DECORATIVE GLASS
CREATE A FOCAL POINT WITH WINDOWS
Want to make your home stand out? Select one of the beautiful decorative glass options to create a dramatic focal point. Each piece of glass is unique, customized to fit any window shape and style. The decorative glass showcased in this brochure can be ordered in full, simplified and transom pattern options. Add some elegance to your design by choosing a caming color to complement your home.

You can add windows with decorative glass to any room in the house. The design options available with this program are virtually endless.

Decorative glass available on Double Hung (top and/or bottom sash), Casement, Awning, Slider, Picture and Architectural Shape styles of windows.

Designs will vary depending on window size. A drawing, showing the pattern based on the exact window size ordered, will be provided for approval.

Custom quotes are available - please allow up to 3 business days to receive pricing.

These decorative glass designs are also available on ProVia Entry Doors. Please see the ProVia Entry Door Catalog for more information.

Highly-skilled craftsmen assemble hand-beveled glass accented with a variety of unique glass options by precisely cutting, mitering and soldering each component into artistically designed patterns. Decorative glass purposefully seeks visual character through aesthetic imperfections, while maintaining structural stability. These “imperfections” mimic the hand-made sheet glass of centuries past. They come in the form of textural waves and striations, random seeds (air bubbles) and a variety of other natural effects.

Decorative glass achieves its personality through these apparent flaws and no two sheets are ever identical. Each glass panel is hand-made and reflects minor differences from piece-to-piece. This is characteristic of any hand-made product and adds to the charm and beauty of the product.

Decorative glass is continually checked for flaws. The patterns can vary in size and particular shapes, but pose no danger of spontaneous breakage or structural instability. Patterns that are severely out of character with the glass are not accepted. Our goal is to provide the finest quality glass panels.
