## A. ORIGINAL OWNER'S LIFETIME LIMITED WARRANTY

ProVia LLC, hereinafter "ProVia", warrants exclusively to the original purchaser of our Metal Roofing Panels and/or Trims and Flashings (the "Products") for as long as the original purchaser is living and is the owner of the property to which our Products were applied, subject to the limitations and terms and conditions set forth below, that the ProVia metal roofing panels and/or trims and flashings and that the Products will not have the following manufacturing defects: the Products will not burn or support combustion; will not exhibit rusting, cracking, flaking, peeling (loss of adhesion) or loss of impact resistance with age; will not detach from the structure or deform in wind velocities up to 180 miles per hour (as defined by the National Weather Service) when installed in accordance with ProVia's recommended installation instructions; and will resist perforation and leaks due to hail damage. For the purpose of this limited warranty, hail damage is defined as penetration of hailstones completely through the panel and/or cracks or splits of the panel's steel substrate around the point of impact, as measured under UL 2218 Class 4.

## LIFETIME LIMITED COATING WARRANTY

Additionally, ProVia warrants, exclusively to the original purchaser, subject to the limitations and terms and conditions set forth below, that for as long as the original purchaser is living and is the owner of the property to which our Products were applied, that the Product's GalvaTec™ coating will not exhibit cracking, flaking or peeling (loss of adhesion) under conditions of ordinary weathering. This does not include slight crazing of the Product or minute fractures at tightly formed bends and embossed areas, which may occur during proper fabrication of the Product.

The Company, at its sole discretion, will determine whether the Coating is defective in accordance with the following standards:

1. Within 40 years from the date of installation of the panels, the base color of the product will not fade or change color in excess of five (5) Hunter delta-E units as a result of natural weathering or ultraviolet exposure as measured using ASTM D2244 procedures (comparing an unexposed panel to an exposed panel after the removal of soils and chalk); or
2. Within 40 years from the date of installation of the panels, the print coat will not chalk in excess of a number eight (8) rating when measured per ASTM D4214, Method A.

Should any of the manufacturing defects described above occur during the lifetime of the original purchaser while he or she is the owner of the property to which the ProVia metal roofing panels and/or trims and flashing product(s) were applied, and provided that the terms and conditions of this warranty are met and the claim is properly reported as stated below, ProVia will, at its option, repair or replace, the metal roofing panels and/or trims and flashings determined to be defective, in accordance with the terms and conditions of this warranty. In lieu of repair or replacement, ProVia reserves the right in its sole discretion to refund the actual purchase price of the products determined to be defective. Labor costs are not included in this Limited Warranty. The owner will be responsible for all labor costs associated with the removal, replacement, installation, reinstallation or repair of any Product. ProVia's total liability, for a claim under this warranty shall be limited to, and in no event, exceed the total purchase price of the installed product (not including labor costs). The foregoing is ProVia's sole liability and the owner's sole remedy for a breach of the Limited Warranty. Repaired or replaced Products are warranted only on the same terms and for the remainder of the applicable time period.
