PROVIA BUILDS DOORS
THE PROFESSIONAL WAY

ProVia has developed a competitive position by catering to a niche within the door market that demands a high degree of customization coupled with outstanding quality. Our company defines the products that meet this demand as “professional-class.” We have found success by adhering to a set of core values that guide us as we develop rewarding, long-term relationships with our employees, customers and homeowners.

OUR MISSION:
TO SERVE BY CARING FOR
DETAILS
IN WAYS OTHERS WON’T

IT HAS LED US TO
EXACTING STANDARDS

If you ask around, you’ll find attention to detail is what our customers have come to appreciate and expect from the ProVia brand. Our company is family-owned and faith-based with an intense focus on producing Professional-Class products. ProVia feels so strongly about the performance and workmanship of our entry system—built by skilled craftspeople with state-of-the-art manufacturing processes—that it’s backed with a Lifetime Limited Warranty. The warranty is even transferable to one subsequent owner. You can visit our website provia.com for details. We’re building your doors and our company to last a lifetime - that’s THE PROFESSIONAL WAY.

INDUSTRY ASSOCIATION

ProVia is a proud member of the Window and Door Manufacturers Association (WDMA) and American Architectural Manufacturers Association (AAMA) - leading voices in our industry. As such, we support advocacy in building code and ASTM standard arenas, quality materials, installation and design in Doors and Windows.
WHAT MAKES PROVIA® PROFESSIONAL-CLASS?

ENTRY SYSTEMS TAILORED FOR YOUR HOME

Today’s off-the-rack consumer-grade doors, which are cut down to fit your need, often fall short of expectations and performance. This shortcoming is precisely the driving force behind why every ProVia door is built to your home’s exact measurements – for a better fit and a more secure and energy efficient door. The materials and workmanship that go into custom-made doors are of exceptional quality and durability, and far exceed what is available as ready-made.

HIGHEST STANDARDS

ProVia is committed to making doors individually customized for homeowners to the highest standards of durability, security and energy efficiency in the residential market. A clear difference so defining that it has established a new category of professional-class doors, a better alternative to consumer-grade doors.

SECURITY | We focus on the strength and security of every door so you can focus on what’s really important - your life.

DURABILITY | Made with the finest materials and backed by our Lifetime Limited Transferable Warranty, our durability can’t be beat.

BEAUTY | A beautiful ProVia entry system will always greet your guests with classic elegance and style.

ENERGY EFFICIENCY | Engineered to keep the elements at bay and your home comfortable all year long.

Find and customize a configuration that best fits the opening of your home.

**DOOR STYLE**
Your home should reflect your personality. That’s why you’ll find a wide selection of styles to suit your taste.
GLASS

FINISH
Our stain and glazed finishes are hand-applied by professional craftsmen, then oven-cured for maximum beauty. Paint finishes are factory applied for a long-lasting, durable finish.

HARDWARE
Hardware from Trillium®, Hoppe®, Emtek®, Brinks® and Schlage® provide some of the most stylish, durable hardware available today.

ACCESSORIES
Sometimes the smallest things make the biggest difference. Our accessories add a lot to the look of your entry system.

ADD A STORM DOOR
Protect, enhance and ventilate your entryway with a storm door, while adding an extra measure of security.
The components are the small things that set our doors apart from the competition. A lot of small things add up to a big difference.

Your home is unique and deserves to have custom glass options like our ComforTech™ Warm Edge Glazing Systems which include decorative glass, Inspirations™ Art glass, internal blinds and internal and external grids in many grid patterns and colors.

Our 2½" casing conveniently covers paint lines providing a professional installation. Also available in 3½". Choose from Cherry, Mahogany, Oak and Poplar. Flat Fir and Poplar trim are available in paint, stain and glazed finishes.

High-performance, heat-resistant window trim is warranted not to warp, crack or pull away from the door, even in sunny or higher temperature applications. Plugless window trim is standard on Embarq® and Signet® and optional for Heritage™† and Legacy™†.

† See price list for available styles.

Impact Shield doors have aluminum window trim.
We include our 20-gauge security plate for extra strength and to help prevent kick-ins.

The Z-AC™ threshold has an auto-adjusting riser and built-in sealing system that redefines how your door can perform for you. Standard on Signet and Legacy.

- Automatically adjusts to your entry door’s changing needs over time, eliminating service calls
- Delivers non-stop protection against air and water infiltration
- Saves money and provides an improved door experience

The ZAI™ threshold has a manually-adjustable riser with complementary screw cover caps. Standard on Heritage.

Three heavy-duty ball bearing hinges come standard with every entry system.

Additional 4th hinge option for greater durability. (only available with FrameSaver®)

Impact Shield doors have heavy-duty stainless steel hinges.

We include a solid brass fully adjustable strike plate of our own exclusive design. This unique 2-piece construction makes our doors easier to custom fit.

The energy efficient weatherstripping runs along the top and sides of the door and interlocks with the CornerShield™ for the most efficient seal you’ll find for keeping moisture, wind and dirt out of your home.

We include our 20-gauge security plate for extra strength and to help prevent kick-ins.

The dust box in the deadbolt strike provides a barrier to air infiltration while providing a nice appearance that most other door manufacturers don’t provide.

Bulb and dual blade sweep virtually eliminates drafts, keeping your home comfortable.
Our finger-jointed composite bottom never absorbs water, warps, cracks or rots, and paints and finishes just like wood. Plus, FrameSaver is backed by the industry’s only fully-transferable lifetime limited warranty for ultimate peace of mind.
**FusionFrame™**

FusionFrame: A one-of-a-kind alternative to composite or wood jambs, this Endura® component utilizes the strength of an LVL interior, the rot-proof performance of a FrameSaver® bottom, and the durability of a composite frame exterior. Offering a lifetime jamb warranty*.

**PREFINISHED, MAINTENANCE-FREE**
Available as a textured or smooth frame, providing you with the benefit of a prefinished, maintenance-free system, along with the beauty of a stain or paint finish that matches your entry door.

**FrameSaver wood frame and brickmold** with finger-jointed composite bottom prevents water absorption and carries a Lifetime Limited Warranty when used with **PVC vinyl coated aluminum frame cladding** outside. Also available with smooth cladding.

**Steel L-Frame**

Available on select Signet and Legacy door styles

- Aluminum door stop provides greater security and is more durable than wood.
- Energy efficient weatherstripping.
- 18-gauge steel L-frame with a 12-gauge hinge plate welded on for extra strength and security.

*(NOT tested for Certified Wind Load or Impact Shield regions)*

Not available for transoms or outswing doors. See Price List for complete limitations and restrictions

*Finish warranty will match the finish warranty of door series

* No storm door applied. See full warranty for limitations

*Not all Steel L-Frames are ENERGY STAR® certified. Visit provia.com website for manufacturer’s certification statement.
We set out on a journey to develop a new door and it expanded into a complete philosophy of creating unrivaled efficiency in home building products. We call this new way of thinking “enVision,” and are proud to introduce its first creation: Embarq – the doorway to innovation and efficiency.

**15-YEAR FINISH WARRANTY***
See pgs. 102-109 for paint and stain finishes

ALL Embarq Fiberglass Entry Systems are ENERGY STAR® Certified.

---

*Warranty time period may be limited in extreme applications. See warranty for details.
Stiles and rails are dovetailed and glued at each corner creating a structurally solid, integrated frame.

We engineered a channel in the side rails and header of the door to allow for a larger energy efficient polyurethane core. Our computer-controlled process fills every crevice with the foam barrier material resulting in a level of energy efficiency unparalleled in the industry.

We started from the inside out to maximize energy savings and reduce thermal loss, resulting in the most energy efficient door in the U.S. market. In fact, this door offers at least 4-times more insulating value than a typical wood door giving an unprecedented U-Factor of 0.09 - the lowest recorded heat conduction measurement for entry doors in the U.S.

The authentic wood look is made possible by using cutting-edge NVD (Nickel Vapor Deposition) technology by MasterGrain®.

Scientifically formulated compounds provide superior resistance to denting, splitting, cracking and warping.

Z-AC Threshold with auto-adjusting riser. Standard with anodized bronze finish.

To enhance efficiency and accommodate more insulation, we thickened the door and sidelites from the standard 1¾" to 2¼" which is 43% thicker than standard exterior doors. We also engineered a dual perimeter seal for the entry door to create a superior barrier against drafts and energy leaks.

Door edge is constructed with cherry, mahogany or oak wood matching the selected series.

The revolutionary DuraFuse™ Finishing System featuring P3 Fusion yields unprecedented finish durability.

We custom-designed a sweep to accommodate the Embarq door’s added thickness. This creates a new breed of thermal barrier to keep out unwanted elements and uncomfortable temperatures.
QUAD GLASS SYSTEM

Our enVision™ innovation and technology has created a revolutionary new design utilizing a Quad Glass System. This glass system is only available for Embarq fiberglass doors and sidelites and utilizes the most energy efficient glass package available on the market today. This high performance glass system provides an optimal energy efficiency rating.

A Low-E Glass Surface
B Krypton Filled Air Space
C Decorative Glass Core
D Super Spacer®
E Tri-Seal Spacer
F We re-engineered our ComforTech Warm Edge Glazing System to accommodate for the extra panes of glass in this highly efficient package.

EMBARQ GLASS PACKAGES

ComforTech™ QLK (Krypton Gas Filled)

R-Value of 10

ComforTech™ QLA (Argon Gas Filled)

R-Value of 9

R-Value reflects properties of the glass only.
Embarq glass package center of glass calculations.

SKINS AND FINISHES

Embarq doors available in Cherry, Mahogany, Oak and Knotty Alder and feature all the same stain and paint finishes as our Signet® doors shown on pgs. 102-109.
HARDWARE

Embarq doors are only available with Emtek® hardware. See pg. 116 for finish availability.

EXTERIOR STYLES

INTERIOR STYLES (Any interior handle can be used with any exterior handle)

[Images of various interior door handles]

Embarq doors are also available with Colonial Door Knocker, Peepsite, Kick Plate (on page 127), Faux Speakeasy, Hinge Straps and Clavos (on page 128).

Satin Nickel caming with Bronze hardware
SIGNET® FIBERGLASS

SIGNET SKIN OPTIONS

MAHOGANY  CHERRY  OAK  KNOTTY ALDER  FIR  SMOOTH

Signet Fiberglass doors are available in Cherry, Mahogany, Oak, Fir, Knotty Alder and Smooth Series. Structurally, the Signet door is far superior to traditional fiberglass doors with robust hardwood stiles and rails dovetailed at each corner. All Signet Fiberglass doors exhibit our exclusive DuraFuse™ Finishing System featuring P3 Fusion, allowing us to offer an industry-best 10-year* finish warranty.

Most Signet Fiberglass Entry Systems are ENERGY STAR® Certified.

CUSTOMIZE BOTH SIDES
You can customize your entry by ordering a different series, style and finish on each side of your door.

CUSTOM WIDTHS & HEIGHTS
Need a little more height or a little less width? We offer customized door and sidelite widths and heights in 1/8” increments.

15-YEAR FINISH WARRANTY*
See pgs. 102-109 for paint and stain finishes

Signet Fiberglass doors without glass are available as an Impact Shield Product.

Patent - USD617005, USD621062, USD621063, USD625837, USD625024

* Warranty time period may be limited in extreme applications. See warranty for details.

SIDELITES

Plugless Trim not available on Signet Fir 460.

Entry System U-Factor: As low as .16 (Tested to NFRC specifications for a 6 panel door with wood frame).

Note: All Signet doors are shipped finished.

* Warranty time period may be limited in extreme applications. See warranty for details.
† Patents - USD617005, USD621062, USD621063, USD625837, USD625024
Stiles and rails are dovetailed and glued at each corner creating a structurally solid, integrated frame.

The 2⅛” finger-jointed 3-ply hardwood hinge stile provides superior structural integrity.

ProVia doors are foam filled by a computer driven process that ensures the optimal foam fill for maximum efficiency and strength.

The authentic wood look is made possible by using cutting-edge NVD (Nickel Vapor Deposition) technology by MasterGrain™.

Scientifically formulated compounds provide superior resistance to denting, splitting, cracking and warping.

High-definition panel profile creates excellent shadow lines and distinct panel designs.

Plugless Window Trim (Patent Pending) is standard on Signet (N/A Fir Series).

The inside door frame is hand-stained or painted to match your door providing you with a consistent visual appearance. (Signet doors are also available with a Steel L-frame.)

Door edge is constructed with cherry, mahogany, oak or fir wood matching the selected series.

The 4⅛” finger-jointed 4-ply hardwood strike stile provides a solid mounting surface for decorative hardware and superior structural integrity.

Z-AC Threshold with auto-adjusting riser. Standard with anodized bronze finish.

The revolutionary DuraFuse™ Finishing System featuring P³ Fusion yields unprecedented finish durability.

A high-performance, composite material is utilized on all Signet fiberglass bottom rails, giving excellent rot-resistance.

Signet 23
HERITAGE™ FIBERGLASS

HERITAGE SKIN OPTIONS

OAK  SMOOTH  HEMLOCK

Heritage Fiberglass doors feature enhanced woodgrain texture, improved definition embossing and a hardwood edge to prevent warping.

Most Heritage Fiberglass Entry Systems are ENERGY STAR® Certified.

CUSTOM HEIGHTS
Need a little more or a little less height? We offer customized door and sidelite heights in 1/8” increments.

10-YEAR FINISH WARRANTY*
See pgs. 102-109 for paint and stain finishes

HERITAGE FIBERGLASS DOOR STYLES
See pages 36-90 for glass availability.

SIDELITES

Oak Grain  Hemlock Grain  Smooth Fiberglass

All Heritage Fiberglass doors without glass are available as an Impact Shield Product.

Entry System U-Factor: As low as .14
(Tested to NFRC specifications for a 6 panel door with wood frame).
* Warranty time period may be limited in extreme applications. See warranty for details.
1\(\frac{3}{8}\)" Finger-jointed, 2-ply solid oak laminated stiles for both hinge and strike sides are proven to provide increased rigidity and structural integrity.

Polyurethane core reduces energy loss.

Improved definition panel profile creates excellent shadow lines and distinct panel designs.

Variable-depth woodgrain texture with hand-applied stain imitates a wood door appearance.

Square-edge design offers an attractive wood door appearance.

Lock area is reinforced to provide a solid mounting surface for decorative hardware.

A high-performance, composite material is utilized on all Heritage fiberglass bottom rails, giving excellent rot-resistance.

Specially engineered fiberglass door facings will not dent and resist splitting, cracking and warping.

Plugless Window Trim is optional on Heritage Fiberglass (see Price List for available styles)

ZAI™ threshold has a manually-adjustable riser with complementary screw cover caps. Standard with aluminum mill finish.
LEGACY™ STEEL

Legacy Steel features add up to a professional-class product. Whether you select Legacy Woodgrain Textured Steel or Smooth Steel, our entry systems will provide an elegant, durable and energy efficient addition to any home.

10-YEAR FINISH WARRANTY*
See pgs. 102-109 for paint and stain finishes

Most Legacy Steel Entry Systems are ENERGY STAR® Certified.

Legacy Steel Doors with full-lite or half-lite decorative glass with Comfortech™ glazing will include a pane of Low-E glass in order to be ENERGY STAR certified. This includes the following styles: 150, 230, 239, 240, 350, 430, 437, 439 and 460. Since Low-E glass has a slight color tint, it is recommended that sidelites and transoms are ordered with optional Low-E pane to match the door.

CUSTOMIZE BOTH SIDES
You can customize your entry by ordering a different series, style and finish on each side of your door.

CUSTOM WIDTHS & HEIGHTS
Need a little more height or a little less width? We offer customized door and sidelite widths and heights in 1/8” increments.

† Patent - USD621062

26
Special adhesives/thermal barrier reduce heat and cold transfer, while our exclusive tab and slot system of mechanical interlocks gives the door exceptional structural strength.

Composite top endcaps increase rigidity and energy efficiency.

ProVia doors are foam filled by a computer driven process that ensures the optimal foam fill for maximum energy efficiency and strength.

The edges and face skin of our steel doors are one continuous piece of steel for strength and durability.

Plugless Window Trim is optional on Legacy Steel (see Price List for available styles).

To reinforce the lock and deadbolt area, we add a rigid composite lock block to all of our steel doors.

Our 20-gauge steel doors give you 49% more galvannealed steel than a standard 24-gauge door.

Composite bottom endcaps increase rigidity and energy efficiency.
8' DOORS

8' Doors provide a majestic first impression. Choose from many available glass and door styles (shown on pgs. 36-90). Trilennium® multi-point hardware offers homeowners better door closure and sealing than a single point lock.

Trilennium or Hoppe multi-point hardware is required on all 8' fiberglass doors. See pages 112-114 for more information on Trilennium and Hoppe hardware.

† Patent - USD621062
FRENCH DOORS

French doors make an elegant statement like nothing else. Express your personality by creating a simple yet striking entry. Make it as ornate and beautiful as you like.
FRENCH DOOR DETAILS

- All door styles are available as a French Door
- Available with FrameSaver® or Steel L-Frame
- Hinged on each end with door knobs in the center
- Available with either left or right active door (main entryway)
- Center astragal is attached to the inactive door and includes top and bottom slide bolts (used to open inactive door)
- Available as inswing or outswing
- Header security plate standard on Frame
- Hardware Installation: locksets, deadbolts and kickplates will be installed on active and inactive doors, all other hardware on active door only
- Also available with Trilennium hardware

ASTRAGAL DETAILS  The French Door Astragal provides functionality and security

- Astragal secures inactive door at top and bottom of your french door system
- Lockable throw bolts improve security
- Astragal bolt penetrates threshold allowing boot to seal, creating a better barrier against the elements
- Astragal is stained to match Signet Fiberglass stained doors.

STYLES/CONFIGURATIONS  All door styles are available as a French Door.

Custom size clear glass transom  pg 90

UNEQUAL FRENCH DOORS

You now have the ability to utilize the larger entry door day-to-day, yet have the option to open the smaller, inactive door to gain full access.

Available in smooth steel only. Internal blind sizes are limited. See Price List for details.
INSCRIBED DOORS

Elegant and refined to complement an entrance way. Each design is engraved into a Signet® Cherry fiberglass panel showcasing true richness of color and sophistication. Also available with three stainless steel inlay models.

INSCRIBED STYLES  (Only available in flush Signet cherry doors.)

Reverse dual seal technology
COMFORTECH™ ADVANTAGES

The NO-Metal Advantage
"Thermal efficiency through no presence of conductive metals" is the Super Spacer hallmark.

Mylar 10-Layer Vapor Barrier
The Super Spacer thermoset foam matrix is exceptional. Moisture is kept out, gas is kept in and conductivity is virtually nonexistent.

Withstands Normal Bowing
The design of our Warm Edge Glazing System stands up to the bending and bowing that is natural in any glass unit.

Enhanced Noise Reduction
Our all-foam formula's excellent sound-dampening properties reduce outside noise, even in industrial environments.

Understanding the Acronyms
T - Triple Glazed
D - Double Glazed
L - Low E
C - Clear
A - Argon
K - Krypton
E - Elevation (no gas)
UV - Ultraviolet
HC - Hard Coat

Some Elevation Series (TLE-UV, TLE, DLE-UV and DLE) glass offerings require a hardcoat option to be ENERGY STAR® compliant.
DECORATIVE GLASS

Highly-skilled craftsmen assemble hand-beveled glass accented with a variety of unique glass options by precisely cutting, mitering and soldering each component into artistically designed patterns.

Decorative glass purposefully seeks visual character through aesthetic imperfections, while maintaining structural stability. These “imperfections” mimic the hand-made sheet glass of centuries past. They come in the form of textural waves and striations, random seeds (air bubbles) and a variety of other natural effects.

Decorative glass achieves its personality through these apparent flaws and no two sheets are ever identical. Each glass panel is hand-made and reflects minor differences from piece to piece. This is characteristic of any hand-made product and adds to the charm and beauty of the product.

We continually inspect for consistency. The patterns can vary in size and particular shapes, but pose no danger of spontaneous breakage or structural instability. Any patterns that are severely out of character with the glass are not accepted. Our goal is to provide the finest quality glass panels.

ALL* DECORATIVE GLASS:

1. ProVia Exclusive
These decorative glass designs are only found on ProVia doors. This gives your entryway a unique style that can’t be found anywhere else.

2. Includes our ComforTech™ Warm Edge Glazing System
Measurably improve thermal performance with our ComforTech Warm Edge Glazing System. You’ll enjoy better energy efficiency and a warmer glass edge.

3. Impact Shield available
Impact Shield Products are designed to protect your family and home against the harshest storms and help deter burglaries. Impact Shield products feature laminated glass and can withstand repeated blows from wind-borne debris or unwanted intruders. See page 160 for style availability.

4. Covered by a Lifetime Limited Warranty
Warranty includes glass breakage and seal failure.

*Does NOT include Dialogue Layered Glass™
Each piece of glass is meticulously inspected for consistency.
MIRAGE DECORATIVE GLASS

Mirage offers effortless style, with narrow/thin reed glass all over, complemented by clear beveled glass. Zinc caming tops it off, making it a simple, modern and attractive design.

INSPIRATIONS™
ART GLASS

A ProVia exclusive, Inspirations Art Glass allows you to do just what the name suggests—let your doors and windows reflect the inspiration of your imagination with your choice of design and color.

**DESIGNS**
The process begins with conceptual design. Our twelve beautiful Inspirations Art Glass styles originated from the imagination of our in-house designers.

**RESIN BEAD**
The design pattern is created on our computer software, and sent to a CNC machine which applies a resin bead to the surface of the glass in one of our four stylish colors.

**COLOR FILL**
The color fill truly brings the glass to life. Five distinct color palettes are offered empowering you to perfectly reflect the personality of you and your home. Our craftsmen hand-apply this color fill to your glass.

**OUR GUARANTEE**
The resin bead and color fill are backed by our Lifetime Limited Warranty, and will not fade, blister or peel away from the glass.
Ask to see our Inspirations Art Glass brochure for available styles and color palettes, or use our ProVia app to create custom color palettes and design your dream door.

**STAIN FINISHES**

Applied with care, by professionals. If you buy an entry system and finish it yourself, chances are it’s the first door you’ve ever painted or stained. At ProVia®, stains are hand-applied by professional craftsmen, many who have been perfecting their work for years.
EMBARQ® & SIGNET®

EMBARQ AND SIGNET
7-STEP STAIN FINISHING SYSTEM

1. DURAFUSE™ - Proprietary P3 Fusion Preparation
Processes ensuring unprecedented finish durability

2. HAND-APPLIED STAIN FINISH formulated exclusively
for Signet fiberglass doors

3. A layer of 2-part urethane, catalyst-hardened
CLEAR COAT WITH UV INHIBITORS is applied

4. Clear coat is OVEN-CURED for lasting durability

5. The door is HAND-SANDED, preparing the surface for
the second layer of clear coat

6. A second layer of 2-part urethane, catalyst-hardened
CLEAR COAT WITH UV INHIBITORS is applied

7. The door is OVEN-CURED a second time, creating a
long-lasting, durable finish

15-YEAR FINISH WARRANTY*
Embarq and Signet Fiberglass

*Warranty time period may be limited in extreme exposure
applications. See warranty for details.

Always refer to our color selector for accurate color representation.
EMBARQ® & SIGNET®
GLAZED FINISHES

EMBARQ AND SIGNET

† Limited Colors. Matching cladding and caulking not available.
Color trends are always changing. ProVia’s color palette has been completely refreshed to give you even more paint color options for your entry doors, vinyl windows and patio doors. All of our traditional hues have been categorized and new “trending” colors have been added, creating three very distinct color palettes to suite your taste: Natural Instincts, Freshly Picked and Stately Shades.
CUSTOM PAINT COLORS

Still searching for the perfect color?
Custom color-matching is also available on our Entry Doors, Aeris Windows and Patio Doors, Endure Windows and Patio Doors (exterior only).

Custom stains also available on Signet Fiberglass and Aeris Windows and Patio Doors.
Additional lead-time required.
HARDWARE

We offer a variety of designs and finishes, from angular to flowing, classic to contemporary, all with their own security features, unique functionality, and advanced technology. You’ll be sure to find the features and design that will ensure your front door is the perfect complement to your new entryway.
The Trilennium Multi-Point locking system provides more than just security. It offers homeowners better door closure and sealing than a single point lock.

- Three 1” deadbolts latch with deadbolt throw
- Deadbolts include anti-saw hardened steel pin.
- A solid I-beam runs the full length of the lock, and increases the strength and precision of the lock.
- Latch and deadbolt release with a single downward movement.

Top and bottom latch design allows for door misalignment and 3/16” pull-in when deadbolted.

Angled shoulder on Bolt engaged Roller Strike.
Trilennium hardware is required on all 8’ Signet® and Heritage™ fiberglass doors. Optional on all other fiberglass doors.

Also available on all 20-gauge Legacy steel doors.

NOT available on Steel L-Frames

Trilennium hardware has a 10-Year warranty on materials and workmanship.

Trilennium hardware is NOT available on French Doors in Certified Wind Load or Impact Shield regions.

**TRILENNIUM HARDWARE IS AVAILABLE IN THESE FINISHES**

- Lifetime Bright Brass
- Lifetime Satin Nickel
- Lifetime Flat Bronze*
- Lifetime Black

* Flat Bronze does not coordinate with Black/Bronze accessories.

Lifetime finish warranty time period is limited to five years if product is installed in an Impact Shield region.
Hoppe Multi-Point hardware offers the additional security of four points of latching when the door is locked, and the easy operation of one point of latching when the door is unlocked.

- Stainless Steel and other non-corrosive components.
- Anti-Back Drive prevents locking points from disengaging from the outside for added security.
- Latch Blocker on inactive systems will not allow multipoint activation until inactive system is activated.
- Lock Out Feature on interior system allows for multipoint activation from the exterior of the door by lifting handle.
- Backplate and cylinder housing are forged into one piece for improved appearance and easier installation.
- Simultaneous retraction feature enables all locking points to be retracted by pushing down on the inside handle.

Hoppe Multi-Point hardware is available in these finishes:

- Lifetime Bright Brass
- Lifetime Satin Nickel

(Hoppe hardware is NOT tested for Certified Wind Load or Impact Shield regions)

*Not available on patio units.
EXTERIOR STYLES

- New Orleans Contemporary Arch
- New Orleans Classic Arch

MULTI-POINT LOCKING

(Lock body faceplate is only available in stainless steel)

- Three Point Deadbolt lock is engaged by lifting handle upward
- Handleset latch

TO LOCK:

Step 1: Turn thumbturn ¼ turn counterclockwise

Step 2: Lift handle upward

INTERIOR STYLES

- New Orleans Contemporary Arch
- New Orleans Classic Arch
EMTEK’s Mortise hardware features the added advantages and options that come with push-button controls.

- Push-button passage controls
  For more passage and locking options
- Heavy-duty Forged Brass Construction - For long lasting beauty
- Solid Brass Nose Bolts on Latches - For dependable use
- Lifetime Mechanical Warranty
  Our guarantee of value
- Lifetime Anti-tarnish Finish
  Warranty - Beauty for life

Push button passage controls provide added security and peace of mind. When the upper button is pressed in, the mortise lock is only accessible by using a key.

To activate the Passage Function, push in the lower button. This will allow you to access the thumb latch without a key.

Note: As long as the Passage Function is NOT engaged, the door will lock automatically when latched, and will not allow entry without a key.

EMTEK MORTISE HARDWARE IS AVAILABLE IN THESE FINISHES

- Lifetime Bright Brass
- Lifetime Satin Nickel
- Lifetime Oil Rubbed Bronze
- Lifetime Black

(EMTEK Mortise hardware is NOT tested for Certified Wind Load or Impact Shield regions)

(EMTEK Mortise hardware is only available for Signet Fiberglass and 20-gauge steel doors)

SCHLAGE SENSE™
SMART DEADBOLT
The Schlage Sense Smart Deadbolt makes daily life easier and more convenient. Enter an access code on the touchscreen to unlock the door instead of searching your pockets for keys. Pairing the lock with your smartphone over Bluetooth® is as easy as pairing your phone with your car, and the free Schlage Sense app makes setting up and using the lock as simple as checking email. Share access with trusted friends and family with just a few taps – no more keeping track of spare keys.
**Hardware**

The Schlage Sense Wi-Fi Adapter allows your smartphone to lock/unlock your door from anywhere by creating a secure connection between your Schlage Sense Smart Deadbolt and the Wi-Fi network in your home. Set up is quick and easy, just use the free Schlage Sense app*, compatible with both iOS and Android smartphones.

*Wi-Fi Adapter is not compatible with Apple HomeKit.

**HOME AUTOMATION INTEGRATIONS**

Lock and unlock your door from anywhere using compatible home automation systems.

**ELECTRONIC DEADBOLT**

Electronic locksets and deadbolts utilize Schlage’s Innovative keyless access. It’s convenient and is customizable to fit your security needs.

- Deadbolt is available with any Schlage entry hardware
- 9-volt battery included
- Lighted keypad
- Up to 19 user codes
- Easy to add or delete codes
- Lifetime Mechanical and 3-Year Electronics Warranty

**AVAILABLE FINISHES**

- Lifetime Bright Brass
- Lifetime Satin Nickel
- Lifetime Antique Brass

**TOUCH KEYPAD ELECTRONIC KEYLESS DEADBOLT**

- Fingerprint-resistant
- Works in the rain and when you’re wearing gloves
- 100% pick-proof
- Sleek without sacrificing strength
- 2-year battery life with a 9V battery backup
- Illumination when you need it, on both the numbers and the lever
- Enhanced Security
- 100% bump-proof
- Graded Best in Residential Security, Durability, and Finish

**AVAILABLE FINISH**

- Tudor Brown
- Coal Black
- Oak
- Cherry
- Nightfall

* Only available in Fir and Poplar

**TUFTEX SMOOTH CLADDING COLORS**

- Snow Mist
- Sandpiper Beige
- Sandstone
- Classic Bronze*

* Smooth Sandstone cladding is a close match, but not an exact match to Sandstone paint color.
* Smooth Classic Bronze cladding does not match Rustic Bronze cladding color or Rustic Bronze paint color.

**ALUMINUM PRE-FIT CLADDING**

Cladding is worth the small investment. You can add cladding to any FrameSaver® or PermaTech™ Composite Frame.

Put the finishing touch on the inside of your entryway with our beautiful interior casing. Available in Cherry, Mahogany, Fir, Oak or Poplar wood.

Available for any door configuration including transoms.

Signet® stains are available on Cherry, Mahogany, Oak or Fir casing, and Heritage™ and Legacy™ stains are available on Oak or Poplar casing. Paint and glazed finishes are available on Poplar casing.

Custom Casing

Don’t see a casing style you need? We have a custom casing program that can meet your needs. Contact your dealer for additional information on our Custom Casing program.
HINGED PATIO DOORS

Hinged Patio Doors are swinging patio door systems available in 2 or 3-lite units and constructed of the same solid quality Signet® and Heritage™ Fiberglass, and Legacy™ Woodgrain Textured or Smooth Steel doors as our entry door units.

IMPACT SHIELD AVAILABLE
See pgs. 160 for available door styles

Designer Patio Doors with Heritage Fiberglass are NOT available in Certified Wind Load regions.
### STANDARD FEATURES

**A keyed Schlage® flair handleset with a Maximum Security thumbturn deadbolt** is included. Choose from bright brass, antique brass, satin nickel or aged bronze finish. Optional Lifetime finishes available.

The lock area is reinforced with a **20-gauge steel security plate** for added strength.

**Spring-loaded latch system** automatically engages upon closing. Latch also includes interior locking feature. **BetterVue® fiberglass screen mesh** is standard. Heavy-duty fiberglass, aluminum or SeeVue® stainless steel screen is optional.

Suspended by ball bearing rollers this **top-hung heavy-duty aluminum screen frame** reduces binding, creating effortless operation. Screen frames are available in all 16 paint colors.

**Z-AC™ Threshold with an auto-adjusting riser. Available in Mill or Anodized Bronze Finish**

Thresholds for **Impact Shield rated Hinged Patio Doors** have an oak-like riser and do not have composite base material.

### DOOR SWING

- [ ] Door Swing Options

### OPTIONS

**Custom Widths and Heights** - Need a little more height or a little less width? We are pleased to offer customized patio door widths and heights in \( \frac{1}{4} \)" increments.

**Door Swing** - (Doors viewed from above. Inswing only.)

**Finishes** - Patio doors are available in all finishes shown on pages 102-109.

* Optional Aluminum Frame Cladding will increase brickmold to brickmold width by \( \frac{1}{4} \)" and height by \( \frac{1}{8} \)".

Not all sizes available in all door types.
Vinyl Sliding Patio Doors are tested against the most stringent industry standards for air and water infiltration, wind load resistance, ease of operation, forced entry and much more. This means you’ll have lower heating and air-conditioning costs, easier cleaning, low maintenance and increased comfort.

IMPACT SHIELD AVAILABLE
See pgs. 167 for available door styles

LIFETIME LIMITED WARRANTY
Includes Glass Breakage & Seal Failure
All Vinyl Sliding Patio Doors are ENERGY STAR® Certified

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. BetterVue® fiberglass mesh is standard; heavy-duty fiberglass, stainless steel or aluminum mesh is optional.

Suspended by ball bearing rollers this top-hung heavy duty aluminum screen frame with BetterVue® fiberglass mesh reduces binding, creating effortless operation.

AccuVent™ is ProVia’s proprietary design featuring a sash lever combined with a top mounted ratchet and lock system allowing multiple venting locations and peace of mind. Available in all patio door colors along with optional decorative finishes for sash lever. Standard for Endure, optional for Aspect.

AccuVent™ has a clean, sophisticated look with an ergonomic finger-tipped lever design for ease of use. AccuVent is standard for Endure, optional for Aspect and has a Lifetime Warranty.

Galvanized steel reinforced panels ensure rigidity and stable operation.

New welding technology gives patio door corners a cleaner look. Standard on all laminated Endure™ patio doors with the option to upgrade on white, beige and sandstone.

Strong, multi-chamber profiles and 4⅜" frame depth offer greater thermal efficiency and increased sound abatement. (Endure Patio Door frames have Neopor® insulation)

Sill is reinforced with galvanized steel. Pair that with our patented water draining system, and the results are an efficient and durable base for our patio door.

Patented sliding system features four adjustable 1" wheels per operating panel to ensure smooth, easy and quiet operation.

The foot lock adds peace of mind when you want to leave the door open for ventilation yet keep would-be intruders out. Standard for Aspect, optional for Endure.

Fixed and mobile panel rails meet and interlock perfectly, making removal from the outside virtually impossible. Lower sill design provides safer entry and exit.

AccuVent™ has a clean, sophisticated look with an ergonomic finger-tipped lever design for ease of use. AccuVent is standard for Endure, optional for Aspect and has a Lifetime Warranty.

Please refer to the Endure and Aspect Patio Door Brochures for more information.
STORM DOORS

Every storm door is individually customized to the highest standards in the residential market for homeowners who appreciate impeccable, uncompromising quality.

All ProVia Storm Doors are available for use in the Impact Shield regions. While storm doors help protect your entry door from the elements, they are NOT wind-borne debris tested, and therefore are NOT considered an Impact Shield Product.
Durable, oven-baked polyester finishes are backed by a Lifetime Warranty for lasting beauty and low maintenance.

You’ll appreciate the finished look of our color matched aluminum installation screw covers.

Smooth function is essential. That’s why we include a quality door closer in every storm door package. Varies by model.

Our air release system features a continuous closing action without the delayed rebound action of previous generation closers.

Corrosion-proof corner gussets enhance the structural integrity of the door.

Extruded aluminum frame adds beauty to your door by virtue of the rounded cove molding along the glass edge of the extrusion.

All our storm doors are constructed with tempered safety glass.

Non-operable sashes are secured by our color matched polycarbonate clips or an internal sash lock system. Varies by model.

Each door features quality hardware that adds beauty and functionality to your new storm door. Varies by model.

Our bottom expander with sweep allows for a beautiful custom-fit to any entry. Varies by model.

Our bottom expander with sweep allows for a beautiful custom-fit to any entry. Varies by model.
The details are the small things that set our storm doors apart from the competition. A lot of small things add up to a big difference.

STORM DOOR PAINT FINISHING SYSTEM

Our paint process is computer controlled, ensuring professional quality every time. Paint is electrostatically applied with a vertical hydraulic reciprocator using a turbo disc that atomizes the paint particles for better coverage of contoured extrusions.

STORM DOOR PAINT COLORS

Always refer to our color selector for accurate color representation.

† Limited Colors. Available on entry doors and storm doors. Matching cladding and caulking not available.
Spectrum Series storm doors bring you smooth functionality, beauty and durability. Our exclusive top and bottom InVent™ retractable screen system allows you more venting options than ever.

**SPECTRUM STORM DOORS INCLUDE:**
- Two InVent retractable screens
- Triple seal bottom sweep
- 1¼” x 4½” wide sculptured frame

**LIFETIME LIMITED WARRANTY**
Includes Glass Breakage

**STANDARD HARDWARE & ACCESSORIES**

- Satin Nickel Sierra solid brass Mortise Hardware
- Painted Satin Nickel piano hinge
- 1½” Satin Nickel bottom expander
- Color-matched dual closers

NOT recommended or warranted for coastal applications
Ask to see our Inspirations Art Glass brochure for our complete selection of designs, color palettes and style availability.

- Bright Brass hardware, anodized brass piano hinge and brass-look bottom expander are standard on Spectrum storm doors with brass caming.

- When top sash opens, it passes in front of kick panel.

- Available in 8’ height

Acrylic is required (instead of tempered glass) for custom size storm doors where the sash size is greater than 20 square feet or the sash weigh is greater than 36 pounds. entryLINK will automatically change the glass selection to Acrylic based on these limits.

Note: The bottom expander on the Spectrum storm door is 2” on the exterior and 1½” on the interior to accommodate the frame profile.

For French Storm Door information refer to the ProVia® Door Price List.
Decorator Series provides a stylish, fresh look to accent your entry. Select one of the distinct styles from our Decorator Series storm doors.

**DECORATOR STORM DOORS INCLUDE:**
- Triple seal bottom sweep
- 1¼” x 4” wide sculptured frame

**LIFETIME LIMITED WARRANTY**  
Includes Glass Breakage
Ask to see our Inspirations™ Art Glass brochure for our complete selection of designs, color palettes and style availability.

**INSPIRATIONS™ ART GLASS**

Ask to see our Inspirations™ Art Glass brochure for our complete selection of designs, color palettes and style availability.

Acrylic is required (instead of tempered glass) for custom size storm doors where the sash size is greater than 20 square feet or the sash weight is greater than 36 pounds. entryLINK will automatically change the glass selection to Acrylic based on these limits.

Optional full screen with horizontal stabilizer bar available for all Decorator doors.

◊ Satin Nickel hardware, and painted Satin Nickel piano hinge are standard on Decorator storm doors with zinc caming or Inspirations Art Glass.

‡ Available in 8’ height

For French Storm Door information refer to the ProVia® Door Price List.

This spring-loaded, flush mounted lock secures the glass, virtually eliminating rattles and air leaks. Only available in Zinc finish.
Deluxe Series is the answer whether you’re looking for additional light, ventilation or protection from the elements. You’ll find the exact style you’re looking for in our Deluxe Series of storm doors.

DELUXE STORM DOORS INCLUDE:
- Double seal bottom sweep
- 1 1/4” x 3 3/8” wide sculptured frame
- BetterVue® Fiberglass Screen

LIFETIME LIMITED WARRANTY
Includes Glass Breakage

STANDARD HARDWARE & ACCESSORIES
- Heavy-duty color-matched closer
- Color-matched bottom expander
- 4 color-matched leaf hinges with bronze bushings

1-Year White
ACCESSORIES

FREEDOM PET DOOR
Factory Installed - Available on Flush Doors Only

- Solid aluminum construction with locking panel
- Soft single flap for tight weather seal
- White mitered aluminum frame
- Also available on entry doors. See page 130.
- Also available on additional storm door styles.
- Only available with heavy-duty closer, Pet Door N/A with dual closers

Medium
8¼” x 12¼” opening for pets up to 40 lbs.
Large
10¼” x 16¼” opening for pets up to 100 lbs.
X-Large
13¾” x 23¾” opening for pets up to 220 lbs.

MAGAZINE & MAIL SLOT
Lifetime Bright Brass, Lifetime Satin Nickel and Lifetime Aged Bronze magazine and mail slots are available on 074, 079, 279, 374 and 379.

#079 Self-Storing with mail slot option

ACCESSORIES

#279 Flush Half-Lite with Pet Door Option
PIANO HINGE & BOTTOM EXPANDER

Anodized Brass piano hinge and bottom expander

Painted Satin Nickel piano hinge and bottom expander

Painted Aged Bronze piano hinge and bottom expander

EASY-SET CLOSER

Just a slight push on the cap and it’ll stay open. Push door open further and it releases. Color matched to door.

Our air release system features a continuous closing action without the delayed rebound action of previous generation closers.
**FLORIDA**

Impact Shield Products are designed to protect your family and home against the harshest storms and deter burglars. All entry systems and patio doors in this Impact Shield Products section are wind-borne debris resistant and approved by the State of Florida. [floridabuilding.org](http://floridabuilding.org)

- Impact Shield
- Certified Wind Load
- High-Velocity Hurricane Zones
  (ProVia products have not been tested for use in High-Velocity Hurricane Zones)

Impact Shield Products have been tested for the Designated Catastrophe Areas in Texas. Refer to [provia.com/certification](http://provia.com/certification) for a complete listing of approved products.

We’re constantly testing new Certified Wind Load and Impact Shield products. For the latest information visit: [provia.com/certification](http://provia.com/certification)

All of our Impact Shield Products feature ComforTech™ laminated glass.

R-Value reflects properties of the glass only. Center of glass calculations are based upon software from Lawrence Berkeley National Laboratory.

**LIFETIME LIMITED WARRANTY**

Includes Glass Breakage and Seal Failure

Look for indicated ENERGY STAR® Certified Impact Shield Products.
ENTRY DOOR AND DESIGNER™ PATIO DOOR
IMPACT SHIELD FEATURES

![Diagram of door features]

- **All glass for Impact Shield Products is laminated** to provide protection against wind-borne debris.
- **Heavy-duty stainless steel hinges** resist corrosion and are standard in wind-borne debris regions.
- **Aluminum window trim** of our own exclusive design provides ultimate durability in the harshest of elements. Textured Steel doors have hand-stained smooth aluminum window trim.

VINYL SLIDING PATIO DOOR
IMPACT SHIELD FEATURES

![Diagram of door features]

- **All glass for Impact Shield Products is laminated** to provide protection against wind-borne debris.
- **Additional heavy aluminum interlock** on center stile adds durability and strength.

STORM DOORS

All ProVia® storm doors are available for use in the Impact Shield regions. While storm doors help protect your entry door from the elements, they are NOT wind-borne debris tested, and therefore are NOT considered an Impact Shield Product.
