Vinyl Architectural Shapes
Installation Instructions

Tools & Materials You Will Need:
- Drill & Drill bits: ¼", ⅜"

Installation Screwpack Contents:
- (4-8) #8 x 2" Phillips Panhead Screws (4 for units 24" - 30" wide and 8 for units over 30" wide)
- (4-8) ⅜" Color Matched Hole Plugs (4 for units 24" - 30" wide and 8 for units over 30" wide)

Remember: Always use the appropriate personal protective equipment.

Homes built before 1978 may contain lead paint. All replacement installations must comply with the U.S. EPA’s Lead-Based Paint Renovation, Repair, and Painting Program (RRP Rule). Read more about the RRP Rule and lead-safe work practices, on the U.S. EPA’s website at: www.epa.gov/lead

Contact your local recycling waste management center for waste disposal in your area. Always check local waste requirements and carefully dispose of waste in accordance with Federal and other regulations.

Installing Vinyl Shapes

Recommended installation screw locations at every 12" distance on sill, sides and/or header.

Step 1-
Pre-drill installation holes (see above recommended screw locations) using ⅜" drill bit on first wall. Then pre-drill installation hole in 2nd wall with ¼" drill bit (see illustration).

Step 2-
Using illustrations below as a guide, Install #8 x 2" Phillips Panhead screws into 2nd wall making sure screws bottom out.

Step 3-
Cover with color matched hole plugs provided.
