INDUSTRY ASSOCIATION
ProVia is a proud member of the Window & Door Manufacturers Association, which promotes the standards of excellence in the residential window and door industry, and advances these standards among industry businesses with resources designed to provide greater value for their customers.

ACCREDITATION AND TESTING
ProVia’s products are voluntarily third party tested and rated in several energy performance categories through the National Fenestration Rating Council and meet or exceed standards governed by the American Architectural Manufacturers Association.

ENERGY STAR®
ProVia manufactures energy efficient products and exercises environmental stewardship by recycling, reducing pollution emissions and much more. In fact, our company has received repeated awards from the Environmental Protection Agency such as Partner of the Year - Sustained Excellence for outstanding efforts in energy savings.

WHY CHOOSE VINYL

YOUR VERSATILE PATIO DOOR SOLUTION

Endure™ patio doors are constructed of an exclusive PVC formula, consisting of a unique mixture of resin and additives. A vinyl extrusion ensures long-lasting color retention and low maintenance, plus the added confidence of a warranty against rotting, cracking, pitting, corroding and peeling. The PVC formula gives the Endure patio door a very durable and rigid frame. The Endure patio door is truly a unique product, offering both solid vinyl and woodgrain laminate colors to suit your needs.

Customize your patio door by choosing the size, number of panels, interior and exterior colors, hardware finish and glass package. The design options are virtually endless!

WHAT TO EXPECT WITH YOUR ENDURE PATIO DOOR

Galvanized Steel Reinforced Panels and Sill

FineLine™ Technology Welded Corners (Standard on Laminated Units)

Patented Water Drainage System

Multi-Chamber Profiles with Neopor® Insulation

Patented Sliding System with 4 Adjustable 1" Wheels per Panel

Top-Hung Aluminum Screen Frame with BetterVue® Fiberglass Mesh

Spring-Loaded Latch Screen System Automatically Engages Upon Closing

Proprietary AccuVent™ Allows Multiple Venting Options

Perfectly Interlocking Fixed and Mobile Panel Rails

A PATIO DOOR TO FIT YOUR HOME

Two, Three or Four Panel Options

A PATIO DOOR TO FIT YOUR HOME

Fixed Sidelites

Transoms

LIFETIME

LIMITED WARRANTY

3
UNDERSTANDING YOUR PATIO DOOR FEATURES

VENTING AND SECURITY

AccuVent™ (Standard)
AccuVent is ProVia’s® proprietary design featuring a two-part interconnecting system at the sash rail and a ratcheting option at the top of the patio frame giving you multiple venting options. This will be standard on your Endure™ patio door. Footlock is available as an option.

Neither AccuVent nor Footlock are available for wind load or coastal impact rated patio doors.
FINELINE™ TECHNOLOGY

GIVE YOUR PATIO DOOR A WHOLE NEW LOOK

Endure patio doors feature an innovative new welding process called FineLine Technology. A FineLine welded corner is aesthetically more appealing than a traditional welded corner, as shown in the images on this page.

FineLine will be standard on any laminated patio door unit (interior or exterior) and is an option on white, beige and sandstone Endure patio doors.
Neopor®

Neopor is a graphite polystyrene rigid foam insulation that gives maximum efficiency and sustainability in building products. It is comprised of many small pockets of air within a polymer matrix containing graphite. The graphite reflects radiant heat energy like a mirror, increasing the material’s resistance to the flow of heat, or R-value. Most polymer-based foams exhibit a greater ability to slow the movement of heat as the temperature decreases; however, Neopor is unique because it increases R-Value as the temperature outside drops.

The vinyl profiles used in an Endure™ patio door are designed with premium wall cavities providing the highest levels of efficiency. This strong and rigid vinyl extrusion keeps you comfortable in your home without the need for insulation.

To provide further comfort, ProVia® uses Neopor insulation in certain cavities for even greater performance. Therefore, you can rest assured both the patio door frame and sash, along with the Neopor insulation are effectively regulating the temperature inside your home.

Weatherstripping is a very important part of preventing air from coming into your home. ProVia’s patio doors have weatherstripping on the frame and sash, ensuring you get a good seal at the important locations where air could pass through.

Bulb Seal

Bulb seals are seamless closed-cell compression seals that prevent water from penetrating the foam cell structure. Its extruded skin provides a unique UV resistant barrier with design features that enhance the weatherstrip’s sealing performance.

Barrier-Fin

Seal woven and extruded pile weatherstripping with fin provides a very effective barrier against air, water, dust and noise, sealing against even and uneven surfaces with resistance to abrasion.

YOUR SCREEN OPTIONS

STANDARD

BetterVue® Fiberglass

Your Endure™ patio door will come standard with a top-hung aluminum frame with BetterVue fiberglass mesh, which can be easily removed for regular cleaning and maintenance.

BetterVue screen mesh is very durable and flame retardant, providing an enhanced view, increased insect protection and improved airflow.

Now featuring Phifer’s® Water Shed Technology™, which preserves optical clarity by shedding water and resisting dirt and grime.

The Water Shed Technology features a hydrophobic coating that will not wash off, which allows the screen to shed water and debris from a rainstorm or garden hose. This means your screen virtually eliminates window panning, a process by which the water fills the open squares in the screen.

OTHER OPTIONS

SeeVue® Stainless Steel

Much stronger than the standard insect screen, this stainless steel screen is excellent for patio door applications. It is black coated for improved visibility and allows superior airflow.

If you’re looking for a stronger alternative to the BetterVue screen, upgrade to a SeeVue.

Also available: Aluminum and Heavy Duty Fiberglass Screen Mesh

SCREEN FEATURES

Spring-loaded latch system automatically engages upon closing with its interior locking feature. Picture is shown with BetterVue® fiberglass mesh. Heavy-duty fiberglass, stainless steel or aluminum mesh is optional.

Suspended by ball bearing rollers, this top-hung heavy-duty aluminum screen frame reduces binding, creating effortless operation.
Endure™ patio doors are available in appealing woodgrain interior colors, along with four popular exterior vinyl colors.

- Sandstone
- Classic Bronze

*Always refer to our color selector for accurate color representation.*
UPGRADE TO A PAINTED EXTERIOR

Complement the exterior of your home with a painted patio door to give your house a distinctive look. Choose from one of ProVia’s® standard paint colors (shown below), refer to the Color Lookbook for additional trending color options, or use your imagination and custom-match any color of your choice.

The factory-applied paint finish maintains long-lasting color due to its exceptional UV and heat reflective properties. Choosing to paint the exterior of your patio door means no worry of peeling, flaking or blistering.

*Paint finish will have a 15-year warranty. If you choose a painted exterior, allow for additional lead time.*

Exterior Paint Finish Options

Snow Mist  Café Cream  Primrose Yellow  Chateau  Sandpiper Beige  Sandstone
Sterling Gray  Clay  Geneva Blue  Enzian Blue  Forest Green  Vallis Red
Mountain Berry  Rustic Bronze  Tudor Brown  Nightfall  Coal Black

Always refer to our color selector for accurate color representation. Refer to the Color Lookbook for additional color options.

Custom-Matched Paint Colors

How to Order Custom Painted Patio Doors
1. Visit a Sherwin Williams paint store and select a paint color of your choice.
2. Specify the selected color name and paint number from the paint color swatch at the time of order.

OR
1. Provide your dealer with three 3" x 3" samples of the selected color from any store for ProVia® to match.*

*Homeowner sign off is required on all custom color matches. Color match fee applies.
Endure™ patio doors come standard with Multi-Point Mortise Lock hardware.
The Schlage® C Keyway on all keyed locking handles allow a single key entry for the entire house.

**SIGNATURE HARDWARE**

**Standard Finishes**
without Keylock. May upgrade to Keylock

**Decorative Finishes**
with Keylock

Keyed hardware also available with White interior and Beige, Sandstone or Classic Bronze exterior.
Shown: Black Signature Handle without Keylock
WHICH GLASS PACKAGE IS RIGHT FOR YOU?

FEATURING COMFORTECH™ WARM EDGE GLAZING SYSTEM

Most of your new patio door is glass. That’s why we use the ComforTech Warm Edge Glazing System featuring Super Spacer® on all Endure™ patio doors. This gives you reduced heat loss, warmer glass temperature and less interior condensation. All ComforTech products have passed stringent testing and are IG Certified to ensure seals are durable and will not leak.

WHICH GLASS PACKAGE IS RIGHT FOR YOU?

FEATURING COMFORTECH™ WARM EDGE GLAZING SYSTEM

Most of your new patio door is glass. That’s why we use the ComforTech Warm Edge Glazing System featuring Super Spacer® on all Endure™ patio doors. This gives you reduced heat loss, warmer glass temperature and less interior condensation. All ComforTech products have passed stringent testing and are IG Certified to ensure seals are durable and will not leak.

The No-Metal Advantage
Thermal efficiency through no presence of conductive metals is the Super Spacer hallmark.

Mylar 10-Layer Vapor Barrier
The Super Spacer thermoset foam matrix helps keep moisture out, and gas in, making conductivity virtually nonexistent.

Lasting Appearance
Our Warm Edge Glazing System stands up to the natural bending and bowing from temperature changes, barometric pressure and wind load.

Enhanced Noise Reduction
The all-foam formula’s excellent sound dampening properties reduce outside noise, even in industrial environments.

WHAT’S THE DIFFERENCE?

Krypton Gas
Inert to glass coatings, heat and spacers, krypton gas has the lowest conductivity of any gas used and raises the inner glazing temperature. This gas performs well in small chambers, making it the best choice for triple-glazed glass packages.

Argon Gas
Chemically inert to UV radiation, argon gas insulates better than air. It is sunlight stable, non-corrosive and non-toxic, making it the best choice for double-glazed glass packages.

ComforTech™ TLK-UV
ComforTech™ TLA-UV
ComforTech™ DLA-UV-HC
ComforTech™ DLA-UV

R-Value of 9
R-Value of 6
R-Value of 5
R-Value of 4

R-Value reflects center of glass data only. Actual values will vary based on the patio door package chosen.
ADD EXTRA PRIVACY AND TINT TO YOUR PATIO DOOR

Privacy Options
Choose from five different types of glass if you need light to filter in, yet want to maintain privacy. These glass styles look great in rooms where privacy is important. Regardless of where it is used, privacy glass reduces the likelihood of needing extra patio door coverings.

![Privacy Glass Options](images)

- **CHINCHILLA**
- **TAFFETA**
- **WATERFALL**
- **GLUECHIP**
- **OBSCURE PEBBLE**

Actual privacy levels will vary depending on your distance from the glass and also the amount of light in the room in comparison to the light outside your home. For extra privacy, choose two panes of privacy glass, rather than just one.

Tint Options
Our tinted glass can help reduce UV transmittance, solar heat gain and glare. Tinted glass options can give a room a whole new look, providing its own unique set of benefits. Be sure to choose the right one for your home.

![Tinted Glass Options](images)

- **Gray Tint**
  - Excellent glare control
  - Exceptional protection against interior fabric and color fading
  - Ultraviolet light protection

- **Bronze Tint**
  - High visible light transmittance
  - Warm glow to interior décors
  - Complements brick and stone
  - Ultraviolet light protection

- **Green Tint**
  - Subdues interior brightness
  - High visible light transmittance

- **Blue Tint**
  - Low shading coefficient
  - High visible light transmittance
  - Solar performance (reduces solar heat gain)
The style of grids you choose can make a big impact on your home’s appearance. You can choose from several internal grid patterns including variations of Cottage, Colonial and Prairie styles.

**Triple Glazed Glass**
Internal grids with triple glazed glass are placed between two glass panes with the added efficiency of a third pane.

**Double Glazed Glass**
Internal grids with double glazed glass are placed between two panes of glass.
ADD INTERNAL BLINDS

If cleaning dusty blinds makes you cringe, be sure to add internal blinds to your patio door. These blinds are made with sturdy aluminum and are custom-fit to the exact dimensions of each patio door.

Internal blinds can be lifted up, or simply tilted, depending on your lighting and privacy needs.

**Internal Blinds come with a 10-year Limited Warranty.**
Blind Slats are ½” wide.
Allow for additional lead time on your patio door order.
Not available in 50” x 80” or 96” x 80” sizes.

Blinds with Low-E on surfaces 2 and 4 are ENERGY STAR® Certified nationwide.

Complement the interior of your home with one of five colors:

**White internal blinds will have two operators (as shown above). Colored internal blinds will have one operator that lifts and tilts (as shown to the left).**
IMAGINE THE POSSIBILITIES
WITH INSPIRATIONS™ ART GLASS

Inspirations Art Glass allows you to do just what the name suggests, let your patio door reflect the inspiration of your imagination with your choice of design and color.

Explore Design and Color Options
Ask to see our Inspirations Art Glass brochure for available styles and color palettes, visit provia.com or use the ProVia® app to create custom color palettes and design your dream patio door.

Color Palettes
The greatest advantage of Inspirations Art Glass is the opportunity you have to add color to your glass. There are a variety of unique color palettes to suit your home’s style.

Color Palettes
- Coral Reef
- Caribbean
- Vineyard
- Timberland
- Sedona
- Clear Fill
- No Fill

Resin Beads
Available in four color options.
- Silver
- Black
- Gunmetal
- Clay

Combine your favorite color palette and bead color with your choice of design to show your personality on your patio door.

All Inspirations Art Glass requires additional lead time.
SHOW US YOUR STYLE AND CONNECT WITH US!

We love seeing how you apply our products to your home. Share photos with us.
Find inspiration for the exterior of your home. Download ProVia’s free app for iPad or try the online Visualizer at provia.com/visualizer.

**PROVIA VISUALIZER**

Use ProVia’s Visualizer to change the colors and styles of your home's doors, windows, siding, stone and roofing.

Let your imagination run free with this exterior home design tool. Select from a library of existing home styles, choosing one to match yours, or upload a photo of your own home.

In a few easy steps, update your siding color, add manufactured stone or a metal roof, give the windows a fresh look or personalize a new entry door.

Not sure where to start? Apply one of our pre-selected Designer Collections, then further customize the selections to reflect your own personal style.

**PROVIA APP**

Use the ProVia app to configure doors and windows or select from an extensive collection of vinyl siding, manufactured stone and metal roofing styles.

**FEATURES**

- Door and Window Configurator
- Vinyl Siding Profiles, Colors and Accessory Accents
- Manufactured Stone Styles, Color Palettes and Grout Options
- Metal Roofing Styles, Colors and Trim Accents
- View Videos, Photo Galleries and Catalogs
