers consistent, trusted performance in one cost-effective solution. Each of the astragal's auto-locking flush bolts are secured in place with the simple push of a button for lasting, secure performance and easy use of the inactive door panel.

The astragal features a spring-loaded retractable boot that clears the threshold when the flush bolt is retracted and seals against the sill cap when the bolt is engaged for damage-free performance and lasting sealing power over time. In addition to the floating boot, this hurricane astragal system features a solid, one-piece flush bolt that prevents unlocking from the outside of your home.

## STYLES/CONFIGURATIONS

All door styles are available as a French Door.

## UNEQUAL FRENCH DOORS

Unequal french doors allow you to use the larger entry door day-to-day, yet have the option to open the smaller, inactive door to gain full access.

Available in Signet® and Legacy™ smooth.  
Internal blind sizes are limited.

Legacy™ Smooth 460 French entry door in Coal Black with Modern Rectangular Round Knob hardware in Satin Brass and Clear Glass

# HINGED PATIO DOORS

Hinged Patio Doors are swinging patio door systems available in 2 or 3-lite units and constructed of the same solid quality Signet® and Heritage™ Fiberglass, and Legacy™ Woodgrain Textured or Smooth Steel doors as our entry door units.

Hinged Patio Doors with Heritage Fiberglass are NOT available in Certified Wind Load regions.

460 Style Smooth Signet™ Hinged Patio Door painted Snow Mist with Black Schlage Flair handle set and Cottage-TL Style Contoured Internal Grids

## PATIO DOOR STANDARD FEATURES

A **keyed Schlage Flair handleset with a Maximum Security Thumbturn deadbolt** is included. Choose from Bright Brass, Antique Brass, Satin Nickel or Black finish.

The lock area is reinforced with a **20-gauge steel security plate** for added strength.

**Spring-loaded latch system** automatically engages upon closing. Latch also includes interior locking feature. **BetterVue® fiberglass screen mesh** is standard. Heavy-duty fiberglass, aluminum or SeeVue® stainless steel screen is optional.

Suspended by ball bearing rollers this **top-hung heavy-duty aluminum screen frame** reduces binding, creating effortless operation. Screen frames are available in all standard paint colors.

**Z-AC Threshold** with an auto-adjusting riser. Available in Mill or Anodized Bronze Finish.

## OPTIONS

**Custom Widths and Heights** - Need a little more height or a little less width? We are pleased to offer customized patio door widths and heights in  $\frac{1}{8}$ " increments.

**Door Swing** - (Doors viewed from above. Inswing only.)

**Finishes** - Patio doors are available in all finishes shown on pages 94-97.

\* Optional Aluminum Frame Cladding will increase brickmold to brickmold width by  $\frac{1}{4}$ " and height by  $\frac{1}{8}$ ".  
Not all sizes available in all door types.

## DOOR SWING

## HOW IT'S MADE

Laminated glass is two or more lites of glass permanently bonded together with one or more polymer interlayers using heat and pressure. The glass and interlayers are available in a variety of colors and thicknesses which provide the desired appearance and performance to meet the relevant building code standards and customer requirements.

Laminated glass products are suitable for today's demanding architectural applications such as: noise reduction, hurricane impact-resistance, blast mitigation, forced entry, protection from broken glass – or a combination of these.

## BENEFITS

### SAFETY AND REDUCED RISK OF INJURY

Glass is often laminated to **protect people from glass breakage**. Under sufficient impact force, laminated glass will break. Glass fragments tend to adhere to the plastic interlayer and remain largely intact, reducing the risk of injury. Laminated glass can also be considered "safety glass".

### SOUND CONTROL

Acoustic insulating glass adds **noise reduction to other benefits of laminated safety glass**, helping to reduce noise levels so that people can be more comfortable in their living spaces. Outdoor-Indoor Transmission Class (OITC) is used for measuring the sound transmission loss of exterior glazing applications. Laminated glass tends to produce higher OITC ratings because the PVB laminate dampens vibration and the air space limits sound transmission.

### UV PROTECTION

Laminated glass can absorb **up to 99% of damaging UV rays which can be responsible for up to 50% of fading on interior furnishings**. This protection means that interior surfaces and furniture are likely to last longer.

### SECURITY

**Heat strengthened and tempered glass** can be incorporated into laminated glass units to further strengthen the impact resistance. This type of laminated glass is often specified for applications where anti-intrusion or forced-entry security are concerns, ballistic and blast mitigation, and hail protection.

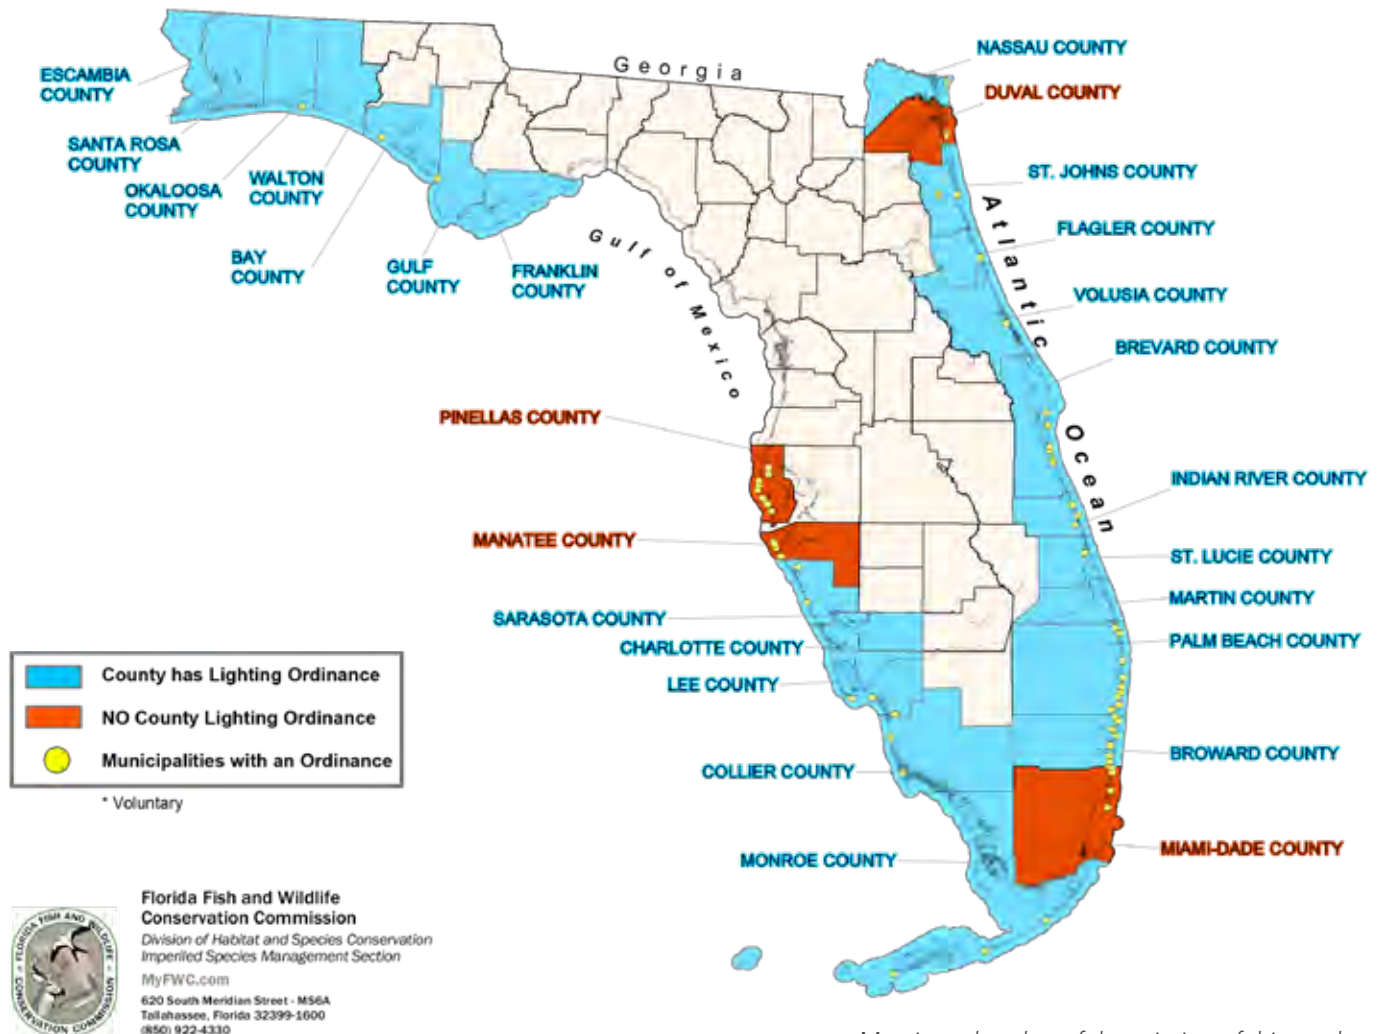

The state of Florida implemented Section 161.163, Florida Statutes, which requires the Florida Department of Environmental Protection to designate coastal areas utilized, or likely to be utilized, by sea turtles for nesting. This statute establishes guidelines for local government regulations that control beachfront lighting to protect hatching sea turtles. 45% is the Florida standard as stated in the model code.

<https://myfwc.com/conservation/you-conserve/lighting/ordinances/>

ProVia® Insulated Glass Units (IGU's) can meet turtle glass requirements by utilizing gray tint and low-E coatings. Please refer to entryLINK for turtle glass compliant IGU's.

## SEA TURTLE LIGHTING ORDINANCE MAP - FLORIDA

Map is updated as of the printing of this catalog.

Measurably improve thermal performance with the ComforTech™ Warm Edge Glazing System. You'll enjoy better energy efficiency and a warmer glass edge.

### Understanding the Acronyms

- T** - Triple Glazed
- D** - Double Glazed
- L** - Low E
- C** - Clear
- A** - Argon
- K** - Krypton
- E** - Elevation (no gas)
- UV** - Ultraviolet

R-Value reflects properties of the glass only. Center of glass calculations are based upon software from Lawrence Berkeley National Laboratory.

### LIFETIME LIMITED WARRANTY

Includes Glass Breakage and Seal Failure

# SIMULATED DIVIDED LITES

Simulated Divided Lites (SDL) are reminiscent of old world craftsmanship when separate pieces of glass were mull together with wooden grids. We deliver that same stunning appearance through our high-tech fiberglass 1" wide x 1 1/32" thick grids combined with the energy efficient qualities of our ComforTech™ glass packages.

## CRAFTSMAN

Only available for Signet® Fir Series and Signet 420 Smooth.

## CONTOURED

Available for all Signet series except Fir.

## BEVELED GLASS

Each piece of beveled glass is secured with coming for the beautiful look of a true divided light, with the efficiency of a single door/light.

## SMOOTH SDL'S

Now available with smooth trim in the Signet Smooth Series, completing the sleek, contemporary look.

## SIMULATED DIVIDED LITES STYLE AVAILABILITY

(See pages 9-16 for [Impact Shield](#) & [Windload](#) availability)

Δ Not available in 1" ComforTech Glazing System. Also, window trim screw plugs are not available for this door style.  
○ Steel sidelites are made from 24-Gauge steel

**LIFETIME LIMITED WARRANTY**  
Includes Glass Breakage & Seal Failure

# WHITE IMPACT BLINDS

Internal blinds are a convenient option for blocking harsh sunlight and increasing privacy on entry doors and patio doors. Constructed with sturdy aluminum and enclosed in tempered safety glass, the blinds are protected from weathering, damage, and dust and they are not a hindrance to cleaning your glass.

## AVAILABLE DOOR STYLES

Available with clear glass and internal grids.

† For additional door panel styles see pg. 9 (for Signet®), pg. 13 (for Legacy™), or pg. 15 (for Heritage™)

## FEATURES

- Ergo track on glass
- Eliminated slat/privacy channel gap
- U-Privacy channels (side, top & bottom) eliminate light gaps, shadows and sunlight glare
- Full tilt closure (top to bottom) allows the blinds to tilt completely closed keeping unwanted light out

Available as an Impact Shield rated product and tested for Certified Windload Regions.

# IMPACT TRIM FOR INTERNAL BLINDS

## FEATURES

- Extruded uPVC welded frame
- Low  $\frac{3}{8}$ " flat frame and cover cap profiles
- Meets Florida severe weather requirements +/- 60 DP design pressure
- Available in White

# SILK SCREEN GLASS

NEW

These designs provide enhanced privacy while adding a touch of elegance and appeal. The intricate patterns not only ensure seclusion but also elevate the overall aesthetic of your entryway. Combine functionality with stylish design to create a welcoming and refined first impression for your home.

TRINITY

ProVia® Proprietary Design

EDGE

BREEZE

ProVia Proprietary Design

Breeze silk screen glass will be mirrored in a French Door. For single entry doors, the design will be as shown (from the exterior).

## AVAILABLE DOOR STYLES

+ Trinity  
O Edge  
Breeze

Pairing a frosted privacy glass sidelite with a silkscreen design will work; however, they will not match exactly.

Frosted areas of silk screen glass have a privacy rating of 9.

# PRIVACY GLASS

Privacy glass ensures a high level of obscurement but allows soft light to filter in and illuminate a space.

*These photos were taken with objects directly behind the privacy glass in a well-lit space. Actual privacy levels will vary depending on your distance from the glass and the amount of light in the room in comparison to the light outside your home.*

*For extra privacy, contact customer service to add an extra pane of privacy glass to your door or window order.*

*Double privacy glass is an option for SDP doors and this is set up in entryLINK.*

\* Mistify privacy glass only available on select door styles. See entryLINK for details.

Since Low-E glass has a slight color tint, it is recommended that sidelites be ordered with the same glazing system as the door.

### LIFETIME LIMITED WARRANTY

Includes Glass Breakage & Seal Failure

#### Note

Privacy glass is available with:

- Simulated Divided Panels (pg. 11)
- Simulated Divided Lites (pg. 27)
- Internal Grids (pg. 29)
- External Grids (see pg. 32)

See entryLINK for which glazing system is required for ENERGY STAR® certification, as well as for availability.

† For additional door panel styles see pg. 9 (for Signet®), pg. 13 (for Legacy™), or pg. 15 (for Heritage™)

§ Available in 10" width

☼ Cannot be mullioned with Heritage Fiberglass doors in Certified Wind Load regions

◆ Only available with Modern Flat Glass Trim. Only available with 770 sidelite(s) or 160 sidelite(s) with Modern Flat Glass Trim.

# DECORATIVE GLASS

Decorative glass is unique in that it achieves its personality and beauty through aesthetic imperfections – waves, striations, and air bubbles that create natural effects and singular characteristics. ProVia® decorative glass mimics the hand-made sheet glass of centuries past, and these stunning ornamental designs elevate the look of entry doors and windows, boosting the curb appeal of your home.

All ProVia decorative glass designs include the ComforTech™ Warm Edge Glazing System, which measurably improves its thermal performance and energy efficiency. Impact Shield laminated glass reinforcement is available as an upgrade, fortifying the decorative glass to withstand windborne storm debris and repeated blows.

## **ProVia Exclusive**

These decorative glass designs are only found on ProVia products. This gives your home a unique style that can't be found anywhere else.

*Wrought Iron designs (shown on pages 83-88) are not ProVia exclusive designs.*

## **Covered by a Lifetime Limited Warranty**

Warranty includes glass breakage and seal failure.

**Watch the  
Decorative  
Glass creation  
process here!**

A ProVia® exclusive, Art Glass offers you an opportunity to create a unique artistic statement using design and color. Your entry door glass can reflect the inspiration of your creative vision and allow you to display an original piece of art with beautiful curb appeal.

FOREST GREEN

## DESIGN A **UNIQUE** PIECE OF ART GLASS

- Using **entryLINK™** or the **ProVia app**, create an entry door configuration, then select "**Art Glass**" as the glass type.
- Choose an Art Glass design that suits your unique style.
- Pick a complementary or contrasting resin bead color.
- Choose from four elegant privacy glass options, or clear glass.
- Select colors to fill in the design.
  - Select hues from ProVia Standard and Trending color palettes.
  - Clear Fill and No Fill may also be chosen as well as custom colors.
  - Color placement and number of colors is pre-determined and will render as you choose them. **Picture this as a color-by-number system!**
- Experiment with various color combinations until you find the perfect match for your home.

## COLOR FILL OPTIONS

➤ Denotes Trending Color

Always refer to our color selector for accurate color representation.

Privacy glass is tempered for safety and this process may cause minuscule surface waves on the glass. Since the surface is not completely flat, the color fill may migrate toward lower points in the glass, resulting in varied saturation levels on the surface.

Clear Fill

### CLEAR FILL

Clear Fill imparts a degree of transparency to privacy glass. The Clear Fill option may be used on privacy glass sections of the design to allow homeowners a clearer, yet translucent view.

# PROFESSIONAL-CLASS DOOR FINISHES

**Applied with care, by professionals.** If you buy an entry system and finish it yourself, chances are it's the first door you've ever painted or stained. At ProVia®, stains are hand-applied by professional craftsmen, many who have been perfecting their work for years.

## 7-STEP STAIN FINISHING SYSTEM

1. **DURAFUSE™** - Proprietary P<sup>3</sup> Fusion Preparation Processes ensuring unprecedented finish durability
2. **HAND-APPLIED STAIN FINISH** formulated exclusively for Signet fiberglass doors
3. A layer of 2-part urethane, catalyst-hardened **CLEAR COAT WITH UV INHIBITORS** is applied
4. Clear coat is **OVEN-CURED** for lasting durability
5. The door is **HAND-SANDED**, preparing the surface for the second layer of clear coat
6. A second layer of 2-part urethane, catalyst-hardened **CLEAR COAT WITH UV INHIBITORS** is applied
7. The door is **OVEN-CURED** a second time, creating a long-lasting, durable finish

Emtek® Urban Modern hardware  
in Satin Nickel on an entry door  
painted Deep Waters

# PANOLOCK® PLUS MULTI-POINT LOCK

PanoLock® is the first and only multi-point lock that works with multiple hardware options, bringing security and performance to every entry and hinged patio door.

## A. Tapered bolt.

Unlike other locks that tend to catch, PanoLock's tapered bolts engage easily, even when the door is out of alignment.

## B. Adjustable roller strike.

Rollers lower operating force and allow the tapered bolt to gently snug the door panel against the weatherstrip.

## STRENGTH

PanoLock offers enhanced strength and security vs. standard locking systems.

## ENHANCED PERFORMANCE

Equipped with two tapered locks, PanoLock provides enhanced performance while reducing operation force.

## ULTIMATE SECURITY

PanoLock features roller strike plates equipped with extra anchor screws enhancing security.

## FLEXIBILITY

PanoLock can be used on both inswing and outswing applications.

## MULTIPLE HARDWARE OPTIONS

Thumb press, lever or knob - PanoLock Plus has the ability to be paired with select Schlage® and Emtek® hardware. Some of the options available are shown below.

Compatible with Smart Wi-Fi Deadbolts.

See entryLINK for all compatible hardware options.

## PANOLOCK PLUS MULTI-POINT LOCKING HARDWARE

1 Tapered Bolt

### SECURITY SIMPLIFIED

PanoLock allows you to enjoy the strength and security of a multi-point lock with the ease of operation of a standard handle set. A simple rotation of the key or thumb turn activates the **top and bottom tapered bolts**.

PanoLock Plus will not activate the middle latch bolt to use as a locking point. This middle latch bolt will work separately from the other two tapered bolts. It will be controlled entirely by the handleset.

Latch Bolt

PanoLock is available on standard height and 8' foot doors.

### FACEPLATE FINISHES

Brushed Clear Anodized

Victorian Bronze

2 Tapered Bolt

# TRILENNIUM® MULTI-POINT HARDWARE

Trilennium Multi-Point Locking System provides ultimate protection and peace of mind with the power of three full deadbolts and a solid lock design that even strengthens the door panel.

Trilennium hardware is an option for all standard size and 8' Signet® and Heritage™ fiberglass doors.

Also available on all 20-gauge Legacy™ steel doors. | NOT available on Steel L-Frames.

Trilennium hardware has a 10-Year warranty on materials and workmanship.

## TRILENNIUM MULTI-POINT LOCKING HARDWARE

The Trilennium Multi-Point locking system provides more than just security. It offers homeowners better door closure and sealing than a single point lock.

- Three 1" deadbolts latch with deadbolt throw.
- Deadbolts include anti-saw hardened steel pin.
- A solid I-beam runs the full length of the lock, and increases the strength and precision of the lock.
- Latch and deadbolt release with a single downward movement.

Top and bottom latch design allows for door misalignment and  $\frac{3}{16}$ " pull-in when deadbolted.

Angled shoulder on bolt engages with the adjustable roller strike

Emtek's unique Interconnect Device provides the security of a locking deadbolt while providing the means for a panic-proof exit. Turning the interior knob or lever simultaneously retracts both the deadbolt and passage latches.

# STORM DOORS

Every storm door is individually customized to the highest standards in the residential market for homeowners who appreciate impeccable, uncompromising quality. Please see the ProVia® Storm Door brochure or scan the QR code for all options.

Deluxe 397 Full View storm door in Clay with  
Sierra Mortise hardware in Aged Bronze

Smooth function is essential. That's why we include a **quality door closer** in every storm door package. Varies by model.

Our air release system features a continuous closing action without the delayed rebound action of previous generation closers.

You'll appreciate the finished look of our **color matched aluminum installation screw covers**.

**Durable, oven-baked polyester finishes** are backed by a Lifetime Warranty for lasting beauty and low maintenance.

**Corrosion-proof corner gussets** enhance the structural integrity of the door.

**Extruded aluminum frame** adds beauty to your door by virtue of the rounded cove molding along the glass edge of the extrusion.

All our storm doors are constructed with **tempered safety glass**.

Non-operable sashes are secured by our **color matched polycarbonate clips** or an **internal sash lock system**. Varies by model.

Each door features **quality hardware** that adds beauty and functionality to your new storm door. Varies by model.

Our **bottom expander with sweep** allows for a beautiful custom-fit to any entry. Varies by model.

# STORM DOOR DETAILS

The details are the small things that set ProVia® storm doors apart from the competition. A lot of small things add up to a big difference.

Spectrum 291SH storm door in Coal Black with Camden Mortise hardware

## **InVent™** **RETRACTABLE SCREEN**

InVent retractable balanced screens are housed inside the storm door frame, providing quick and easy ventilation without the need for removing and storing glass panels. With the screens retracted, you will enjoy a clear, unobstructed view from inside the home, while also displaying the elegance of your ProVia® entry door from the street.

## **GLASS PANEL OPTIONS**

Choose the full view, three-quarter view, or half-lite model that best fits your needs and complements your entry door style.

## **DURABLE FRAME CONSTRUCTION**

The 16-gauge sculptured frame reinforced with re-engineered corner gussets will stand the test of time and provide an additional layer of protection to your entry door. Your storm door is covered by our limited lifetime finish and glass breakage warranty.

## **CAMDEN** **HARDWARE (standard)**

The solid brass double-mortise hardware can be keyed to match your entry door, conveniently allowing you to use the same key for both doors. Its design includes a contemporary feel with straight lines while maintaining a timeless overall appearance. Available in six finishes to match your entry door hardware.

## **AESTHETIC OPTIONS**

The Spectrum storm door is available in 33 standard and trending paint colors, allowing you to match or complement your entry door. For a more personalized touch, you can even choose a custom color. Select from clear, tinted, privacy, or Art Glass, and explore a variety of hardware and finish options to showcase your unique style.

## WEBSITE

ProVia.com makes it easy to explore and compare numerous door, window, siding, stone or roofing options in a straightforward, interactive way. Configure a door or window, visualize products on your home, explore color palettes, and learn about different architectural styles—all from our innovative Design Center. Save your favorite products, colors, photos or ideas throughout the site into your own ProVia portfolio for reference any time and share them across your favorite social media platforms. →

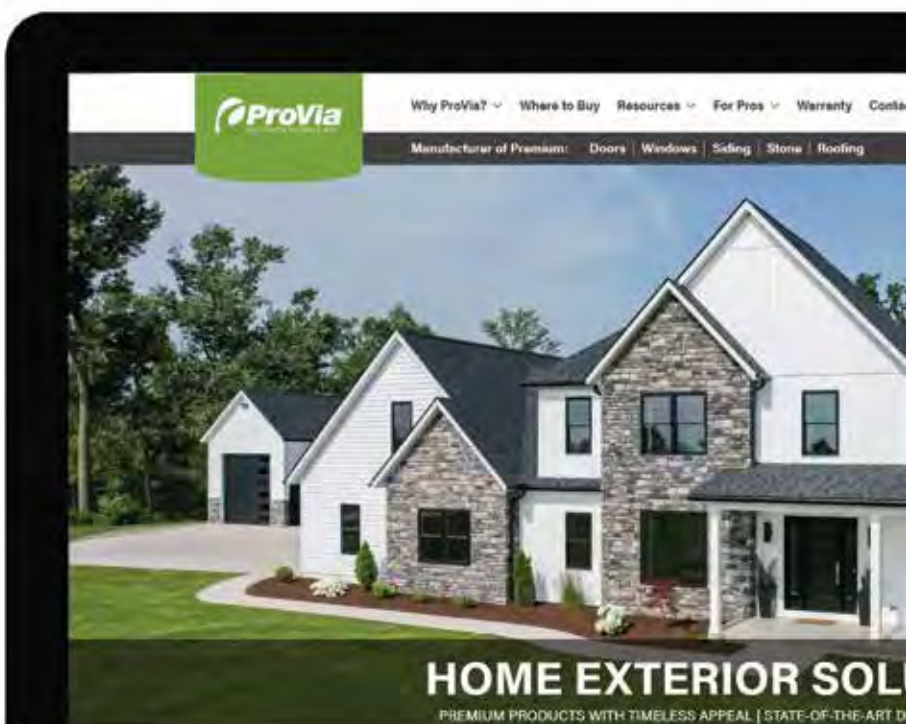

## VISUALIZER

Let your imagination run free with this exterior home design tool. Select from a library of existing home styles or upload a photo of your own home.

In a few easy steps, update your siding color, add stone or metal roofing, configure windows, or create a one-of-a-kind entry door system.

Looking for professionally inspired color and product palettes? Apply one of our pre-selected Designer Collections to create a curb-appealing look. ↓

## APP

Use the ProVia app to configure doors and windows or select from an extensive collection of vinyl siding, manufactured stone and metal roofing styles.
