INDUSTRY ASSOCIATION
ProVia is a proud member of the Window & Door Manufacturers Association, which promotes the standards of excellence in the residential window and door industry, and advances these standards among industry businesses with resources designed to provide greater value for their customers.

ACCREDITATION AND TESTING
ProVia’s products are voluntarily third party tested and rated in several energy performance categories through the National Fenestration Rating Council and meet or exceed standards governed by the American Architectural Manufacturers Association.

ENERGY STAR®
ProVia manufactures energy efficient products and exercises environmental stewardship by recycling, reducing pollution emissions and much more. In fact, our company has received repeated awards from the Environmental Protection Agency such as Partner of the Year - Sustained Excellence for outstanding efforts in energy savings.

WHY CHOOSE VINYL
YOUR VERSATILE WINDOW SOLUTION

EcoLite™ windows are constructed of SunShield® vinyl, made with a compound proven to perform better than alternative building materials. Vinyl ensures long-lasting color retention and low maintenance, plus the added confidence of a warranty against rotting, cracking, pitting, corroding and peeling. The vinyl is resistant to rot, insect and microbial damage, never requires painting and is easy to clean.

Low Maintenance
Vinyl windows are the low-maintenance choice for residential use.

Superior Weatherability
SunShield vinyl is uniquely formulated to withstand the harsh effects of weather, UV light and southern exposure.

Color Retention
Pharmaceutical-grade compounding and blending systems provide consistency, so you can rely on superior color and weatherability.

Designed to Perform
Industry partnerships and on-going research into new technologies ensure the vinyl compound exceeds industry standards, outperforms the competition, and works together to offer best-in-class technology.

Uncompromising Quality & Performance Testing
SunShield Vinyl meets or exceeds the standards for strength and color retention established by the American Architectural Manufacturers Association (AAMA).
STANDARD FEATURES

WHAT TO EXPECT WITH YOUR ECOLITE WINDOW

3¼” Frame Depth
White SunShield® Vinyl
¾” Low E with Argon Insulated Glass (IG) Unit Utilizing Intercept® Blackline Spacer
Accessory Grooves for more Interior and Exterior Trim Options
Dual, Barrier-Fin Weatherstripping
Roll Formed Aluminum Screen Frame with BetterVue® Fiberglass Mesh
Sill Extender
Square Sash Profile
Welded Frame and Sash Construction

20-YEAR LIMITED WARRANTY
CHOOSE YOUR WINDOW TYPE

DOUBLE HUNG & SINGLE HUNG

The double hung window is easy to open and clean. Both sash tilt inward, while the screen stays in place. Single hung windows are simple, made with an operating bottom sash and fixed top sash.

Features
- Quick Tilt® Balance System
- Exterior Glazing
- Extruded Sloped Sill
- Surface Mount Sweep Locks
- Dual Vent Locks (Double Hung)
- Integral Interlock at Meeting Rail
- Direct Set Glass (Single Hung)

SLIDER & SINGLE SLIDER

The slider window is easy to operate with slider pads and sturdy hardware allowing you to move one or both sash for venting. With a single slider, you choose which sash (left or right) can be operable, while the other will remain fixed.

Features
- Anchor Stops (3-Lite) & Pocket Sill
- Slider Pads Allow for Easy Operation or Removal
- Exterior Glazing
- Screen Retainer for Improved Functionality
- Direct Set Glass (Single Slider)
PICTURE

Picture windows are perfect for any room with a view. They help capture the beauty that surrounds your home, while complementing other windows. Pair several picture windows together to bring in the beauty of the outdoors.

**Features**
- Direct Set Glass
- Interior Glazing
- Sloped Sill

ARCHITECTURAL SHAPES

Architectural shapes will complement your home's unique style, while allowing more natural light to brighten up your space. Shaped windows look great above other styles of windows or they can easily accent a patio door.

**Features**
- Direct Set Glass
- Interior Glazing
- Single Hung with Circle Top and Single Hung with Full Eyebrow Also Available

HOPPER

The hopper window is perfect for a basement, bathroom or laundry room, giving you adequate ventilation and natural light. These windows help add curb appeal to your home, providing light in a space that may otherwise be very dark.

**Features**
- Durable Top Mounting Lock and Hinge
- Insulated Panel Option Available to Mull to a Hopper Window
  - Dryer Vent Not Included. Must be Installed Separately
  - Hopper Window and Insulated Panel Available in White Only
UNDERSTANDING YOUR GLASS PACKAGE

FEATURING INTERCEPT® BLACKLINE IG SPACER SYSTEM

The ecoLite window has been independently tested and certified. An Intercept Blackline glazing system improves thermal performance for less heat loss, warmer glass temperature and reduced interior condensation.

The Blackline spacer features a patented one-piece U-channel design offering superior flexibility with no load on sealant, virtually eliminating seal failure. The unique black coating creates an aesthetically pleasing sight line at the edge of the glass.

YOU COULD BE USING MUCH LESS ENERGY TO STAY WARMER IN THE WINTER, COOLER IN THE SUMMER AND SIMPLY MORE COMFORTABLE YEAR-ROUND.

ProVia® promotes up-front verification to ensure our products meet or exceed the EPA’s certification, and we guarantee your new window will provide the exact energy efficiency you expect.

What You Need to Know About the ENERGY STAR NFRC Label on Your Window

A U-Factor – Insulating value of the entire window system. Lower numbers reflect better insulating value. Values generally range from 0.25 to 1.25.

B Solar Heat Gain Coefficient (SHGC) – Amount of heat from the sun passing through the glass. Lower numbers indicate glass is keeping heat from entering your home. SHGC is measured on a scale from 0 to 1.

C Visible Transmittance – Amount of visible light passing through the glass. Higher numbers indicate glass is allowing more light to enter your home. Visible transmittance is measured on a scale from 0 to 1.

D Air Infiltration – How much air is entering or escaping through the window. Lower numbers show air is kept from entering or escaping.

E Condensation Resistance – Amount of moisture it takes for glass to condensate when exposed to extreme interior and exterior temperature changes. Higher numbers indicate better resistance to condensation. Condensation resistance is scored on a scale of 0 to 100.
The style of grids you choose can make a big impact on your home’s appearance. Grids look great on the front side of a house or in accent windows throughout the home. You can choose from several grid patterns including variations of Colonial, Cottage and Prairie styles.

**Sample Grid Patterns**
The grid patterns below are shown in double hung and picture windows, but grids are available for all window types.

**Internal Grid Types**
Internal grids are placed between two panes of glass making cleaning your windows a breeze.

Contoured  
Flat

* Grid patterns only available with contoured grids. See price list for all grid options.
ADD EXTRA PRIVACY AND TINT TO YOUR WINDOW

Privacy Options
Choose from two different types of privacy glass if you need light to filter in, yet want to maintain privacy. These glass styles look great in bathrooms or any room where extra privacy is important. Regardless of where it is used, privacy glass reduces the likelihood of needing extra window coverings.

Tint Options
Our tinted glass can help reduce UV transmittance, solar heat gain and glare. Tinted glass options can give a room a whole new look, providing its own unique set of benefits. Be sure to choose the right one for you.

Actual privacy levels will vary depending on your distance from the glass and also the amount of light in the room in comparison to the light outside your home. For extra privacy, choose two panes of privacy glass, rather than just one.

Gray Tint
- Excellent glare control
- Exceptional protection against interior fabric and color fading
- Ultraviolet light protection

Bronze Tint
- High visible light transmittance
- Warm glow to interior décors
- Complements brick and stone
- Ultraviolet light protection

Green Tint
- Subdues interior brightness
- High visible light transmittance
FINISH YOUR WINDOW WITH MASTERFIT™ TRIM

Add the finishing touch to the interior of your windows with the MasterFit trim system, complete with assembled frame extensions that interlock with mortise and tenon casing. Our MasterFit trim system guarantees a precise, custom-fit and long-lasting factory applied finish.

Profile Options

CREATE YOUR DREAM HOME
WITH PROVIA’S EXTERIOR HOME DESIGN TOOLS

Find inspiration for the exterior of your home. Download ProVia’s free app for iPad or try the online Visualizer at provia.com/visualizer.

PROVIA VISUALIZER
Use ProVia’s Visualizer to change the colors and styles of your home’s doors, windows, siding, stone and roofing.

Let your imagination run free with this exterior home design tool. Select from a library of existing home styles, choosing one to match yours, or upload a photo of your own home.

In a few easy steps, update your siding color, add manufactured stone or a metal roof, give the windows a fresh look or personalize a new entry door.

Not sure where to start? Apply one of our pre-selected Designer Collections, then further customize the selections to reflect your own personal style.

PROVIA APP
Use the ProVia app to configure doors and windows or select from an extensive collection of vinyl siding and manufactured stone styles.

FEATURES
Door and Window Configurator
Vinyl Siding Profiles, Colors and Accessory Accents
Manufactured Stone Styles, Color Palettes and Grout Options
